DR. H. F. PERRY'S

Vermifuge or "Dead Shot," FOR WORMS.

A highly valuable preparation, capable from the promptitude of its action, of clearing the system in a few hours of every worm.

The exceeding small quantity of this medicine required to free the existence of worms or to remove every trace from the system, its operating in a few hours, together with its great certainty of effect, constitute it one of the most brilliant discoveries of the age. It seldom needs to be repeated and never to be followed by any other purge. Therefore, in urgent cases, as those of FITS, SPASMS or CONVULSIONS, caused by worms, its unrivaled superiority is manifested. For medicines are better calculated to improve the health of children, even when no worms exist, as it removes those causes of exciting that line and slimy matter to the stomach and bowels, giving rise to symptoms that counterfeit every variety of worm disease. Though prompt and certain in its operation, and not unpleasant to the taste, it is perfectly safe, and adapted to the tenderest age.

The following testimonials are selected from a number of others as evidences of its great medicinal value:

The following is from an eminent Physician.

Jonesborough, Tenn., Dec. 24, 1841.

Dr. H. F. Perry—I take great pleasure in recommending to the public your valuable Vermifuge, properly called Dead Shot. I have been vending it two years. Nothing of the kind have I ever sold that has given such universal satisfaction.—There was one case in my immediate neighborhood that I now recollect of in which one dose caused the expulsion of 150 worms from a small child, as the parent informed me afterwards.

Very respectfully,

JOHN YANCEY, M. D.

Extract from a letter received from a Merchant in Kentucky.

Prestonsburg, Ky., June 10, 1844.

Dr. H. F. Perry—I received the medicine (Dead Shot) sent me a few weeks since, and it is all gone and the people are wanting more. If I had 1,000 bottles I could sell them, as it takes before any thing of the kind ever offered here, and has given entire satisfaction; the demand is constantly increasing, new applications being made every day. Please write and let me know how I can get a large quantity shipped from Baltimore. No more, but remain yours in great haste,

JAMES G. HATCHER.

Extract from a letter received from Dr. Wharton.

Newcastle, Va., Jan. 2d, 1844.

Dr. Perry:

Dear Sir—I gave a vial of the "Dead Shot" you left with me for the purpose of testing its merits, to a friend of mine, who introduced its use in his family by giving it to a patient selected as a suitable case. It was administered according to the directions around the vial, and to my astonishment, the first operation brought away about 35 worms. I have administered it in several other instances since, with similar good success; and it will afford me much pleasure in doing all in my power to recommend it to the notice of my friends and the public generally. With respect yours, &c.

THOS. J. WHARTON.

Lynchburg, Va., Nov. 21st, 1841.

This is to certify that I have sold the Vermifuge (DEAD SHOT) prepared by Dr. H. F. Perry, for about twelve months, and have witnessed its efficacy in many cases—in one case particularly—a patient (middle-aged man) who had been troubled with Tape-Worm for several years, exhibited to me a large quantity, (say about a pail,) which he informed me had passed by the use of one or two vials; and in no case where it was apparent that the patient had worms, has it ever failed within my knowledge.

D. R. LYMAN, Druggist.

Price 25 Cents per vial.

Prepared by Dr. H. F. Perry, and sold wholesale and retail by A. B. & D. Sands, druggists, 100 Fulton st., corner of William, New York.

Sold also by Patton & Osborn, Asheville; McRee & Gunter, Morganton; Williams, Haywood & Co., Raleigh, and by Druggists generally throughout the United States.

SANDS'S SARSAPARILLA,

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD OR HABITS OF THE SYSTEM VIZ:

Scrofula or King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Blotches, Biles, Chronic Sore Eyes, Ring Worm or Tetter, Scald Head, Enlargement and Pain of the Bones and Joints, Stubborn Ulcers, Syphilitic Symptoms, Sciatica or Lumbago, and Diseases arising from an injudicious use of Mercury, Ascites or Dropsy, Exposure or Imprudence in Life. Also, Chronic Constitutional Disorders.

