E. M. BRONSON.
Charlotte, Feb. 18, 1826. 3t73

MAP Of the State of North-Carolina.

A CORRECT Map of the State in which he resides must be a desirable object to every individual. Whatever may be a man's occupation in life, it frequently becomes important to him, as a matter of pecuniary interest, to possess a correct knowledge of the relative situation of the different sections of country. In the present enlightened state of society, the subscriber is convinced that, apart from all considerations of interest or convenience, there are very few of our citizens who do not feel it an affair of personal pride that they and their children should be able to speak with familiarity of those parts of the State lying at a distance from them, as well as those in their immediate vicinity. The subscriber therefore flatters himself that the following proposals will be received with pleasure by a large portion of the inhabitants of his native State.

He proposes to publish a correct MAP OF THE STATE OF NORTH-CAROLINA, measuring 6 feet 9 inches in length by 3 feet 6 inches in width, laid out upon a scale of six miles to the inch. The materials will be of the best kind, and the engraving executed in superior style.

But correctness of delineation being the most important circumstance, has claimed the subscriber's chief attention; to the attainment of which important object, the Map of each county has been separately executed by R. H. B. BRAZIER, Esq. with the assistance of gentlemen of science residing in different parts of the State, and from the public surveys, and have been likewise revised and corrected by the several county surveyors, or some other competent person, in each county.

TERMS—For Maps, varnished, colored, and mounted on rollers, or put up in portable form, \$8 each.
JOHN MACRAE,
Fayetteville, N. C. Dec. 1, 1825. 4t64

Subscriptions for the above Map will be received at this office.

Patent Corn-Sheller, A NEW INVENTION.

WE hereby give notice to the citizens of Mecklenburg county, that we have purchased the right for manufacturing a Machine, called the PATENT CORN SHELLER, and will soon have them on hand for sale. For the simplicity of its construction and its utility to corn planters, it is unequalled by any other invention. Perhaps we may be thought to exaggerate, when we say it will shell a bushel of corn in three minutes, and by a little exertion in two minutes. But we invite all to come and examine it, witness its operation, and satisfy themselves as to its great utility. It can be seen at the subscribers' shop, opposite the jail.
THEO. MERRILLS,
WM. CORNWELL,
N. B. The price of the Patent Corn Sheller will be \$11 delivered at the shop, or \$12 delivered at the house of the purchaser.
All persons are cautioned against making, using or vending the above machine in this county, under penalty of the law in that case made and provided.
Charlotte, Jan. 20, 1826. 5t7f

Ranaway

FROM the subscriber, about the twenty-fifth of January last, my negro man JOE, of a slender make and not very black. He was once the property of Judge Lowry, and is thought to be lurking about somewhere in Mecklenburg county. Any person apprehending and delivering him to me, living in Lincoln county, near the mouth of South Fork, or securing him in jail, so that I get him again, shall be liberally rewarded by
LEROY STOWE.
Feb. 18, 1826. 3t73p

\$100 Reward.

RANAWAY from the subscriber, a negro woman named NANCY, about 20 years of age, remarkably likely, and of a pleasant expression of countenance—usually looks down, and when she raises her eyes, they have rather a white appearance. Her voice is mild, and I think her nose is a little aquiline. I have strong reason to believe the said woman was taken up about four miles above Charlotte, on or about the first of last November, since which I have heard nothing of her. The woman was of good character, and was enticed away by her husband; and I have no doubt when they were separated near Charlotte, that she would have given herself up or been taken and told to whom she belonged—which makes me believe she is concealed or stolen. Any person who will prosecute the thief to conviction, and give me information where my woman is, will be entitled to the above reward; or to twenty dollars, for giving me information where I may get my woman.
WILLIAM McWILLIE.
Camden, Jan. 27, 1826. 3t73p

Stray.

HEREBY give notice, that Thos. Whiteside has posted on my Stray Book an iron grey Horse, fourteen hands three inches high, eight or nine years old, with blue man, and tail. Said Whiteside lives in the Providence settlement, south of Charlotte about 12 or 15 miles.
JNO. DAVIS, one of the Rangers for the county of Mecklenburg, North-Carolina.

Ten Dollars Reward.

