

ISSUES. EDITORS.

Since the late union of the Administration party with the Nullifiers, most astonishing declarations are made by certain politicians. Now that Mr. Van Buren and Mr. Calhoun having buried all their former differences, have become firm friends, both personally and politically, their supporters pretend that they have always belonged to the party, and that their principles have never been the same. It is said that their differences about Mrs. Eaton and Nullification, were mere family quarrels—and all family quarrels, having been adjusted, do not interrupt the good feeling of the parties. After Martin Van Buren and J. C. Calhoun have for six years been personal enemies of the bitterest cast; after having as public men, supported measures and expressed opinions so opposite as the two poles, they are all of a sudden found sitting together, and have the hardihood to try to persuade the nation that neither has changed a hair's breadth, but that they have always agreed in their leading political principles.

This subject has been brought to my mind from my having observed recently a letter of Mr. Calhoun, written a few years since. The whigs of Maryland, who were then supporting General Harrison as their candidate for the Presidency, obtained a victory. They gave a great festival, and invited many persons from abroad to join with them in the celebration. Among others was invited John C. Calhoun, who then pretended to be utterly opposed to Martin Van Buren, and to agree in principle with the Harrison men. In reply to their invitation he sent the following letter:

"FORT HILL, 4th Nov. 1835. "Gentlemen—The mail yesterday brought me your note of the 21st ult., inviting me in the name of the citizens of Baltimore, opposed to the President nominating his successor, to attend a festival to be given on the 11th inst. in honor of the late triumph in Maryland, by those opposed to the Executive nominee. The great distance, and the shortness of the time, put it out of my power to attend. No one can look with greater alarm than I do, on the attempt of the Chief Magistrate to appoint his successor. Should it succeed, open and undisputed as it is, and resting on its own merits, it is not exclusively on the substance of the nomination the will of the President, without those who have no voice in the selection, on his part, calculated to command the regard of the people, or to merit the duties of the high office, or to merit the confidence of the nation, or to merit the respect of the Executive and Legislature, or the other departments of the government, and the constitution and liberty of the people.

Entertaining these views, I regard with pleasure the decided victory achieved by Maryland in the late election, over the President's nominee, and the course over Executive dictation. It is more honorable to the State, placed as she is, than any other source of influence and corruption, while others more remote and less exposed, have yielded such ready obedience to the rod of power. The victory cannot but have an important bearing in deciding the present single favorably to the cause of liberty; but a regard to truth, compels me to say, that in my opinion, whatever may be the result of the pending contest between the present President and the time named, come, and that far sooner than it is anticipated, when Executive influence and power will forever silence the popular voice, unless, indeed, the friends of liberty and free institutions shall courageously and bravely unite in a common effort to eradicate the cause which has given such extraordinary power and influence to the Executive department of the Government and placed the country in its present deplorable condition. THEY MAY BE ALREADY TRACKED TO THEIR ORIGIN, THE FISCAL ACTION OF THE GOVERNMENT.

While millions on millions are heaped up in the Treasury, beyond the expenditures of this, the most extravagant of all administrations, constituting an immense fund to act on the cupidity of the mercenary, and to bribe in one solid and compact band all in and out of office, who prefer their own advancement to the public good; any attempt to arrest the progress of power and corruption, must end in disappointment and failure."

Most men who read this letter will come to one of these two conclusions—either that the time he wrote it, Mr. Calhoun was very friendly to Mr. Van Buren, and pretended to oppose him from some interested motive; or else they will believe that though he was in fact opposed to him, yet, finding that he could not obtain the confidence of the whigs and get their support for the Presidency; and finding too, that the Administration was making him party offers, went over and united with the party on which he had been making war. Mr. Van Buren too, after having through all his organs for many years denounced the Nullifiers, as traitors, seeing at the beginning of the present session of Congress, that he was likely to be in the minority, brought them up in the hope of being able to sustain them a time, his sinking fortunes. All impartial and intelligent men regard this coalition as the most base and profligate that has been witnessed in the present age. The President does not seem, however, likely to reap much advantage from this desperate movement. Among the Nullifiers, many honorable men are unwilling to be transferred thus by John C. Calhoun, like so many cattle; while this unprincipled rascal has excited a storm of indignation in the minds of virtuous men generally, by which must overwhelm the principal actors. I may, perhaps, recur to this subject at another time.