The value of this preparation is now widely known, and every day the field of its usefulness is extending. It is approved and highly recommended by Physicians, and is admitted to be the most powerful and searching preparation from the root that has ever been employed in medical practice. It is not local in its operation, but general, extending through the whole system. It neutralizes the poisonous elements in the blood and restores a healthy tone to the organs which generate the fluid. In scrofulous and all external disorders, the result is a rapid healing of the sores and pustules; in rheumatism and other painful affections of the muscular fibre, a speedy removal of the pain, and in all cases a renewal of strength, keeping pace with the retreat of the disease from the system. It is put up in a highly concentrated form for convenience and portability, and when diluted according to the directions, each bottle will make six times the quantity, equal to one quart, and is the superior in medicinal value to the various preparations bearing the name. The proprietors are almost daily receiving testimonials of the most respectable character, testifying to its great value as an active and curative medicine.

The following interesting case is presented, and the reader invited to its careful perusal. Comment on such evidence is unnecessary.

Newark, N. J., March 12th, 1846.

Messrs. A. B. & D. Sands—Mr. Oliver's child, of this place, was attacked with scrofula when two years old, which soon reduced her to a mere skeleton. The disease pervaded the whole system and manifested itself in malignant sores on the head, body and limbs. Different physicians in Newark, Belleville and New York prescribed for her at various times, but finally gave up the case as perfectly hopeless. At last Mr. Oliver was induced to try your Sarsaparilla, and accordingly procured four bottles, which was sparingly administered, with many interruptions, yet with the most decided benefit. About two months ago I became acquainted with the circumstances of the case. The child, who is now aged four years, was one complete mass of disease, and incapable of using any of her limbs—Her body was swollen to nearly twice its natural size, the head, limbs and body were almost entirely covered in its large sores. She was unable to move, and would take no notice of anything, only to shrink from being touched even by her mother.—The disease, at the same time, was equally severe inwardly, attended with bloody evacuations every few hours. They procured some more of the Sarsaparilla, and before she had taken one bottle she could slip down from the chair and creep across the room. She has now just finished taking the second bottle, and the sores are nearly all healed, the limbs are restored to their natural use, she is quite cheerful, and is fast improving in health.

Yours very respectfully,

C. J. WARNER.

Sec. of Youth's State Tem. Soc.

The following is an extract from a letter received from Mrs. Bevan, who had been afflicted for several years with Scrofulous Ulcers, Dyspepsia, &c., and recently with an affection of the Throat and Chest:

Baileysburgh, Va., Dec. 13th, 1845.

Messrs. A. B. & D Sands—Before I commenced using your sarsaparilla my sufferings were almost past endurance, my throat was completely ulcerated. I had a dreadful cough, and these were frequently worse together that I could not speak above a whisper, and besides, the inflammation from my throat extended to my head, so that my hearing was very much impaired. After taking the Sarsaparilla a short time my health improved and my throat is now well. I am so free from cough and tightness of the chest as ever I was, and can hear quite distinctly. My throat has been well about three months, the cure of which has been effected entirely by the use of your Sarsaparilla. Your friend,

LOUISA E. BEVAN.

The following letter, received from Capt. Garpon, a gentleman well known and of the highest respectability residing in Mobile, shows conclusively the virtue and efficacy of Sands' Sarsaparilla in cases of rheumatism:

Mobile, Ala., July 3, 1844.

Messrs. Sands—*Gents:*—I was afflicted for more than ten years with rheumatism, and it is with pleasure I avail myself of this opportunity to express to you the salutary effect your Sarsaparilla had on me. In January, 1842, I purchased of your agents, Messrs. Morley & Tucker, five bottles, which took agreeably to the printed directions, which entirely removed the complaint, and I have now reason to believe my health is permanently restored.

Yours, very respectfully,

S. H. GARROW.

For further particulars and conclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained of Agents gratis.

Prepared and sold, wholesale and retail, by A. B. & D. SANDS, Wholesale Druggists, 100 Fulton st., corner of William, New York.

Sold also by Patton & Osborn, Asheville; R. Oates, Charlotte; Williams, Haywood & Co., Raleigh and by Druggists generally throughout the United States. Price $1 per bottle; six bottles $5.

☞ The public are respectfully requested to remember that it is Sands's Sarsaparilla that has cured and is constantly achieving such remarkable cures of the most difficult class of diseases to which the human frame is subject; therefore ask for Sands' Sarsaparilla, and take no other.

