

CONDENSED FOR BUSY READERS.

Chas. Owens, of Rowan, who was shot by the Bradys a few days ago still lives, though his physical condition is weak. The physicians still hope for his recovery.

Wadesboro business men are arranging for the publication of a handsomely illustrated book advertising their town.

O. L. Williams is installing machinery for a veneering plant at Mocksville.

While boys were bathing in a branch south of Burlington last week they discovered the body of a dead baby girl with its head badly mashed, tied in a bag.

The Lee Vencer Company, of Lexington, has been chartered with \$10,000 capital. H. B. Varner, H. T. Phillips and others are incorporators.

The plant of the Elkin Chair Company including stock and raw material will be sold June 30th by order of the referee in bankruptcy.

During a fight at Gold Hill, Rowan county, last week, Jim Martin was badly cut on the neck by Frank Northcut. The men quarreled over a drink of whiskey.

Thursday night, last, burglars entered the hardware store of the Pierce-Whitehead Company, at Weldon, carrying off more than \$300 worth of pistols and cutlery.

THE "BULLA REUNION"

Anniversary of the Settlement of Wm. Bulla in Indiana Next Month.

THE COURIER is in receipt of a letter from Richmond, Ind., announcing that the "Bulla Reunion," celebrating the anniversary of the settlement of William Bulla in Wayne county, Indiana, will be held Thursday, June 14th, 1906. The reunion will be held on the old homestead just north of the city of Richmond, Ind.

All persons knowing themselves to be descendants of Mr. Bulla are cordially invited to attend. If relatives and friends cannot come they are urged to write a letter of greeting, or a history of the family, or reminiscence of family incidents will be appreciated.

William Bulla settled on the farm near Richmond in 1806. The place is now owned by his grandson, Abner Bulla. Wm. Bulla was a brother of Daniel Bulla, father of Alfred Bulla, Esq., and Dr. A. C. and Alex. Bulla (deceased).

To Advertisers.

THE COURIER has spent large sums of money in working up its circulation and to-day it thoroughly covers Randolph and adjoining counties besides having a large list throughout this and other states. But we are working to build up Randolph county and the Piedmont section of North Carolina.

To this end we have built our circulation, that our advertisers and the community might secure the greater publicity. We have improved our plant and enlarged our paper—all of which necessarily increases expenses.

Hence this article notifying our advertisers that after March 1st, 1906, the advertising rate is as follows:

Per inch one time 25c
 " " month 20c
 " " two months 15c
 " " six " and over " " 15c

Reading notices will be charged at the rate of one cent per word. No reader accepted for less than 25c.
 All bills payable monthly.

Our circulation is not made up of dead heads and exchanges, but paying subscribers, who send us the cash for their subscription. Few are more than six months in arrears and many are paid in advance. This shows that we circulate among a prosperous people—the class that advertisers desire to reach.

THE COURIER appreciates the patronage accorded it in the past and pledges every effort to give value received for future business placed with it.

FINE APPLES.

How an Expert New York Orchardist Grades and Packs.

Care in picking and handling fruit is of vital importance. Baskets should be used, but never bags. The apples after picking should be turned carefully from the baskets into crates holding a bushel. These should be drawn to the packing building and carefully assorted, graded and packed. From the crates on one side, as seen in the illustration, the apples are assorted and graded into the pockets. The packers on the other side of the table wrap

LIGHT WAY TO GRADE AND PACK.

The packing table illustrated herewith is 12 feet long, 4 feet wide and 2 feet 7 inches high. A rack is arranged in the center, as shown. It is 1 1/2 feet wide and 1 foot high. It is divided into sections 2 feet 2 inches the long way. These sections are lined with heavy sheeting, canvas or sackings. Each section holds 1 1/2 bushels of apples. Only a single grade is placed in a pocket. The grading is done by the girls on the right, as you look at the picture, and the packing by those on the left.

and pack into forty or fifty pound standard boxes. In packing corrugated pasteboard caps are used in the boxes and on both ends of the barrels. The illustration of a fifty pound box of Baldwin's handsomely displays the fruit.

We pack three grades. The A grade is the finest, and every specimen is perfect. The B grade is of the same quality, but smaller. The C grade, which is good, but not so perfect, is packed in barrels. The balance is evaporated. Even the skins and cores are saved and exported.

