A Dirty Business .- The political papers of the North are lunded with commentaries on a book recently published by Wm. L. Mackenzie, purporting to give private letters addressed to Jesse Hoyt, late collector at New York, by B. F. Butler, F. P. Blair, Martin Vac Buren, C. C. Cambreleng, J. G. Bennet, W.m. L. Marcy, and many other distinguished and notorious Democrats. Some of the letters are dated as far back as twenty years ago. They are said to make "startling develop and all that. Nobody knows how Mackonzie came by the letters; but whether by foul or fair means, every budy ought to know that such a publication, disclosing mat-ters of private and personal concernment, and written under the seul of social confi-dence, is a dirty and infamous act. Yet, it is the very thing for the morbid maw of the New York public, and immense numbers of the book have been sold. It will live its day, and go down to the vile dust where it be.

Just before the Presidential election, in 1844, a private letter of Henry Clay was surreptitiously obtained and published in the New York Democratic papers. The feeling contempt for the perpetrature of that act, the author of this miserable publication, who has in a similar manner violated the honorable rules and sacred rights of social intercourse.—Greensborough Patriot.

If Anderson has succeeded in being elected, his majority will succeeded in being elected, his majority will be small, and the Locofocus will have but slight cause for rej sicing over the result. The returns so far shown gain of about 1500 for the Whig candidate over last year. We have hopes of Maine yet. New Mode of Electioneering .- The Local Georgia have adopted a very novel way-nite original—of carrying the State at the approaching contest. A military system of discipline is to be established, and all those individuals who are supposed to be indifferent as to the result, are placed under the command of captains, who are to gather them to gether on the morning of the election-li quar them freely—excite their "ardor by patriotic conversation"—and then require them to march to the polls, silently and vote—and they are not to be permitted to separate without

oing so. The Secret Handbill issued by the Demo atic Executive Committe says: " Let suit. able refreshments be provided for the company (doubtful democrats) at the place of rendezvous, and their arder kindled by patriotic conversation." Also, "that they are expected and required to march to the polls in a budy and in perfect silence!"