Great Bargains!

CAN'T BE BEAT IN ALL CREATION!!

CALL AND SEE US.

A. B. & J. S. CHUNN

Are just receiving and opening a splendid

STOCK OF GOODS,

fresh from the eastern cities, which they promise and positively declare shall be sold as low, if not lower, than any other Goods, let them come from what quarter they may.

It is usual to boast through the medium of an advertisement, and promise a great many things, not expected to be performed, but we only ask a call, that we may prove how far our assertions may be believed. If you want a big load of Goods for little money, come and see us and you shall not be disappointed.

It will be sufficiently satisfactory, we hope, to say that our stock is *general and complete*, comprising almost every article usually in demand in this country. The stock has been selected with care and judgment, and from our knowledge in matters appertaining to this business, cannot be beaten for beauty, quality and cheapness any where in the back country.

With due deference to our competitors, we will say we intend to beat them, if we can by fair and honorable means, and if we find we can't, why then we can't.

We intend to do as much as possible a prompt business, as we intend our profits to be so low that indulgence cannot, nor ought not, to be expected.

We kindly admonish our old customers not to desert us, and we pledge ourselves they shall not be sorry for it. Stick to us like brothers, and we assure you that no good reason for complaint shall be given, either for want of accommodation or good bargains.

A. B. & J. S. CHUNN.

N. B.—All kinds of country produce will be taken in exchange for Goods, on the most accommodating terms, such as Beeswax, Feathers, Wool, Tallow, and Fur Skins in proper season.

Asheville, Feb. 20—tf 287

PUNCTUALITY.

We would remind those of our customers who have open accounts with us, of the fact of their having been made with the *express* understanding that they were to be settled by the first of January, 1846, which time has already passed. We are under the necessity of making collections, and hope that those indebted to us, either by note, judgment, or book account, will make payment between this and our April Court, for by so doing they will save us trouble and themselves cost—for necessity compells us to collect.

PATTON & OSBORN.

MEDICAL NOTICE.

DR. G. H. FREEMAN, would respectfully tender his professional services to the citizens of Western North Carolina in the various branches of his Profession, but especially to the cure of Cancers and Ulcers of long standing which have hitherto been pronounced incurable. Dr. Freeman has a number of certificates of cures performed by him, that place the matter beyond doubt that he can cure any Cancer in from four to six days, while there are several persons now in Buncombe County to whom reference is made who will cheerfully testify to the fact of his having performed radical cures. He may be consulted at his residence on Bear Creek, three miles from Col. Chunn's Bridge, on the West side of French Broad River, or by letter Post paid, directed to Lapland Post Office, Buncombe County, N. C.

Dr. Freeman would visit Patients any where in North or South Carolina, Georgia and Tennessee, and would receive patients at his own house, where they would have the advantage of his medical attendance until a cure was perfectly effected. His charges will at all times be moderate and in proportion to the services rendered.

New Goods!

Just received, and offered at the lowest price!!

HUGH JOHNSTON

Begs leave to inform his old friends and the public generally, that he is now receiving and opening, direct from New York, a general assortment of

GOODS,

which having been purchased entirely for cash, he flatters himself he can sell a *little lower* than any other in this market.

His stock is general and complete, embracing every thing usually called for in this section of country. His assortment of

BOOTS AND SHOES

is unusually handsome, as well as very cheap. The best

LEGHORN HATS

in the town are at his store, as well as the cheapest.

SADDLERY,

a splendid variety, positively "cheaper than ever." His stock of PRINTS he honestly believes is unequalled in "these diggins," both in quality and price.

CUTLERY of every description. First quality Sole Leather at 12½ cents a pound! Upper Leather in proportion. Groceries of all kinds kept constantly on hand, of the best quality, and at prices a "little" cheaper than the cheapest.

As those who wish to buy will of course call and examine for themselves, it is needless to give a long list of articles and prices. It is sufficient to say that I have a splendid stock of choice and desirable Goods, which I am determined to sell at prices which cannot fail to please.

HUGH JOHNSTON.

Asheville, June 12 tf 303

Great Attraction!

WILLIAM WILLIAMS

Is now opening at his cheap store in Asheville a beautiful stock of new and fashionable spring and summer

GOODS,

comprising every variety of Dry Goods for ladies and gentlemen's wear, many of which are entirely new in the market.

