J. A. Freeman, of the lumber firm, Caddell & Freeman, says that the Carthage and Piechurst railroad is being built by their saw mill, which is about half way between Carthage and Piechurst and that they are stacking their lumber waiting for the cars which they expect at their mill inside of two months.

Will Maintain Efficiency.

The young lady stenographers of High Point have organized the "Phonographic Circle," which has for its purpose the promotion of its members and the benefits of closer fellowship thus possible. The officers are: President, Miss Frances Burkhead, of High Point School of Shorthand; vice-president, Miss Daisy Williams; secretary, Miss Louise Clinard; treasurer, Miss Eva McDonald. The young ladies announce that it is not organized to change and control salaries or rates for special typewritten and stenographic work.

It is the intention of the circle to maintain efficiency in its membership.

Marion Harland.

The celebrated authoress, so highly esteemed by the women of America, says on pages 103 and 445 of her popular work, "Eve's Daughters; or, Common Sense for Maid, Wife and Mother":

"For the aching back—should it be slow in recovering its normal strength—an Alcock's Plaster is an excellent comforter, combining the sensation of the sustained pressure of a strong warm hand with certain tonic qualities developed in the wearing. It should be kept over the seat of uneasiness for several days—in obstinate cases, for perhaps a fortnight."

"For pain in the back wear an Alcock's Plaster constantly, renewing as it wears off. This is an invaluable support when the weight on the small of the back becomes heavy and the aching incessant."

The Forsyth County Medical Society is considering the advisability of arranging a uniform schedule of fees for its members.

Character Building.

There is no winning of character without battle. No man attains manhood easily. Every man has a battle to fight. I have had merchants say: "Can a man be a successful merchant and be a Christian? I have had politicians say: "Can a man be a successful politician and be a Christian?" And I have had ladies say: "Can one go into society and be a consistent Christian?" I never did have a minister ask me: "Can a man be a minister and be a consistent Christian?" but he might ask it just as well. There is absolutely no walk in life in which there are not temptations. It is not easy, in the competitions of life, in the dealing with unscrupulous competitors, to maintain a high, noble standard of integrity in commercial business. It is done but it is to be done by battle, says Lyman Abbott. It is not easy in journalism to stand for the truth, the whole truth and nothing but the truth. There are men who are doing it, men who are ready to sacrifice bread and butter and salary, to go hungry themselves, and even suffer the wife and children to go hungry, rather than prostitute their pen to lies and evil purposes. But no man stands for truth in journalism who does not have to fight to do it; no man can go into any profession, I do not care what it is, without having a battle to fight with foes that beleaguere him. He cannot stand in any one profession without it.

Wealth is an instrument which may minister to the life that really is. Wealth may be the symbol which shows that the man has possessed the life that really is; but the life is everything; the economy, the temperance, the industry—the thrift, in one word—the spirit of self denial for a higher end. What is literature to you, and art to you, and the Bible to you? These are nothing in themselves, save as they minister to that life which is life indeed, that life which never can be taken from us, that life which is immortal because it is God's own life in the souls of men.

In every clime its colors are unfurled
Its fame has spread from sea to sea;
Be not surprised if in the other world,
You hear of Rocky Mountain Tea.

BLANCHE.

Every Two Minutes

Physicians tell us that all the blood in a healthy human body passes through the heart once in every two minutes. If this action becomes irregular the whole body suffers. Poor health follows poor blood; Scott's Emulsion makes the blood pure. One reason why

SCOTT'S EMULSION

is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advantage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even before you expect it.

We will send you a sample free.
Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

He Who Chews Will Know

The Proof is in the Chewing

That's why a 10-cent plug of SCHNAPPS is more economical than a much larger plug of cheap tobacco.

That's why SCHNAPPS wins all classes of smokers: the rich, because they do not mind a chew—one please them better at any price; the poor, because they get their money's worth of the real snappy chew and flavor not found in the highly sweetened mixtures. Neither the rich nor the poor wish to chew tobacco so intensely sweet that it is true flavor and tooth-preserving quality are lost. Look for the word "SCHNAPPS" on the tag, and on the plug under the tag and then you have it—the most wholesome tobacco produced, with just enough sweetening to preserve the quality and bring out the flavor and more lasting flavor than the tobacco formerly sold to chewers at double the price they now pay for SCHNAPPS.

That's why SCHNAPPS has not yet been sold, than there are in the States where SCHNAPPS tobacco was first offered to the trade.

Only choice selections of well matured, thoroughly cured tobaccos, grown in the famous Piedmont region of the States, are used in making SCHNAPPS.

That's why SCHNAPPS is a delightfully appetizing aroma of the tobacco grown in the famous Piedmont region of the States, to create and delight the man's fondness for chewing tobacco. Lovers of real tobacco plug along one thing—please them better at any price; the poor, because they get their money's worth of the real snappy chew and flavor not found in the highly sweetened mixtures. Neither the rich nor the poor wish to chew tobacco so intensely sweet that it is true flavor and tooth-preserving quality are lost. Look for the word "SCHNAPPS" on the tag, and on the plug under the tag and then you have it—the most wholesome tobacco produced, with just enough sweetening to preserve the quality and bring out the flavor and more lasting flavor than the tobacco formerly sold to chewers at double the price they now pay for SCHNAPPS.
