Girl For Sale. Richmond News Leader.

Some young woman whose name is not important, but who describes herself as an "American Slave" has advertised herself widely by calling bids for herself through a Chicago newspaper. She describes her men-tal and physical qualities and annewspaper. She describes her men-tal and physical qualities and an-nounces that she is ready to marry any man who will take her and bid high enough on her. She explains that she is tired of typewriter and yet can do nothing else, although her education cost \$10,000. One familiar line of thought sug-casted by this nonnosition is how

One familiar line of thought sug-gested by this proposition is how very often the same kind of thing is done, in ways rather more politi-and discreetly disguised, in the very best society almost every day in the year. Most of us who have observed life have seen gifts trotted observed in divertised in the news observed life have seen giffs trotted about and advertised in the news-papers—in the social c limits, how-ever, and the advertisements not bidder ready to take them. It is not a new vice. It is known to be not a new vice. It is known to be as old as civilization and history and probably is as o.d as humanity. In the stone age we are told the gustom was for the young man matrimonial y inclined to select the lady he desired chase her down and solution our guarantee. Solid to Stunder Dene Co. hady he desired chase her down and pound her with a club until she consented to be his. Yet, human nature then probably being about as it is now, we may suppose that mothers with large families of daughters would put some of the young ladies occasionally under the observation and within observation and within convenient catching distance of the more eligible gentlemen-whatever may have constituted eligibility in those days. Yet the traffic continues and the advertisement goes on season after season.

As we diagnose this Chicago case, As we diagnose this concego case, the advertisiting girl is simply des-perately tired of work and cheap living and seeks relief by the worst and most desperate means possible. A marriage made in such condi-tions, a mere sordid bargain by the woman a frack or even worse motwoman, a freak, or even worse mot-ive by the man would have about one chance in a thousand of resulting happily. It would be fairly safe to predict that if the girl was so successful, from her present point of view, as to capture a millionare who would provide for her the havaries and competing the sections luxuries and opportunities she seems Invaries and opportunities are scenario to crave, she would be horribly sick. The human capacity for the pleasures that money can buy is very limited after all; and when that limit has been reached comes the satisfy ana-the weariness far worse and more biling than are minered property. the weariness far worse and more biting than any misery of poverty or deprivation of things for which all of us get tired of being poor, all of us get tired of the grind of daily work, which looks so cease-less and so hopeless when our livers happen to be out of order or some-thing has gone wrong with us. Yet all this, unhappy and bitter as it may be, is not to be compared with the unhappiness and bitterness of man and woman yoked together without love or congeniality between them, compelled to maintain appear-ances, realizing at last that they have parted their lives and hope and have nothing left to look forward to and nothing more to enjoy.

Christman Scotch Cakes.

The ingredients for these cakes are one pound of best butter, one pound af sogar, one and one eighth pound of flour, one level dessert spoonful of caraway seed, one table spoonful of ice water and candied caraway seed to sprinkle on top of the cakes. Have the butter, the bowl in which the cakes are to be mixed and the bands as cold as pomixed and the hands as cold as pos-sible. Cut the butter in small pieces, add the flour and work to gether quickly but thoroughly. Add the sugar and mix lightly. Sprin-and add the tablespoonful of water at the last. Make the dough into a ball, flour the molding board, put the dough on it and roll out quick-ly. Beat level and smooth with the rollingpin. Fold over the ends and beat again. Do chis three shape and size of the pan in which shape and size of the pan in which it is to be baked. Properly, this should be a shallow sheet-iron pan. Line with paper that does not re-about three quarters of an inch thick and bake twenty minutes in a steady over. When done, it should be an exact three quarters of an inch thick and bake twenty minutes in a steady over. When done, it should about three quarters of an inch thick and bake twenty minutes in a steady oven. When done, it should be an even light-brown on top and brown on the bottom. WHAT OHIO CLUBS HAVE DONE FOR CIVIC BETTERMENT.

In Ripley Xearly All the Church Socleties Have Followed the Improve-ment Society's Example - Smoke Nuisance Has Und Much Attention.

The first work undertaken by the improvement committee of the Ohio Federation of Women's Clubs was to establish civic improvement committees in every club and to place civic improvement topics upon every programme. Of the 310 federated clubs in Ohio more than 150 have now their the committees and topics. Each club has min been urged to become a member of the American Civic association. It is not federated clubs alone that

are appointing these committees. In Ripley, a town of 2,500 inhabitants, on the Ohio river, nearly all the church so-cieties have followed the example of

the club. The results are clean streets, drinking fountains, trash receptacles, schoolboukes repainted and yards cleaned up and pletures in the schools. In Troy, another small town, there is not a slanty left, All have been re-placed by near costneys.

Cincinnati, through the civic improvement department of her Woman's club,

ment department of her Woman's club, started the first playground in Ohio. Last year the club did good work against expectoration in the street cars, and this year its members are devoting their whole energy to the suppression of the smoke nuisance. In publishing the Toledo Clubwoman Toledo has giv-en an impetus to the work all over the state. Admirable work in establishing school gardens has also been done in school gardens has also been done in

that city. Cleveland clubs have taken a most active interest in home gardening, school gardens and playgrounds. Now they are especially devoting themselves to attacking period advertising and much good has been accomplished in the way of abolition of the smoke nutother civic work. At the Zanesville convention a full report of work was given by the chairman, followed by discussion on "How to Arouse an In-terest In Civic Improvement." Resolu-tions were adopted concerning the im-pending destruction of Niagara. Mrs. Agnes Mediffert Pomgi of Ashtabula is chairman of the civic Improvement committee, Ohio Federation of Wom-en's Clubs.

As Active Civic Association. A civic improvement association was formed in Biuffton, O., a town of 2,000 inimitants, in the spring of 1004. The following officers were elected at that time and were re-elected in the spring vast difference.