3-4, 4-4, 5-4, 6-4 Bleached and brown sheetings and shirtings, boots, shoes, hats, bonnets, & fine bonnet trimmings, hardware & cutlery, English & German mowing and cradling scythes, table and pocket KNIVES forks, hinges, and screws, &c. &c.

GROCERIES—Spice, pepper, ginger, paints, medicines, dye stuffs, Stuart's steam refi'd candy, mackeral, rice, molasses, crockery and glass ware, &c. &c. &c. &c.

These goods, added to those already on hand, makes a rich assortment, and are offered for sale at prices that cannot fail to give satisfaction. All persons in search of good, handsome and cheap goods are respectfully invited to give me a call. As cheap as the cheapest is now the word.

W. WILLIAMS.

Sale of Valuable Real Estate

By virtue of a decree made in the Court of Equity for Buncombe County, at Spring Term, 1846, in the case in said Court pending, wherein Mira Vance, Guardian of the infant heirs of D. Vance, deceased, is Complainant and M. D. Nelson and his wife Laura R. are Defendants, I shall offer that valuable farm and all the adjoining land on Ream's Creek belonging to the Heirs of David Vance, Deceased, for sale to the highest bidder on the 23, 24, and 25 days of September next. The sale to be made on the premises and in one or more tracts or parcels as may then be thought best, on a credit of one, two, three, four, and five years, with interest from date. One third of the purchase money to fall due the first year, and the remainder in four equal instalments, the purchaser or purchasers giving bond and approved security.

ALSO, at the Mills on Ivy, formerly the property of E. H. Hughey, I shall sell the said Mills and one hundred acres of adjoining land, on a credit of one and two years, with interest from date, on the 22d day of September next. The purchaser giving bond and approved security. To be sold by virtue of the same decree.

I. B. SAWYER, c. c. & e.

Conversation between two friends about Brandreth's Pills.

Q. Pray, What is the best time to take Brandreth's Pills, so as to get the full effect from a dose, which is large or small?

A. Answer. To take them or an empty stomach, or if not going to bed, as they seldom operate before morning.

Q. How can many a man eat, after taking a dose?

A. Directly. But it is better to wait an hour or so after, as in fact the breakfast is eaten the better, until the digestive process has begun to operate. Then eat as little or as much of soup is, however, the best you can take.

Q. Will any injury be the consequence of eating a hearty dinner directly after a dose of Brandreth's Pills?

A. No. But the pills will neither act or operate any the more good. By reason when the pills get right upon them, their vital forces on the animal matters of the body are somewhat suspended, more of the forces being necessarily absorbed by the digestive process.

Q. Suppose you were to use Brandreth Pills as a dinner pill, you used in that case take one or two immediately preceding dinner, as I have heard and in fact have known dyspepsias to use them, and benefited by so. How can you make the rule work both ways?

A. The Brandreth Pills, if taken immediately before a meal, accelerate digestion; when they are used as palliatives, and are of the most essential service in aiding the peristaltic functions, in producing the proper secretions of the various tissues of the body. But the question was, how is the greatest amount of purgation derived from the Pills? The answer we are about to be, by taking them on an empty stomach, but for the purpose of making the matter more plain to you, I will quote Dr. Brandreth. "I suppose that it is better to let the digested be read completed before the Pills are taken into the stomach. Suppose a hearty supper has been taken, then take them after the first sleep, or an hour or two before breakfast. If breakfast has been eaten, then in two or three hours afterwards, if dinner has been taken, if the circumstances will permit, for even serious sickness is present, down with the pills, if it is in the middle of a meal, there is never any danger from their presence) to wait four or five hours before a dose of the pills is taken. Let it be understood, that in all cases, if possible, they should be used on an empty stomach. The pills will always have a better effect. Not but that they are perfectly safe at any time, they are so. The object is to insure the greatest amount of good, and this is accomplished by taking them on an empty stomach. Because the object is not to accelerate digestion but to remove the crudities from the blood, and the pills, always passing into the blood, do so more readily and with greater comfort to the body, when the stomach has nothing to oppose to them in their passage through the first intestines, and so into the circulation. For when the pills are swallowed, they first pass into the stomach, and having been dissolved there, next pass into the small intestines from whence the lacteals take them up and pass them along with a portion of chyle, into the veins first, and afterwards into the arteries. I suppose they (the pills) impart an extra power to arterial blood to detarge morbid matters wherever it may find them; and also passing some morbid matter from the arteries to the veins, which being the pabulum of the liver, pancreas, and kidneys, in consequence of which, these organs become more vigorous in their secretions, and expel not only the crudities which have been thrown into them from all parts of the body, but also those which they themselves contained previous to this collection of crudities or impure matters, by the pills. These crudities, or impure humors or matters, are discharged in the bowels, and is being accomplished when you feel them filling up of the bowels, which warn that they are about to be moved. This feeling takes place in health, only to a less extent for it is the same principle that makes the bowels to discharge their contents; these acrid or acid humors are provided by nature for this very purpose—that of producing alvine evacuation—and it is only when they are in too great a quantity that disease is produced. The Brandreth Pills bring these humors from all parts of the body to the bowels, which excites is excited by their presence and so occasions their expulsion out of the body. Thus it is seen that the pills use their individuality after being dissolved in the stomach, and the purgation entirely from the effect produced by the cleansing the blood receives of the impurities."

