PRICE ONE DOLLAR A YEAR

Wm. C. HAMMER, Editor.

Entered at the Post Office at Asheboro as Second Class Matter.

The New York Sun is authority for the statement that every body lies but Roosevelt. Our esteemed contemporary, it appears, has formed the habit of calling those who see fit to disagree with him liars or falsifiers.

Referring to the candidacy of Mr. J. A. Long, of Alamance county, for corporation commissioners of the Statesville Landmark says:

"He favors two-cent passenger fares, reduction of freight rates to a point that will leave the railroads fair and reasonable dividends on the actual value of their property, and taxation of the railroad on the same value on which they are entitled to earn dividends. The people who favor these things, and the great majority do, have opportunity to give voice to their convictions by supporting Mr. Long."

"The President is evidently a quitter. While it is not exactly the proper thing to criticize the President, yet it is clearly demonstrated that he has made a full surrender on the railroad rate bill. After coquetting with democratic senators to secure enough votes to overcome republican opposition, he changed base, agreed to knock out Overman and other amendments, and sanctioned the passage of a rate bill which will, in the opinion of those who have studied its provisions, amount to nothing and utterly fails to give the relief so much needed."

DEMOCRATIC DOCTRINE.

The endorsement of Robt. L. Taylor as senator, to succeed Senator Carmack, in Tennessee Monday closed a long and bitter campaign between the candidates and their friends which was watched with much interest in and out of that state. While the primaries have endorsed Mr. Taylor, still there seems to be some doubt of the legislature confirming it, from the fact that the bitterness of the contest has resulted in a division of the party in that state and unless something is done to unite the Democrats election this Fall will witness a Republican legislature resulting in the ultimate defeat of Mr. Taylor.

Both are excellent gentlemen and Mr. Taylor will make a good record as did Mr. Carmack. He was not defeated for failure to perform his duty. On the campaign Mr. Carmack once said:

"If you want a senator, who will crawl at the feet of the president whining for a crumb or a bone, he doesn't live at my house. If I have offended the president of the United States it is because I have defied the blood that is coursing through my veins. I would rather be a white man than a senator, and if I can't talk like a white man on the floor of the senate I don't want the office."

"The title of senator is yours to give. You can give and you can take it away, but the title of gentleman is my own and you can neither give it to me or deprive me of it."

This is straight Democratic doctrine.

Mr. Simmons is Right.

That Senator Simmons is watchful of the people's interest in handling the finances of the government, and that his influence is recognized by his associates appears in the fact that among many suggestions made by him, which have resulted in locking the treasury to hold grafters, the Senate postoffice committee has adopted his amendment requiring the postmaster-general to find as a fact that the extra appropriation to the Southern was absolutely necessary or not before authorizing the expenditure.

Senator Simmons was subjected to much criticism on this score, but it is as it should be. Mr. Simmons only desired an investigation as to whether this service should not be given without extra cost. Mr. Simmons, as a majority of our people are opposed to "Subsidy."

Why suffer with spring tiredness, mean, cross feeling, no strength, no appetite? Hollister's Rocky Mountain Tea will make you well and keep you well. 35 cents, Tea or Tablets. Asheboro Drug Company.

FOOLING THE VOTERS.

Promises to Revise the Tariff Again Broken by Republicans.

The trusts and their protected corporations are in high glee at the turn political events have taken by the concentration of public opinion upon railroad rate legislation. Mr. Payne, the Republican leader in congress and chairman of the committee on ways and means, which controls all revenue legislation, has declared in a signed statement that there will be no tariff bill reported at this session of congress. This Republican stand put President Roosevelt to last fall by President Roosevelt and Speaker Cannon, and the personnel of the committee of ways and means was selected by Speaker Cannon, so that a majority were ardent protectionists. Thus those Republican voters who favored the revision of the tariff that fosters trusts and allows them to charge plundering profits were again fooled after voting for many Republican candidates for congress who promised to vote to revise those tariff schedules that protected the trusts, prevented competition and allowed the trusts to sell cheaper abroad than here.

When those Republican congressmen who were pledged to tariff reform elected Mr. Cannon as speaker of the house and adopted rules that gave him automatic power over legislation they knew they were selling out their constituents to the protected monopolies and giving the party machine the power to defeat or pass such legislation as it pleased.

The same conditions will obtain at the election next fall, and the question is, Can the voters be fooled again to vote for Republican candidates for congress who will go on standing pat and let the trusts continue to plunder the consumers? Promises of Republican candidates are of no avail unless the pledges are given to keep out of caucus and vote for a speaker who will agree to give tariff revision the right of way. That Mr. Cannon will never concede to, for he is an ardent protectionist. The membership of the next congress will be more evenly divided between the parties, and the result in any district may determine which party shall control. The trusts and corporations will pay money to the Republican campaign fund with the understanding that their interests are to be protected, but none but the voters themselves will furnish funds or efforts for the election of the Democratic candidates. That alone should be their recommendation to independent voters if they measure up, as they should, to the Jeffersonian requirements of ability and honesty.

What the Politicians Say.

The Republicans of Trego county adopted a platform at their recent convention which contained this and nothing more: "Resolved, That we leave well enough alone." The Republican politicians of Trego must be part of the political machine that runs Kansas in league with the trusts and combines, but the voters have been kicking vigorously for reform. It is only the other day that the whole state was up in arms about the Standard Oil trust and the unreasonable railroad rates, yet these Republican politicians resolve that "we leave well enough alone." Yes, leave the trusts, the railroads, the life insurance companies and all the public grafters alone. They pay the boodle to the campaign fund, and the Republican politicians of Trego county handle their share of it, and they, of course, desire to be let alone, but the taxpayers and the shippers and the policy holders are telling a different story. Instead of leaving the grafters alone they demand they shall be put in stripes.

All over the country the Republican politicians want to be let alone, but there seems to be a general determination to turn the rascals out.

Income Tax.

The Corporation Commission has sent to registers of deeds and chairmen of the boards of county commissioners letters of instruction about how to proceed in listing and reporting the income of taxpayers. The letter in part says and we therefore reproduce Mr. Brown's instructions:

The auditor of the State has furnished you with blanks to be sent to the list-taker, and also with envelopes addressed to the corporation commission; these to be furnished to the taxpayer by the list-taker. You will note the list-taker is not required to ask for the amount of income of taxpayers, but is only required to keep a list of the names of those answering that they have an income in excess of \$1,000, on which he is liable for tax, and on or before the 5th of July he shall return the list of names and the amount of income, to the chairman of the board of county commissioners, and the chairman of the board of commissioners of the county shall within five days thereafter forward to the corporation commission a copy of such list and the names of any other in his county not appearing there on, who, in his opinion, may be liable for income tax.

"The corporation commission will certify to the chairman of the board of county commissioners the names and amount of income tax due, which amount shall be paid to the sheriff of the county."
