If you want a big load of Goods for little money, come and see us, and you shall not be disappointed.

It will be sufficiently satisfactory, we hope, to say that our stock is *general and complete*, comprising almost every article usually in demand in this country. The stock has been selected with care and judgment, and from our knowledge in matters appertaining to this business, cannot be beaten for beauty, quality and cheapness any where in the back country.

With due deference to our competitors, we will say we intend to beat them, if we can by fair and honorable means, and if we find we can't, why then we can't.

We intend to do as much as possible a prompt business, as we intend our profits to be so low that indulgence cannot, nor ought not, to be expected.

DR. JOHN M. HAPPOLDT

Having settled in the town of Morganton, tenders his professional services, in the various branches of his profession, to the public.

If a devotion of twenty-three years entirely to the practice of his profession, keeping pace with the improvements in medical science, and close, studious habits during that period, entitle any one to reward, then he would humbly hope to receive such a patronage as merit claims, and such as he has heretofore secured.

He would call the attention of invalids who suffer from the various chronic affections, such as Dyspepsia in its diversified forms and associations, diseases of the liver, lungs, heart, stomach, bowels, kidneys, &c. &c., and also the glandular disorders, which are so companion of a scrofulous and cancerous natures. Female disorders, so often distressing and complicated as to produce despondency in the patient and puzzle the doctor, have been and are successfully treated by him. His mode of treatment is different, in a great degree, from what is generally pursued by others, and in making this remark he would be mindful of due deference to his professional brethren. He would be understood simply to state the fact, without arrogating to himself a superiority, and thereby detract from the merit of others.

The many and complicated diseases of the Eye have been cured by him after others have failed. Disease requiring Surgical treatment and Surgical operations, have claimed no small share of his attention, and he is pleased to say, in this respect, that success has rewarded his surgical efforts.

He will promptly attend all calls, far or near.—Epistolary advice, will be given, when required. He is also prepared to receive and accommodate at his residence, invalids from a distance, and would prefer treating cases at his residence that require surgical operations and his close subsequent attention.

He may be consulted at all times at his residence or office in Morganton, except when absent.

The poor shall receive his professional services without any fee.

PUNCTUALITY.

We would remind those of our customers who have open accounts with us, of the fact of their having been made with the *express* understanding that they were to be settled by the first of January, 1846, which time has already passed. We are under the necessity of making collections, and hope that those indebted to us, either by note, judgment or book account, will make payment between this and our April Court, for by so doing they will save us trouble and themselves cost—for necessity compells us to collect.

DR. M. F. PERRY'S

Vermifuge or "Dead Shot,"

FOR WORMS.

A highly valuable preparation, capable from the promptitude of its action, of clearing the system in a few hours of every worm.

This exceeding small quantity of this medicine required to test the existence of worms or to remove every one from the system, its operating in a few hours, together with its great certainty of effect, constitute it one of the most brilliant discoveries of the age. It seldom needs to be repeated and never to be followed by any other purge. The reform in urgent cases, as those of FITS, SPASMS or CONVULSIONS, caused by worms, its unrivaled superiority is manifested. Few medicines are better calculated to improve the health of children, even where no worms exist; as it removes those masses of crudities that line and closely adhere to the stomach and bowels, giving rise to symptoms that counterfeit every variety of worm disease. Though prompt and certain in its operation, and not unpleasant to the taste, it is perfectly safe, and adapted to the tenderest age.

The following testimonials are selected from a multitude of others as evidence of its great medicinal value:

The following is from an eminent Physician.

Jonesborough, Tenn. Dec. 31, 1844.

Dr. H. F. Perry—I take great pleasure in recommending to the public your valuable Vermifuge, properly called Dead Shot. I have been vending it for two years. Nothing of the kind have I ever sold that has given such universal satisfaction.—There was one case in my immediate neighborhood that I now recollect of in which one dose caused the expulsion of 150 worms from a small child, as the parent informed me afterwards.

Very respectfully

JOHN YANCEY, M. D.

Extract from a letter received from a Merchant in Kentucky.

Prestonburg, Ky., June 10, 1844.

Dr. H. F. Perry—I received the medicine (Dead Shot) sent me a few weeks since, and it is all gone and the people are wanting more. If I had 1,000 bottles I could sell them, as it takes before any thing of the kind ever offered here, and has given entire satisfaction; the demand is constantly increasing, new applications being made every day. Please write and let me know how I can get a large quantity shipped from Baltimore. No more, but remain yours in great haste,

JAMES G. HATCHER.

Extract from a letter received from Dr. Wharton.

Newcastle, Va., Jan. 24, 1844.

Dr. Perry:

Dear Sir—I gave a vial of the "Dead Shot" you left with me for the purpose of testing its merits, to a friend of mine, who introduced its use in his family by giving it to a patient selected as a suitable case. It was administered according to the directions around the vial, and to my astonishment, the first operation brought away about 35 worms. I have administered it in several other instances since, with similar good success; and it will afford me much pleasure in doing all in my power to recommend it to the notice of my friends and the public generally. With respect yours, &c.

THOS. J. WHARTON.

Lynchburg, Va., Nov. 21st, 1844.

This is to certify that I have sold the Vermifuge (DEAD SHOT) prepared by Dr. H. F. Perry, for about twelve months, and have witnessed its efficacy in many cases—in one case particularly—a patient (middle-aged man) who had been troubled with Tape-Worm for several years, exhibited to me a large quantity, (say about a pint,) which he informed me had passed by the use [illegible] or two vials; and in no case where it was apparent that the patient had worms, has it ever failed within my knowledge.

D. R. LYMAN, Druggist.

Price 25 Cents per vial.

Prepared by Dr. H. F. Perry, and sold wholesale and retail by A. B. & D. Sands, druggists, 100 Fulton st., corner of William, New York.

