### IF WE COULD ONLY KNOW!

## Stomach Trouble and Nervousness Cured.

Four years ago my general health gave way. I was afflicted with a distressing stomach trouble, and could not touch solid food of any kind. For one year I would vomit everything I would swallow, even down to medicine and water. My dramach would not estain a thing down to medicine and water. My stonach would not retain a thing. No one can know what I suffered from weakness, diziness, shortness of breath and nervousness. I often felt like it would be so much better could I die and get out of my suf-fering. Off and on I was nucle doctors' treatment for three years, and I can only say that doctors' medicine did me no good. Then some good fate put one of Mrs Joe Person's pamphlets in my hands, and I read where so many had been curred that were as bad off as I was. I got ms a bottle of the Remedy, and from the very first dose I took I knew I had struck the right thing It was the first medicine I ever It was the first medicine I ever took that the first dose did me good, For the first time in a long time, I was not nauseated after taking it. I continued it, and continued to improve until I took thirteen bothes, and it made a perfect cure of me. It has been a year since I was cured, and I know I am well. I recommend it to everyone who has stomach trouble and to all who have rheumatism, as the tried to get me to take it long refore I did, but I thought, because et will cure rheumatism was no reason it would cure stomach trouble. I had no faith in anything: it was as a last resort I tried it. How much suffering it would have saved me from had I tried it three years before.

House-cleaning time is approach-ing, when winter garments must be packed away, and sometimes the most careful of housewives fail to inost careful of housewives fail to make sufficient provisions against moths. Here is an old-time house-keeper's plan: Be sure everything that is to be packed away is thor-onghly brashed in every seam, bits of trimming, fold and gather, so that no possible moth eggs remain. Have furs combed, and beaten with a switch. Then pack them in perfectly clean tranks, boxes of chests that have been lined with clean newspapers three thick. Sat nate bits of absorbent cotton with

strength and purity. It is sold in almost all the civilized countries of the globe.

If the cod fish became extinct it would be a world-wide calamity, because the oil that comes from its liver surpasses all other fats in nourishing and life giving properties. Thirty years ago the proprietors of Scott's Emulsion found a way of preparing cod liver oil so that everyone can take it and get the full value of the oil without the objectionable taste. Scott's Emulsion is the best thing in the world for weak, back ward children, thin, delicate backward children, thin, delicate people, and all conditions of wasting and lost strength.
