

## TO BE TAKEN WITH SALT

### Secretary Shaw's Promise of Tariff Revision.

### JOINS RANKS OF THE PROPHETS

Twenty Years of Republican Promises of Reciprocity, but No Performance—The Voters See That Monopoly Breeds Graft and Will Turn to the Democratic Party for Relief.

During the past six or eight years the Republicans have promised to revise the tariff, but the leaders have prevented any bill from being considered by congress. But now comes Leslie M. Shaw, who as secretary of the treasury has charge of the customs department and should therefore know the intentions of President Roosevelt, and declares that the tariff will be revised by its friends in 1909. That is a long time ahead, and Shaw and the other stand patters may change their minds in three years, as they have done before. The time to reform is now by the present congress. As Secretary Shaw is spellbinding on his own account and is trying to defeat Governor Cummins and the tariff reform faction of the Republican party in Iowa and elsewhere, his promises of reforming the tariff in 1909 must be taken with a grain of salt. In all probability Secretary Shaw will be a private citizen before that date, and his promise of tariff reform is therefore no more valuable than that of any other voter.

It should not be considered presumptuous to request Secretary Shaw to be a little more explicit in his promises. As one of the arrogant stand patters, who so far has believed that the only way to revise the tariff is to revise it higher, Secretary Shaw should tell us his scheme of tariff revision. Republican platforms have promised reciprocity for the past twenty years, but the reciprocity treaties that McKinley arranged with many countries have never been ratified and are lying in senate pigeonholes presided over by stand patters. It is plain, therefore, that if the protection faction of the Republicans, with whom Secretary Shaw has always been allied, are again entrusted by the voters with another lease of power they are not to be trusted to redeem their promises made before election, judging by their refusal to redeem them in the past.

The Economist, the organ of the stand patters, subsidized by the trusts and combines which are fattening on the present tariff schedules, is denouncing every Republican who favors any revision of the tariff. It brands reciprocity with Canada and the abolition of the tariff on hides and coal as a Democratic plan to ruin the country and any form of tariff revision as the certain overthrow of prosperity. The Economist advocates the continuation of the present burdensome tariff schedules, which are principally responsible for the increase in the cost of living 40 per cent since its enactment. The Economist lauds Secretary Shaw as the staunch friend of the tariff system that has fostered trusts and protected combines in plundering the people. Secretary Shaw is therefore discredited as a tariff reformer by his association with those who believe such reform would reduce their large profits and make their watered stock worthless. Would any sane business man trust negotiations for a great change in his system of business to a known enemy of the proposed reform? After so many promises and so many years of nonperformance can the Republican party be trusted to revise the tariff, especially when the "special interests" fostered by protection are the principal purveyors of boodle, without which Republican campaigns would be a vapory vision and result in disaster to the political machine?

The retirement of some of the ardent Republican stand patters by their own party shows the drift of public sentiment on the tariff issue. The voters can no longer be fooled with false promises of reform. They see that monopoly breeds graft and that high protection has bred monopoly. The independent voters are too well informed to be the tools of the Republican machine and will in the coming election for congress turn to the Democratic party as the true and only tariff reformers that can be trusted.

### The Future Will Show.

President Roosevelt has decided to make a long tour through the west and northwest in June, 1907, and will embrace the opportunity to discuss many public questions in advance of the presidential nominations for 1908. Whether he will attempt to defend his course in respect to the Morris incident, the Barnes appointment and the Chandler embassy remains to be seen. No doubt he will discuss the beauties of the tariff and of railroad regulation that allows him to ride on free special trains.

### Learning Our Ways.

The galkwar of Baroda is quick in learning our ways of saying things. "You bet" was the reply he recently made to one who said something that seemed probable. It won't be long before he learns how to say "You lie." He has been at the White House.

### Explained.

It was always a wonder how those railroad officials found the money to build the stock market, but since the exposure of the Pennsylvania railroad grafters it is more easy of comprehension.

### Same Old Story.

The tariff protected trusts all declare that to revise the tariff would endanger prosperity, and the cuckoo Republican congressmen echo the same tale.

### NORTH CAROLINA DENTISTS.

Instructive Meeting of Dental Surgeons Held at High Point Last Week.

Probably the most instructive meeting of North Carolina Dental Association ever held convened at High Point last week. Many papers were read on the work of the profession which if compiled in book form would add materially to the text books on special dentistry and latter day discoveries and improved practice.

The social feature was a reception at the Manufacturer's Club Thursday evening which proved a brilliant affair. The largest and most select assembly ever gathered in the club rooms graced the scene.

### OFFICERS.

The following officers were elected for the ensuing year:

President—Dr. J. R. Osborn, of Shelby.

First Vice President—Dr. F. L. Hunt, Asheville.

Second Vice President—Dr. A. E. Frazer, High Point.

Secretary—Dr. C. A. Thompson, of Wilson.

Treasurer—Dr. R. M. Morrow, of Burlington.

Essayist—Dr. C. P. Morris, Lillington.

Examiners' Board—Dr. V. E. Turner, of Raleigh, and Dr. R. H. Jones, of Winston.

This board is re-elected and serves for a term of three years. There was a resolution passed to take steps to prosecute those who violate the state dental laws.

