

PARIS AND NEW YORK FASHIONS.

The Question of Style Outlines Practically Settled—the Latest in Skirts, Sleeves and Coats.

Inside the great shops one could almost be convinced that, by some species of magic, the season had been advanced several weeks.

Certainly the filmy fabrics, with exquisite, artistic floral designs, the delicate laces and dainty embroideries, which elicit constant exclamations of admiration from the throngs of fair visitors, seem to belong more to midsummer than to early spring.

There are also spring and summer suits and gowns on exhibition; and though these forced blossoms cannot be expected to represent the last word of fashion in the matter of details and accessories, they indicate the spring trend in their outlines.

In Paris, the struggle for supremacy between the princess and empire styles has ended in triumph for the princess gowns for general wear and street toilettes. But the empire, though subordinated, and relegated to house and evening wear, will still be a distinguished factor in modish attire.

The princess, or corselet, skirt is the prime factor at present, and in its various modifications is employed for all types of toilettes, from the simple morning suit to the daintiest, most cloud-like of lingerie frocks.

The skirt in which the princess effect is achieved by gores which continue from hips, whence the seams are lost in voluminous folds, is the sort chosen for suits of mohair, panama, fine French chevrot and allied fabrics, as well as for gowns of hennetta and the heavier varieties of silk or satin.

For volles and other sheer fabrics, or for very soft, light weight silks, such as radians, and foulards, the princess effect of the skirt is developed with shirring or tucking, while in lingerie frocks the tucks or shirrs are employed, and a pointed girdle is outlined with inserts of lace or embroidery. This idea is distinctly new.

The circular skirt, since its setting in—a tendency to sag at the sides—has been overcome by various devices, born of the genius of designers, is more popular than ever, and the plaited skirt with hip yoke is still in the running.

Two coat styles threaten to monopolize the favor of the modish woman, the glorified bolero and the pony coat. Each has, apparently, a mission of its own: the bolero is so intimately associated with the princess skirt as to be almost inseparable from it, and the pony coat is most frequently seen in company with circular skirt.

The street suit or gown will continue to be short; dressy frocks will have a short sweep at the back, while for ceremonious toilettes a train of medium length is correct.

Sleeves will be of elbow or three-quarter length, the newest elbow sleeve ending just above, instead of below, the point of the elbow. The long sleeve is used only for coats or strictly tailored suits or shirt waists.

Fashion has made a most lavish and varied provision of trimmings this season, and two or three kinds on one garment will frequently be employed.

Thanks are due to the May Manton Co for this illustration of mod-spring costume.

To Cure a Cold in One Day.

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVES' signature is on each box. 25c

Every Two Minutes

Physicians tell us that all the blood in a healthy human body passes through the heart once in every two minutes. If this action becomes irregular the whole body suffers. Poor health follows poor blood; Scott's Emulsion makes the blood pure. One reason why

SCOTT'S EMULSION

is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advantage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even before you expect it.

We will send you a sample free. Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy. SCOTT & BOWNE Chemists 409 Pearl St., N. Y. 50 cents and \$1.00 All druggists

Farm Animals.

Number and Value of These in North Carolina—2,416,256 Worth \$55,184,393.

The crop reporter of the United States Department of Agriculture gives the following statistics of the number and value of farm stock in North Carolina on the first of January:

Horses	281,401	Value, \$17,790,803
Mules	108,774	Value, 19,434,800
Milk cows	278,206	Value, 7,088,100
Other cattle	47,259	Value, 8,887,28
Swine	219,574	Value, 5,805,034
Sheep	1,158,229	Value, 5,590,219
Total	2,416,256	Value, \$55,184,393

In speaking of this report Mr. T. K. Bruner, secretary of the State Board of Agriculture, said:

"This record is remarkable for the surprisingly low number of sheep. The State is well adapted to the production of sheep, and it is well known that they are less expensive to keep than dogs. It is too well known that thousands of acres of grazing lands are open, scattered from the coast to the mountain tops, that these lands are capable of sustaining, with but little additional feed in the winter months, hundreds of thousands of sheep, yet we are confronted with the statement that there are in round numbers but 200,000 sheep in the State. Virginia, just to the north of us has nearly 500,000 and Pennsylvania, where land values are much higher than in this State, has more than a million.

"Should not our people turn their attention to this industry.

VALUABLE TO MERCHANTS.

The Experience of a Bunch of Kansas Business Men.

The story is told of fifteen merchants of Topeka, Kansas, who last year, banded together, pledging themselves against investing in any graft advertising, such as calendars, hotel registers, blotters, yard sticks, fences and bill boards, and the result according to their figures was \$5,000 saved. They found that newspaper advertising gave them the results, and was less expensive.

And this the history of other places and their merchants. What medium reaches those who want goods, is the question, and it is more and more found to be the newspaper, which seldom is confined to one family of readers but goes about and is persistent with its big letters and figures, its designs and pictures which all proclaim bargains and the articles which every member of the family needs.