Five women and three men will work up 100 bushels of apples a day. A bushel of apples will make from five and three-quarters to seven pounds of evaporated fruit, according to the variety. There should be fewer apples put into barrels and boxes and more sent to the evaporator. The apple market for eastern fruit is unsatisfactory much of the time for reason of bad packing. So much inferior fruit is put into the barrels, and especially in the

BALDWIN'S IN AN IDEAL PACKAGE. Middle with the ends topped off with good looking apples, that buyers have no confidence in the packing. They cannot guarantee the fruit and fix the price upon the poorest grade in the barrel. This does not pay the grower. —George T. Powell, American Agriculturist.

Destroying Plant Lice.

The Practical Counselor For Fruit and Garden Culture of Frankfurt recently offered a prize for the best method of destroying plant lice, for which fifty-eight persons competed. The prize was awarded to the author of the following preparation: Quassa wood two and one-half pounds, to be soaked over night in ten quarts of water and well boiled, then strained through a cloth and placed, with 100 quarts of water, in a petroleum barrel, with five pounds of soft soap. The mixture is then ready for sprinkling on plants infested with lice. If the sprinkling is repeated several times the pests will disappear.—Richard Guenther, Consul General, Frankfurt, Germany.

Flowers Under Glass.

The six states having the greatest areas of glass for floriculture are Illinois, New York, Pennsylvania, Ohio, New Jersey and Massachusetts. These six states have within their borders 61 per cent of all the glass in the United States. The figures, as given by Dr. Galloway of the bureau of plant industry, are as follows:

State	Square feet.
Illinois	9,138,000
New York	7,760,000
Pennsylvania	7,225,000
Ohio	4,572,000
New Jersey	4,382,000
Massachusetts	4,280,000

Japan Chestnuts in Michigan.

Japan chestnuts are proving of but little value at the South Haven experiment station in Michigan. Two of the European varieties, Paragon and Comfort, are very promising and have given several noteworthy crops. In the test of cover crops in the orchard mammoth clover has proved especially valuable. It is most satisfactory when oats or barley is grown with it.

BISHOP SETH WARD.

Son of Randolph County Man Who Moved to Texas.

It has been currently reported that the recently appointed Bishop, Seth Ward, of Texas, is a descendant of a Tar Heel. The Charlotte Observer recently contained a paragraph which said he is a son of a Randolph citizen who moved to Texas years ago.

A church paper gives the following:

"Seth Ward was assistant secretary Board of Missions at time of his election. Son of Samuel Goode and Sarah Ann Wynche Ward. Born in Leon county, Texas, November 1, 1858. Boyhood days were spent in work on a Texas farm. Attended the public school. Received honorary degree of D. D. from Southwestern University, Georgetown, Texas. Licensed to preach November 6, 1881, in Leon county, at that time a part of the Northwestern Texas Conference, now a member of Texas Conference. Joined the Northwestern Texas Conference. Married January 5, 1886, to Margaret E. Smith. Two children. Member of the General Conference of 1894, 1898 and 1902. Appointed a delegate to the General Conference of 1901."

McRAE CAPTURED.

Will Enter Plea of Self-defense—Killed Another Negro at Albemarle.

A. C. McRae, who shot and killed Dolph Wall, at Albemarle, Stanley county, about a month ago, was arrested in Columbia, South Carolina, and last week was brought back to Albemarle where he has been committed to jail to await the July term of court. Both men are colored. McRae and his victim quarrelled after a game of cards in which "Mac" is said to have lost heavily. Counsel has been employed and McRae will plead self-defense.

Chamberlain's Cough Remedy the Very Best.

"I have been using Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken," says Geo. L. Chubb, a merchant of Harlan, Mich. There is no question about its being the best as it will cure a cough or cold in less time than any other treatment. It should always be kept in the house ready for instant use, for a cold can be cured in much less time when promptly treated. For sale by Standard Drug Co., Asheboro, W. A. Underwood, Randleman.

Mr. C. B. Wainwright of Lemon City Fla., has written the manufacturers that much better results are obtained from the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy in cases of pain in the stomach, colic and cholera morbus by taking it in water as hot as can be drunk. That when taken, in this way the effect is double in rapidity. "It seems to get at the right spot instantly," he says. For sale by Standard Drug Co., Asheboro, W. A. Underwood, Randleman.