A REPUBLICAN OF THE OLD SCHOOL. Asheville, May 27th.

LIBERIA is one of the greatest coffee regions in the world. The colonies have succeeded in raising three crops a year. The indigenous to Africa. In a few years there is no doubt, we shall receive all our coffee from Liberia; for these American colonies will want the very articles which we can send in exchange. We look upon the colony establishments on the west coast of Africa in a more important light than they are generally regarded. They are destined to revolutionize Africa, and pour her rich treasures into the lap of American commerce.—N. O. American.

THE MARRIAGE OF THE UNITED STATES.—The Washington Metropolis states that from the foundation of our government up to 1837, the coinage in this country has been 69,954,848 dollars.

The "Boston Female Anti-Slavery Society" has voted, 142 to 10, to dissolve itself.

UNITED STATES SENATE.—We copy the following from the Baltimore Patriot: "The terms of office of the following Senators will expire on the 4th of March next: Maine, John Ruggles, Conservative. New Hampshire, Henry Hubbard, Adm. Massachusetts, John Davis, Whig. Rhode Island, N. R. Knight, Whig. New Jersey, Garrett D. Wall, Adm. Delaware, Thomas Clayton, Whig. Virginia, Wm. H. Rouse, Adm. North Carolina, Bedford Brown, Adm. South Carolina, John C. Calhoun, Adm. Georgia, Wilson Lumpkin, Adm. Alabama, Wm. E. King, Adm. Mississippi, Robt. J. Walker, Adm. Louisiana, Robt. C. Nicholas, Adm. Tennessee, Alexr. Anderson, Adm. Kentucky, John J. Crittenden, Whig. Illinois, John M. Robinson, Adm. Michigan, J. Norvell, Adm. Arkansas, Wm. S. Fulton, Adm. 5 Whigs and Conservatives—13 Administration.

THIS will leave parties equally divided in the Senate; and the political character of that body in the next Congress, will be decided by the State elections of the present year.

AN EXPEDITION.—A company is forming in Houston, Texas, for the purpose of opening a trade between Santa Fe and that place. We learn from the Star that the association consists chiefly of persons of capital. No man is to be interested unless he is willing to endure the trial and brave the danger of being the pioneer of a route never before trodden by a white man—of making a way through an unknown, and it may be, an almost inaccessible region.—The number to constitute the company will be one hundred. The enterprise promises to be important in its results; and if crowned with success will open a new and vastly lucrative trade for Texas.

FRANCE.—The marriage of the Duke de Nemours with the Princess of Saxe-Cobourg, and the baptism of the infant child of the Duke of Orleans, are appointed for the festival of Saint Philippe. The Saint Philippe in question, is not Philip the apostle, but Saint Louis Philippe, the reigning monarch. It may not be known that modern Rome, in imitation of Rome of the Caesars, gives to all monarchs within the pale of her church, a place among the intercessory saints, with this improvement on the old practice, that these moderns are enrolled during their lives, whereas the Roman Emperors were not entitled to immortal honors until after their death. The festival of St. Philippe (Divus Philippus) is the birthday of His Majesty. I have not ascertained how the ceremony is to be performed without the Archbishop of Paris, who is not yet appointed.—New York Spectator.

INDIAN WAR.—The Chicago American says: "We learn, on the best authority, that the Ottos have crossed over the Missouri, and have commenced plundering the inhabitants of the upper country of the State of Missouri. The Iowa, also, have commenced war with the Missourians.—Col. Kearney, of the 1st dragoons, has sent all his disposable force to their assistance, from Fort Leavenworth, and has called on the militia of Clay county, Mo., for further assistance."

TWO MISSIONARIES EATEN BY SAVAGES!—Through the kindness of a gentleman in this city we are permitted to publish an extract from a letter just received by him, containing the heart rending intelligence that two missionaries in New Zealand have shared the fate of Lyman and Munson! SIDNEY, N. S. WALES, Dec. 1, 1839. "The missionary brig Camden left Upolu the day before our ship sailed, and arrived here last evening, bringing news that two of the missionaries who sailed in her, during a visit to the island of Ewango, one of the New Hebrides were killed and eaten by the natives.