And it is not for one day that these ads so persistently demand recognition, but day after day, throughout the year, until every reader, every person to want of anything, looks to the columns of the newspaper, not to any sign on the street, and finds what is wanted and where to get it.—New-B to Journal.

PROMISING FUTURE.
Some Bits of Information About Denton, Davidson County.

Recently the Davidson Dispatch contained an interesting sketch of Denton, which is just over the line from Randolph, in Davidson county from which we make a few extracts.

Denton is comparatively young, dating from 1879, the year the post office was established. S. M. Peacock was the first postmaster. In 1880 the first store was opened by B. I. Harrison and J. M. Daniel. They did business for several years, when it was continued by Mr. Daniel, who still does a thriving mercantile business there.

In 1880 Dr. A. Anderson, of Davie county began his practice at Denton, his only possession at that time being \$5.00 in money, a few medicine bottles and a bay horse. He put every penny into his practice in Montgomery, Randolph and Davidson counties. To-day he is the largest property owner in the section. Dr. Anderson built the first residence at Denton.

The population of Denton numbers only 118 people, but has two good paper mills and several prosperous mercantile enterprises and is being connected with the outside world by the Thomasville and Glen Aena railroad.

Denton is only fifteen miles from Whitney and must be greatly benefited by the electric power, the new railroad and the development that will take place in the surrounding country. Good factory sites can be had in the town and raw material is every where in abundance. There is a billion feet of the finest timber in the vicinity. As a farming section this section is as rich as any in Davidson. All the farms are plentifully supplied with water and the country is healthy. The railroad will be ready in a very short time—the grading having already been done, and Denton will be the terminal for some time to come. The people are all "home folks," which means that they are splendid citizens. Their community is greatly blessed with natural resources, and now that a railroad reaches it, it will come to the front very swiftly. The place offers many inducements to home hunters and manufacturers.

The best safeguard against headache, constipation and liver trouble is De Witt's Little Early Risers. Keep a vial of these famous little pills in the house and take a dose at bed time when you feel that the stomach and bowels need cleansing. They don't gripe. Sold by Standard Drug Co. and Asheboro Drug Co., Asheboro, N. C.

Don't think because you are a "smooth rascal" that the devil will place you in a cool place.

Indigestion is much of a habit. Don't get the habit. Take a little Kodol Dyspepsia Cure after eating and you will quit belching, puffing, palpitating and frowning. Kodol digests what you eat and makes the stomach sweet. Sold by Standard Drug Co. and Asheboro Drug Co., Asheboro, N. C.

The best way to rid the system of a cold is to evacuate the bowels. Kennedy's Laxative Honey and Tar acts as a pleasant, yet effectual cathartic on the bowels. It clears the head, cuts the phlegm out of the throat, strengthens the bronchial tubes, relieves coughs, colds, croup, whooping cough etc. Sold by Standard Drug Co. and Asheboro Drug Co., Asheboro, N. C.

RHEUMATISM
Bone or Back Pains, Swollen Joints, Itching, Burning Skin
CURED THROUGH THE BLOOD BY B. B. B.

Leading Symptoms—Bone pain, statics or shooting pains up and down the leg; aching back or shoulder blades, swollen joints or swollen muscles; difficulty in moving around; you have to use crutches; blood thin or skin itchy; aches, pains and burning itching pains; and nervous weakness, lameness, gout, etc. Botanic Blood Tonic (B. B. B.) will remove every symptom, giving quick relief from the first dose, and B. B. B. sends a stimulating flood of warm, rich, pure blood direct to the paralyzed nerves, bones and joints, giving warmth and strength just where it is needed, and in this way making a perfect, lasting cure of Rheumatism in all its forms.

Weak, Inactive Kidneys—One of the causes of Rheumatism is due to inactive kidneys and bladder. B. B. B. strengthens weak kidneys and bladder, draining off all diseased matter and all uric acid, so the urine flows freely and naturally.

Botanic Blood Tonic (B. B. B.) is pleasant and safe to take. Thoroughly tested for 30 yrs. Composed of Pure Botanic Ingredients. Strengthens Weak Stomachs, cures Dyspepsia. Price \$1 per large bottle. Take as directed. If not cured when right quantity is taken, money refunded. Sample Sent Free by writing Blood Tonic Co., Atlanta, Ga. Describe your trouble, and special free medical advice to suit your case, also sent in sealed letter.

There is Hope—The above pictures represent the before and after effect of Botanic Blood Tonic (B. B. B.) in a most severe case of Rheumatism. It is no fancy picture—but a genuine case. It is simply wonderful the effect B. B. B. has on Rheumatism. It purifies the blood, making it pure and rich, and destroying the uric acid in the blood, which causes the awful symptoms of Rheumatism.

B. B. B. restores the joints, straightens out the bent back and makes a perfect, lasting cure after all other remedies fail.
