Measles have become almost an epidemic in this section.

Mr H P Cox, one of our former teachers at Trogdon, was here last Sunday.

Quite an uncommon occurrence happened at Brower's Mills last week. Mr Dumas Brower, having been complaining for a few days, was taken suddenly worse and fainted falling on the floor. His wife tried to get him up but failed. Thinking that he was dead ran for help, but when she returned he had recovered consciousness, but could not speak for a while. The news went on that he was dead and somebody told that he was to be buried the next day. A good many friends and relatives went to see the corpse, and found Mr Brower sitting by the fire, but still very feeble. We hope he will soon be out again.

This section of the county has become very attractive to the lumber men lately. Every few days men from different parts of the state and other states are seen looking after timber.

Representative Page Speaks.

The Washington correspondent to the State papers on Saturday says Representative Page delivered his maiden speech in the House Saturday speaking on the pending railway rate bill. Mr Page, who has the family gift of expressing himself well and forcefully, acquitted himself well. His thoughtful speech was given close attention, and he was heartily congratulated when he concluded.

Apologies are like tears. They should be suppressed.

ELECTRIC ROAD IN ASHE.

Col Andrews, of the Southern to Use The Turnpike From Wilkesboro to Jefferson.

It is now given out that Col Andrews, of the Southern, and others interested, will convert the turnpike leading from Wilkesboro to Jefferson, into an electric railroad just as soon as possible. In fact it is stated that negotiations for the dynamo, rolling stock, and other needed appliances for the road are being made. This sounds very much like business, for our county. If the road can be electrified even to the top of the mountain, the chances are good for it to come on to Boone.

S A L to Knoxville.

Knoxville, Tenn. February 5.—The past two weeks has seen much activity in railroad circles here. It is believed that the Seaboard Air Line is planning to enter this city in which case they will build from Rutherfordton, N C., to Waynesville, where it could use the Tennessee and North Carolina's tracks.

A survey has been made from this city to Newport for a line which is believed to have a connection with the enterprise.

Never mind worrying about the man who tells you that he is worked to death.

Eighty Years Old.

Mr John Bean, living near Cagle's Mill, celebrated his eightieth birthday Friday, giving a sumptuous dinner to his friends and relatives. The occasion was greatly enjoyed. Our correspondent at Sugg's Creek reports that all were delighted when the aged host rose, walked to the center of the floor, jumped and cracking his heels together twice exclaimed that he felt younger than he did twenty years ago.

May he live to celebrate many more anniversaries.

SPECIAL REMARKS.

I am sure that my remedy will give perfect satisfaction in every case where a TONIC, ALTERATIVE, PURIFIER OF THE BLOOD OR NERVINE is needed. I do not believe its equal can be found for nervous prostration, and when one is "rundown," it will certainly build up and restore to perfect health. I used to direct if half dozen bottles of my Remedy be taken and no benefit felt to stop it, that it was useless to try more, but I have met with a great many chronic cases, where no perceptible benefit was felt on the first half dozen bottles, and its continued use effected a cure.

In chronic cases of long standing where any of my Remedy is needed at all the use of a dozen bottles is necessary, and in many cases more. Some take half a dozen bottles and more before feeling any benefit; a great many tell me they have felt better from the first dose; most report benefit on second or third bottle.

It will cure INDIGESTION and stomach troubles. It will counteract BLOOD POISON. In such cases give a wine glassful every 15 or 20 minutes until the effect is felt in the head.

I most urgently recommend the Remedy to every one suffering from any trouble that comes from impure, impoverished, or poisoned blood or a "rundown" system.

The use of the Wash is of the utmost importance to be used in connection with the Remedy, in cases where there is any external trouble inflammation, ulceration, or itching humor.

In Memoriam.

Died on Dec 25th, 1905, at her home, Star, N C, Mrs Flora A, wife of Lieut H C Ingram, in the 56th year of her age. She leaves, to mourn their loss, a husband and four children, J R Ingram, of Star, Mrs A A McKeethan, of Aberdeen, Mrs C J Fields, of High Point, and Sam T Ingram, of Star, and a brother, W R Lewis, and a sister, Mrs P L Shamburger, of Hill's Store, N C. She was a daughter of Samuel and Elizabeth Lewis, was born and grew to womanhood and spent the greater part of her married life near this place. It was only a few years ago that the family removed from Randolph to Star.

The writer has often remarked that Mrs Ingram was one of the best women he ever knew. In all her life I never heard her speak evil of any person, and while she was ever ready to praise our virtues, she was also ready to throw the veil of charity over our foibles, whatever they may have been. She took no delight in the gossipings and in reciting the misfortunes of the erring. She realized the fact that perfection on earth has never been attained; the wisest, as well as the best, have erred.

She was kind and sympathetic, relieving the distressed when in her power; an affectionate wife, and she "looked well to the ways of her household and ate not the bread of idleness"—"her children will rise up and call her blessed and praise her."

Criticism, like charity should begin at home.

A BANK WORTH CONSIDERING. There are two kinds of strong banks. One has grown strong through age, through the natural growth and wealth of the community; the other through its own persistent efforts backed by ability and worth. The Wachovia Loan and Trust Co. is twelve years old; has resources exceeding FOUR MILLION DOLLARS. It has won the confidence of the people because of its large capital and profits, (\$700,000.00,) safe methods and the character of its stockholders and directors. This bank would have to lose \$700,000.00 before a depositor could lose one cent. It has ever been among the first to adopt methods which now characterize present day banking, looking to the Safeguarding of Its Depositors. It offers an excellent opportunity for people everywhere to deposit money here safely; either on checking accounts or in its Savings Department, the latter receiving a liberal rate of interest, all this being done safely through our Banking by Mail Department.