GREAT DEFECTION FROM THE CHURCH OF ROME.—The whole Roman Catholic population in Lithuania and White Russia, with their bishops and priests, have seceded from the Romish Church and connected themselves with the Russo Greek Church. We state this fact on the authority of the Pope, who bitterly deprecates its occurrence in an Allocution dated November 29, 1839.—Achim Her.

CONNECTICUT HISTORICAL FESTIVAL.—The celebration of the Second Centennial Anniversary of the adoption of a Constitution by the Colony of Connecticut took place at Hartford on the 21st instant. The oration was delivered by Noah Webster, L. L. D., now in the 83d year of his age. After the public ceremonies of the day were over, the audience was invited to a walk in the ancient burying ground, whose tombstones, monuments, and other memorials, with antique inscriptions, preserve the names and memories of the fathers of the colonies. The recollections and associations which the sight of these memorials, must call up were well suited to the peculiar character of the celebration. The banquet which followed was partaken of by many distinguished personages. The Hon. Thomas Day presided in virtue of his office as President of the Historical Society of Connecticut, under whose auspices the celebration was instituted. At his right hand were seated the orator of the day, and the venerable Col. Trumbull, the only surviving member of the military family of Washington.

Rev. Dr. ELY, of Philadelphia, has accidentally lost the sight of one of his eyes, by a blow from a farming utensil he was using.

London has from one to two millions of people. New York three hundred thousand; yet here are seventeen distinct murders in one year; twenty-eight persons smothered, or made away with, in that way; one hundred and seventy-nine destroyed, nobody knows how; besides burning, and drowning, and accidents, and riots, and fires, of all kinds. Whence all this? We answer, and let every man in our city hear it, in New York there are five great shops where there is one in London.

JUMPING THE ROPE.—The Boston Traveller states that a little school girl bantered with her comrades that she could "skip a rope" one hundred times on one foot, without stopping. She performed her boast, but it nearly proved fatal to her. She was taken into the school-room, and thence to her home, covered with blood. Not only was the foot on which she skipped, bathed in blood, but it exuded from every pore in her skin, and stood in small drops over her body, arms, and face. She remained in an extremely dangerous state for several days, but is now recovering.

ROBINS POTATOES AND TREE CORN.—John Dunlap, Esq., proprietor of Effingham farm, Bensalem township, Bucks county, Penn., has furnished us with the following statement as the result of his experience in the cultivation of these articles the past season. He planted one Roban potatoe, cut into twelve sets, in hills, three feet apart each way. The produce was fifty-four potatoes, weighing sixty-four pounds, and measuring one and a half bushels. The quantity of tree corn planted was one hundred and twenty grains, in sixty hills, five feet apart each way—producing three and a half bushels of good, sound, well formed ears of uniform growth. Mr. Dunlap has been particular in his experiments; and it is his opinion that the article known as the Chinese tree corn is a valuable acquisition to this section of country. He intends to plant ten acres the coming season, to give it a fair trial, on a more extended scale as a field crop.

HE does not think highly of the Roban potatoe as an article for the table; but gives his opinion; that, from its great yield, it will be very extensively cultivated as a food for stock.—Genesee Farmer.

PROSPECTUS OF THE HIGHLAND MESSENGER.

Asheville, Wednesday, June 3, 1840. We have had no mails from the east for several days, owing we suppose to the unusual freshet that has lately visited our section of the country. What is going on in Congress we cannot tell; about the last we heard from the House of Representatives, they were busily engaged in trying to adopt some measures that would in future, prevent their breaking each other's heads. READER, look at this paper! ain't it a real Roarer from Buncombe? If we had not told you where we were publishing, you would not have supposed us to be this side of New York; but some things can be done as well as others.—We have one of the best offices to be found in the country—no puffing—we intend to prove it; and we have about all we want except just five hundred subscribers. Come on with your names—and a little cash, if you please. Our section of the country has been visited with an unusual flood of rain during the past week. The water courses are reported to be higher than they have been for forty years. Immense injury has been done the farms along the rivers and creeks. We send the present No. of the "Messenger" to a number of our friends who are not subscribers, that they may see what we are doing and intend to do; should any or all of them wish to become subscribers, they will forward us their names. We hope that those editors and publishers to whom we likewise send our first number, will honor us with an exchange. Those editors who have been kind enough to forward us their respective papers before the publication of ours, will please accept our sincere thanks.