Sold also by Patton & Osborn, Asheville; McRee & Gunter, Morganton; Williams, Haywood & Co., Raleigh, and by Druggists generally throughout the United States.

SANDS'S SARSAPARILLA,

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD OR HABITS OF THE SYSTEM VIZ:

Scrofula or King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Blotches, Biles, Chronic Sore Eyes, Ring Worm or Tetter, Scald Head, Enlargement and Pain of the Bones and Joints, Stubborn Ulcers, Syphilitic Symptoms, Sciatica or Lumbago, and Diseases arising from an injudicious use of Mercury, Ascites or Dropsy, Exposure or Imprudence in Life. Also, Chronic Constitutional Disorders.

The value of this preparation is now widely known, and every day the field of its usefulness is extending. It is approved and highly recommended by Physicians, and is admitted to be the most powerful and searching preparation from the root that has ever been employed in medical practice. It is not local in its operation, but general, extending through the whole system. It neutralizes the poisonous elements in the blood and restores a healthy tone to the organs which generate the fluid. In scrofulous and all external disorders, the result is a rapid healing of the sores and pustules; in rheumatism and other painful affections of the muscular fibre, a speedy removal of the pain, and in all cases a renewal of strength, keeping pace with the retreat of the disease from the system. It is put up in a highly concentrated form for convenience and portability, and when diluted according to the directions, each bottle will make six times the quantity, equal to one quart, and is then superior in medicinal value to the various preparations bearing the name. The proprietors are almost daily receiving testimonials of the most respectable character, testifying to its great value as an active and curative medicine.

The following interesting case is presented, and the reader invited to its careful perusal. Comment on such evidence is unnecessary.

Newark, N. J., March 12th, 1846.

Messrs. A. B. & D. Sands—Mr. Oliver's child, of this place, was attacked with a scrofula when two years old, which soon reduced her to a mere skeleton. The disease pervaded the whole system and manifested itself in malignant sores on the head, body and limbs. Different physicians in Newark, Belleville and New York prescribed for her at various times, but finally gave up the case as perfectly hopeless. At last Mr. Oliver was induced to try your Sarsaparilla, and accordingly procured four bottles, which was shortly administered, with many interruptions, yet with the most decided benefit. About two months ago I became acquainted with the circumstances of the case. The child, who is now aged four years, was one complete mass of disease, and incapable of using any of her limbs.—Her body was swollen to nearly twice its natural size, the head, limbs and body were almost entirely covered with large sores. She was unable to move, and would take no notice of anything, only to shriek from being touched even by her mother.—The disease, at the same time was equally severe in watery, attended with bloody evacuations every few hours. They procured some more of the Sarsaparilla, and before she had taken one bottle she could slip down from the chair and creep across the room. She has now just finished taking the second bottle, and the sores are nearly all healed, the limbs are restored to their natural use, she is quite cheerful, and is fast improving in health.

Yours very respectfully,

C. J. WARNER.

Sec. of Youth's State Tem. Soc.

The following is an extract from a letter received from Mrs. Bevan, who had been afflicted for several years with Scrofulous Ulcers, Dyspepsia, &c., and recently with an affection of the Throat and Chest:

Baileysburgh, Va., Dec. 13th, 1845.

Messrs A. B. & D. Sands—Before I commenced using your Sarsaparilla my sufferings were almost past expression, for the air was constantly freezing. I had a dreadful cough, and there were frequently streaks together that I could not speak in consequence, and, besides, the inflammation from my throat extended to my head, so that my hearing was very much impaired. After taking the Sarsaparilla a short time my health improved and my throat is now well. I am as free from cough and tightness of the chest as ever I was, and can wear quite ill-stiffly. My daughter has been well about three months, the cure of which has been effected entirely by the use of your Sarsaparilla. Your friend,

LOUISA R. BEVAN.

The following letter, received from Chas. Garrow, a gentleman well known and of the highest respectability, residing in Mobile, shows conclusively the value and efficacy of Sands' Sarsaparilla in cases of rheumatism:

Mobile, Ala., July 3, 1844.

Messrs. Sands—*Gents:*—I was afflicted for more than ten years with rheumatism, and it is with pleasure I avail myself of this opportunity to express to you the salutary effect your Sarsaparilla had on me. In January, 1842, I purchased of your agents, Messrs. Mosley & Tucker, five bottles, which I took agreeable to the printed directions, which entirely removed the complaint, and I have now every reason to believe my health is permanently recovered.

Yours, very respectfully,

S. H. GARROW.

For farther particulars and conclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained of Agents gratis.

Prepared and sold, wholesale and retail, by A. B & D. SANDS, Wholesale Druggists, 100 Fulton st. corner of William, New York.

Sold also by Patton & Osborn, Asheville; B Oates, Charlotte; Williams, Haywood & Co., Raleigh; and by Druggists generally throughout the United States. Price $1 per bottle; six bottles for $5.

☞ The public are respectfully requested to remember that it is Sands's Sarsaparilla that has been and is constantly achieving such remarkable cures of the most difficult class of diseases to which the human frame is subject; therefore ask for Sands' Sarsaparilla, and take no other.

And thus remove all disease from the system.

A single trial will place the LIFE PILLS and PHŒNIX BITTERS beyond the reach of competition in the estimation of every patient.

The genuine of these medicines are now put up in white wrappers and labels, together with a pamphlet, called "Moffat's Good Samaritan," containing the directions, &c., on which is a drawing of Broadway from White street to our Office, by which strangers visiting the city can very easily find us. The wrappers and Samaritans are copyrighted, therefore those who procure them with white wrappers can be assured that they are genuine. Be careful, and do not buy them with yellow wrappers; but if you do, be satisfied that they came not from us, or dont touch them.