Q. According to this, the pills only occasion purging, making the blood to free itself of its impurities by evacuation?

A. You have it exactly. They simply assist nature to do her own work in her own way, and in her own time.

Q. If then you believe them to be always applicable in cases of sickness. How can you make that out?

A. I prove it this way. If sickness can only affect the body when the vital principle is below its healthy standard, I know, and say also, will show that when the healthy principle is restored fully, there will be no disease.

Q. But suppose the sickness was the result of a fall, would the Brandreth Pills cure that?

A. No other medicine in the world will restore health so quickly as the Brandreth Pills, whether it was lost by a fall, or by breathing contagion. In case of a fall, or blow, they are highly necessary, because we may suppose there is congulated blood and lymph deposited in the region of the affected part—if internally, it will be dangerous for it to remain; if externally, it is unsightly at least. In either case, a few doses of Brandreth Pills will prevent all danger by completing a cure. I have seen them used in this way in a hundred cases, and have never known them fail. In fact they cannot.

Q. It is usual to bleed in cases of fits.

A. Brandreth Pills do what bleeding can do, and far more; they take out those parts from the blood by which are dead or impure—while bleeding takes out the healthy parts also. After Brandreth's Pills a man is stronger—after bleeding, weaker.

Q. How, stronger!—impossible! Do not Brandreth's Pills purge? How can a man be stronger by taking purge,—from depletion,—for is depletion just as surely as bleeding—how, then, tell me, can a man be stronger?

A. I admit ordinary purges weaken, the purgatives of your physicians, all other purgatives, save Brandreth's Pills. They do not weaken the strengthen and in two ways. Firstly by taking out of the body those matters which held, as it were, the life principle in custody; and, secondly, by imparting a tonic or life giving property to the blood.

Q. Then you do not suppose their continual use as an anti-bilious pill or otherwise, would injure?

A. Injure!—Goodness! Every dose you take will make you stronger in every way. Injure—Why, I know one gentleman living in the city of New York, who took them every day for five years for constitutional costiveness. He had not, for fifteen years previously, ever had a stool without using medicine or injection; and every year he was confined to his bed two or three months. For five years he took Brandreth Pills. And why? Because he found his bowels became stronger and stronger from their use; and from all other purgatives he had taken, they became weaker and weaker. In fact, he found that at first he required six, eight and ten pills, to produce an operation; but in a year four pills were a full dose, and before the full cure was effected, two pills were sufficient to produce an evacuation. Finally he became as healthy as any man. And for five years he took the Brandreth Pills, and was never confined to his bed a single day during *that* five years.

Q. This is a quality I never supposed in medicine.

A. Nevertheless, it is possessed by Brandreth Pills. And it is believed that it is the only purgative which possesses these qualities yet known to the world.

These Pills are for sale in every county in this State, at 25 cents per box; and may be had of the following agents:

PATTON & OSBORN, Asheville, N. C.
J. M. ALEXANDER, French Broad, N. C.