DEATH BY LIGHTNING.—Thomas H. Perry was killed in Bryan county, Georgia, on the 19th instant, by lightning. The fluid forced its way through the crown of Mr. Perry's hat, forming apertures like shot holes—from thence to his watch-guard, which it broke in various places, melting the watch-key and one side of the watch, lacerating his leg, and finally made its way into his shoe, tearing it in pieces. Previous to his interment, his face and body swelled to such a degree that they burst in several places. Two young men who were in company with Mr. Perry, were severely injured by the same stroke, and two horses were killed. IRON.—The importation of iron into this country during the last ten years, has amounted to \$84,000,000.

PROSPECTUS OF THE HIGHLAND MESSENGER. A weekly paper published at Asheville, N. C. Devoted to Religion, Morality, Science, Politics, and General Intelligence. EDITED BY D. R. McNALLY & J. ROBERTS. It is proposed to publish a new Journal, and thereby to swell the number of periodicals already flooding our country; it will naturally be expected of us to give an outline of the principles by which we expect to be governed. This we will do as consistently as possible. And, 1st. While we cautiously exclude all sectarian controversies on abstract and disputed points in Christian Theology, we will carefully and constantly hold up the Bible and the Christian religion as indispensable to the moral, social and political interests of any community. 2d. We shall industriously labor to set forth and maintain sound principles of morality, correct taste and good manners. Vice in all its varied forms shall meet its merited rebuke, and a decided stand will be taken against all impurity of expression or representation, as well as against all vulgarity. In short, no pains will be spared to make our paper a welcome Messenger to the virtuous and good of every age and every sex. 3d. A liberal share of our attention shall be devoted to those branches of natural science so necessary to be at least partially understood by every farmer and every mechanic of the country. 4th. The Political Department will be under the immediate and sole control of J. ROBERTS, who believes himself to be a true Republican, and as such cannot, and will not, support the leading measures of the present Administration. On this subject, his course will be calm, though decided. He will, at all times, take the liberty of promptly and plainly expressing his opinions on all subjects bearing on the political interests of the community, without, at any time, prostituting his paper to the unallowed purposes of detraction and abuse. His course will be decidedly independent. He is pledged to no party, and will always write and publish what he believes will tend to the public weal and improve what in his judgment would be injurious. And finally, as we shall ask the favor of exchanging with the best papers of the country, we hope to be always ready to keep our readers informed of the important transactions passing at home and abroad.

TERMS. The "Highland Messenger" will be published with a new press and types, and on a large sheet at \$2.50 per annum, if paid in advance, or \$3.00 at the end of the subscription year. No subscription will be received for a less period than twelve months, nor will any paper be discontinued, except at the option of the publisher, until all arrearages are settled. Asheville, June 5, 1840.

Holston College. NEW-MARKET, EAST TENNESSEE. THE Semi-Annual Examination of Holston College, closed its Winter session on Thursday the 26th ult., and the Summer session will commence on Friday the 24th inst., under more favorable auspices than at any former session. The Rev. Mr. Mays, who for several sessions has presided over the Institution with the utmost ability, and to the entire satisfaction of the students, the Trustees take great pleasure in informing the friends of the College and the public at large, will continue as President of the same. The steward's house, under the management and control of the Rev. R. M. Stevens, affords board and accommodation for a large number of students, at one dollar and fifty cents per week, lodging not included. In addition to which, board can be had in private families at about one dollar and seventy-five cents, including lodging, &c. The Trustees have contracted for building, and expect shortly after the commencement of this next session, to have several Dormitories ready for the use of students. A Philosophical and Chemical Apparatus has been purchased, and is now on its way from New York, for the use of students next session. The Trustees hope that by continued exertion on their part, the unwearied efforts of the Agent of this College, together with the substantial aid from its friends and patrons in all parts of the country, to have it in their power to place Holston College on a footing second to none in the Western country. New-Market, April 7, 1840.
