The South Wants Settlers.

According to the plans of officials of Southern railroads, a movement will be inaugurated in the near future by which the South and Southeast will secure its share of homeseekers who are leaving the North and Northeast finding homes in a warmer and more advantageous climate.

A large number of homeseekers have been migrating to the Southwestern States, and railroad representatives of this section intend to ask the enforcements of rates from the Northern States to the South and Southeast by which many emigrants can find homes in this section.

So interested have the officials become that they propose to hold a meeting of all the railroads of the country into Chicago when plans can be discussed by which rates can be secured for bringing the homeseekers to the South and Southeast.

The movement was enthusiastically discussed at the midwinter conference of the Southeastern Passenger Association at Tampa, when was decided to ask the railroads of the North and Northeast to put in force reduced rates to this section of the country.

There has been a great advent of the homeseekers to the Southwest, breaking all previous records. Over 10,000 settlers passed through Kansas City recently.

With the splendid advantages which the South possesses, there is no reason why settlers should not be induced to come South.—Ex.

Mr David A Sikes, of Pisgah, paid the Courier a visit last week, the first in three years but he says he has not been to Asheboro during that time. He is one of our best farmers, and exhibited some fine corn which he has been cultivating under the direction of Prof Massey, the well known authority on agriculture. He said he had been cultivating that corn, growing his own seed since the 60s, and until six years ago he rarely got more than one ear from the stalk. Under direction of Prof Massey he now raises two to the stalk and frequently more in good soil.

He finds the Southern Agriculturist (which is offered as a premium to Courier subscribers who pay in advance) a great help in cultivating his farm.

Cap: G F Burns, who represents the party of capitalists from Cleveland, Ohio, who are opening up a gold mine on Davis Mountain, five miles southwest of Asheboro, is installing a machinery there preparatory to operating the mine. Capt Burns says work will begin by the 15th of March.

WASHINGTON LETTER.

Washington, D C, March 10, 1906.

RYAN-BELMONT.

Last week I warned you of the dangers which threaten the democratic party through RYAN-BELMONT control. And now my statements have been confirmed by a voice from the inside. Mr De Lancy Nicoll, who acted as Chairman of the Executive committee of the Democratic National Committee all through the last campaign, and who knows every move that was made, appeared for RYAN-BELMONT in the Supreme Court of New York defending the RYAN-BELMONT right to steal one hundred million or so through the street railroad merger, and brazenly stated in open court that the hostility of the Hearst papers to the merger was caused solely for the reason that RYAN-BELMONT had given the nomination to Parker. When De Lancy Nicoll makes such a disreputable statement openly you can bet it is the truth. Are you going to let them give it to one of their tools next time, or will you wake up and see that the genuine Democrats have a voice in the selection of a representative man to head their ticket?

This RYAN-BELMONT reptile is one of the queerest and most dangerous freaks of natural history. Its head, Thomas F Ryan, is the most dangerous individual in the United States to-day, mentally, morally, politically, and otherwise. Its tail, August Belmont, is the least harmful in each of the same respects. And although its tail is most often in public view its head does all the thinking for the combination. This bunch of pirates of prosperity don't care a rap for politics, anyway. Their sole idea is to get control of both parties, nominate one of their deputy pirates on each ticket, and sit quietly back and hitch up new schemes to absorb the money of the country as fast as YOU PEOPLE can earn it. If you want a chance to see Democracy victorious, and to be allowed to keep your money after you have earned it, take my tip and begin to root for Hon Chas A Culberson of Texas as our next Presidential nominee, and watch him exterminate this band of financial perverts.

PURE FOOD BILL.

When the pure food bill passed the Senate its most pernicious features had been so removed by various amendments that, although it still retained his name, Senator Heyburn required an introduction to it, as he could not recognize it as his own. By the time the House gets through with it we will probably have a good pure food bill, as it only needs a few additional amendments to make it the same as the amendment offered by Senator Money, which is conceded to be the best food bill offered at this season. Senator Bailey's speech on this bill was one of the ablest made this season in the Senate, and he tangled up Senator McCumber so skillfully that he looked like a bunch of bow knots on a bed spring.

TILLMAN HAS RATE BILL.

Senator Tillman has been selected by the Senate Committee to report the railway rate bill. This necessitates numerous conferences with the President, and as the wielder of pitchforks and lightning, and the man with the strenuous teeth, have the same regard for one another that an aggressive tomcat has for a succulent mouse, interesting times are to be expected. So if you are awakened by a strange noise, accompanied by violent tremblings of the United States, don't get scared. It will only be the first conference.

Placing the rate bill in the hands of Senator Tillman marks the first time in our history that the fight for an administration measure has been led by the leader of the minority party and must depend on the minority for passage. This proves that the railway rate question is good Democratic doctrine, and like the ship subsidy bill is just a little more Democratic thunder stolen by the Republicans to make them popular with the people.

DEMOCRATIC HOUSE.

John W Yerkes, Commissioner of Internal Revenue, a Republican, who is considered one of the shrewdest politicians in the country, predicts a democratic majority in the House at the next session. He says that internal wrangles among the Republicans in various parts of the country make this a strong probability.

CHAS A EDWARDS.

The millionaire who has caught up with fortune by turning sharp corners is much poorer than the bankrupt who failed doing his honest best. That much talked of "armor of protection" may protect the wealthy man in a while, but usually it is a coat as much help as a hindrance to a hundred-fold loss.

St Patrick's Day Party.

A pretty party for the seventeenth of March may be given by having all the decorations green, using cheese-cloth of that peculiar green, sacred to St Patrick Harps, potatoes shamrocks and even the Japanese jointed snakes may figure in the decorations. The Irish flag may be purchased in all sizes and adds much to the attractiveness of a room.

Cards may be the amusement, or the affair may be a luncheon at which the following green and white menu be served.

Cream of celery soup, sprinkle with chopped parsley, breasts of chicken fried and served with fluffy mashed potatoes over which parsley is sprinkled; celery sticks stuffed with cottage cheese and chopped nuts creamed cauliflower. The salad is of white grapes, blanched almonds, celery and apples and the dessert is the palest green pistachio ice, served in cloven forms. Tiny silk shamrock pins ornament the naivins and candy boxes are the most realistic imitations of Irish potatoes. Carnations and maiden hair ferns form the center piece, with four candles in glass holders and green shades.

Mr and Mrs S H Hearne have in their possession small phials containing samples of the water from Moses Well. It was sent them by Mr Thos J Hurley, of New York, who recently made a visit through Egypt, and who is well remembered in Albemarle through several visits he has made to this place. The well referred to is made famous by the Bible story of Moses smiting the rock, to quench the thirst of the legions who were marching with him in the wilderness. It stands in full view of Mt Sinai, where the Ten Commandments were written.—Stanley Enterprise.

If you are troubled with Piles and cant find a cure, try Witch Hazel Salve, but be sure you get that made by E C DeWitt & Co, Chicago. It is the Original. Another Enterprise for Rockingham.

We learn that borings for water have been going on around Rockingham for some time for the purpose of getting a supply of water to be used in a stamping plant soon to be erected here. The right kind of water it seems has been found near the county home. It is said the company owning the plant will employ somewhere about 300 men. This will be another important enterprise for Rockingham, if all reports are true.—Anglo Saxon.