Dr. A. E. Frazer, who was named as second vice president, formerly lived at Asheboro, and is a son of Dr. E. C. Frazer, of Frisby township this county.

### FEDERAL JUDICIARY.

Supreme Court Should Be Elected by the People.

The Springfield Republican, which has long been regarded as one of the most enlightened newspapers in the world, concludes a long article on the senate debate on the rate bill as follows:

"The great constitutional lawyers will evidently continue to dispute and wrangle and creep about uncertainly, shying at every whisper of what will be the opinion of the judges. And in this, as senators and representatives of the people, they do bear striking testimony to the overshadowing power obtained by the judiciary in the government of the nation. It is not with them what the people may want or what congress thinks they ought to have, but what the courts will demand or exact. This is a condition forced upon them and beyond their control."

No act of congress can be operative upon which the supreme court has once placed the seal of its disapproval, and any act, whether constitutional or not, may be carried into execution unless that court has disapproved it. The court, therefore, is in reality the legislature of the Union. Its members hold office for life and are not responsible to the people for any official act. It is practically irresponsible, and it is very far from being infallible. If our system of government has broken down in any part the defect will be found in the irresponsibility and the "overshadowing power" of the federal judiciary. Men whose opinions have the effect of laws and may override or annul laws should be held responsible directly to the people. The members of the supreme court should be elected as the president and vice president are. The present system is undoubtedly a failure. Jefferson foretold this encroachment of the federal judiciary and advised that their appointment should be limited to a stated term.

### A RUINOUS POLICY.

Hard Times in Germany the Result of a Protected Market.

In connection with the consular reports of low wages and hard times in Germany it may be well to notice what is said by Mr. J. Stephen Jenks, secretary of the British Iron association, quoted in the consular reports for April, 1906. He says that in a recent six months' period the German Wire Rod syndicate sold 22,307 tons of its products to home consumers at \$62.40 per ton and 19,524 to foreign buyers at \$85 per ton. Naturally such a policy, made possible by a high protective tariff like our own, is hurtful to the German people, as it is to our people, and there is just complaint.

We also learn from this report that the international rail syndicate, which has its headquarters in London, controls an output of 4,000,000 tons of rails annually in the United States, Germany and the United Kingdom and that it is connected with the United States Steel corporation and the German steel syndicate. This giant combine makes the price of steel in the world's free markets, but allows its German and American members to fleece the people in their respective protected markets. Any government that would uphold such a combination of plunderers is an outrage upon the people whom it should protect. These steel corporations are worse than pirates because they plunder their own people under the shelter of laws made for that purpose, while pirates plunder foreigners.

### Machiavellian Tactics.

Looking over our clippings for 1905, we find that as far back as August of that year there was a scheme on foot to divert public attention from the tariff question at the present session of congress by exposing sensational cases of fraud and grafting and thereby throwing the subject of tariff revision over to a future congress. The correspondent of the Chicago World-Herald, writing from Washington under date of Aug. 13, 1905, says: "According to reports which come to Washington through visiting statesmen, the stand patters are overjoyed at the rumors of graft and probable exposures, because they see possibilities of keeping congress busy with investigations and thus preventing tariff legislation."

Either the writer of that statement was an inspired man or he knew precisely what he was talking about, for the prophecy has been literally fulfilled. The attack made by the president on the oil trust and the beef packers was undoubtedly planned by the stand patters and has produced the desired effect in diverting odium from those worthies without hurting their allies, who have been thus subjected to love licks. Hoccus pocus, cut and dried, is the weapon of the trusts.

### Fate of an Insurgent.

A "kid" Republican congressman from Missouri named Murphy introduced a freak bill which provides for the imprisonment of any speaker who uses his influence with committees for or against a bill or who refuses recognition to any member because of his position on any measure. Murphy is an insurgent and has been refused recognition by Speaker Cannon and is being "discharged" according to Republican machine methods.

### Election Coming.

The Collyrites of New Jersey have discovered that they need expect but little consideration from the Republican machine and the Prudential Insurance company still rules the roost in that state. What the voters will say about it next fall is the next consideration.

### Why Coal Is Costly.

When you buy your next ton of coal take care not to buy one that is priced too high, because by the granting of the proposed rate bill.

You cannot induce a lower animal to eat heartily when not feeling well. A sick dog starves himself, and gets well. The stomach, once overworked, must have rest the same as your feet or eyes. You don't have to starve to rest your stomach. KODOL FOR DYSPEPSIA takes up the work for your stomach, digests what you eat and gives it rest. Puts it back in condition again. You can't feel good with a disordered stomach. Sold by Standard Drug Co. and Asheboro Drug Co. Asheboro N. C.

Mrs. Hamlin, wife of ex-Sheriff J. D. Hamlin, of Yadkin, died Saturday at Rockford. The interment was at her former home at Yadkinville.

Thousands annually bear witness to the efficiency of Early Risers. These pleasant, reliable little pills have long borne a reputation second to none as a laxative and cathartic. They are as staple as bread in millions of homes. Pleasant but effective. Will promptly relieve constipation without griping. Sold by Standard Drug Co. and Asheboro Drug Co. Asheboro N. C.

### The Cause of Many

### Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure, or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention the name of this newspaper.