LOST, about the 12th November last, somewhere between my own house and Matthew Bain's, or else between my house and Charlotte, a large bundle of Notes, amongst which are the following:—Two notes on Guy Maxwell, one on John Rogers, one on Matthew Bain, several on Andrew Miller, deceased; together with a number of others not at present recollecting. I will give the above reward to any person who will deliver me said papers, and forewarn any person from trading for any of said notes.
MATTHEW WALLACE.
Feb. 4, 1826. 3t74p

Strayed,

FROM the subscriber, in Fredell county, on the 6th instant, a dark bay MARE, with tail and mane nearly black, about 14 or 15 hands high, and ten or twelve years old. She went away with a bridle on, was shod all round, and had a very sore back. It is expected she will make for Pendleton District, S. C. I will give five dollars reward to any person who will give information to me of said mare, so that I get her again.
JOSHUA PINKSTON.

DESULTORY.

Finances of the Government.—The Committee of Ways and Means in the House of Representatives of the United States, have made a report, occupying thirty-one printed octavo pages; the report does not vary, essentially, the state of the finances as reported by the Secretary of the Treasury, whose report we published a few weeks ago. The Committee, however, do not concur in the recommendation of the Secretary of the Treasury to contract a loan for the redemption of that portion of the public debt that becomes due in 1829 and 1830.

“Under circumstances, say the Committee, in which the Government is under no obligation to pay the public debt, at any precise time, but is at liberty, and, perhaps, bound in duty, to discharge it with the greatest advantage to the state of the finances, without producing unnecessary inconvenience to the creditor, and giving due weight to the considerations already presented, the committee do not feel themselves authorized to recommend a loan or exchange. They recommend, on the contrary, that the finances of the nation should be judiciously cherished; the public expenditures regulated by a wise and liberal economy; and surplus means gradually applied, in each ensuing quarter of the year to which they may be adequate.

“The Committee deem it unnecessary to recommend any particular mode of carrying this scheme into operation, preferring to leave it to be regulated by the convenience and capacity of the Treasury.”

“It might be accomplished, in relation to all the six per cents, except the \$16,000,000 of 1813, by partial payments, from time to time, of each certificate, and upon the principle of distribution among the several land offices: but, as the terms of that loan require all the stock, owned by any one individual, at given period, to be paid, it would perhaps be best; for the sake of uniformity, to adopt some mode applicable alike to all the debt.—In this way the owners, whose stock could be paid at the end of any one ensuing quarter, might be designated by lottery, to be drawn at the Treasury, on the last day of a preceding quarter, and notice given accordingly, for three months, of such intended payment, on the day therein to be named.”

Georgia Wedding.—It appears from the Darien paper, that a Mr. John Odena lately invited his friends to his wedding and a ball, which he gave in honor of the event. The company assembled, the magistrate and fiddlers were present, as well as the bride and bridegroom. The bride being solicited to receive the ring, she peremptorily refused, observing that she had changed her mind. The company thinking the bride had only been seized with a momentary whim, ordered the musicians to strike up “haste to the wedding,” when she and John Odena immediately began dancing, and all the company joined in.—The bride after the dance still continued to refuse her hand to John Odena, and the lady hostess of the house, fearful perhaps that some unpleasant disputes might arise, entered the room with a club, and drove the whole company into the street.

MONSTROUS DIVE.—An occurrence of a frightful nature happened a few days since at Valley Falls, a short distance from this village, which has just been related to us by a gentleman from that place. While Mr. Otis N. Pearce was at work on the roof of a four story cotton factory, he accidentally lost his balance, and the shingles being wet from a recent rain, he was unable to stop himself from going off. When he came to the edge he made a desperate effort to cling to the roof, and for a moment was suspended by the arms over the frightful precipice below. He was instantly compelled to give way, and turning in his fall, struck with his hands and breast the edge of a bank which caved under him and he went into the river with his head downwards. His face struck the bottom, but he came up in a moment, and by the assistance of several near him, he was taken out without any other injury than the fracture of the bones of his wrists and a small bruise on the forehead. It is stated that there were but about four feet in either direction from the place where Mr. P. fell, that he could have escaped being dashed to pieces, had he been so unfortunate as to have struck on any other spot than that which received him. *Packets Chronicle.*

Comparative expense of Candles and Lamps.

A person in Philadelphia placed a common glass lamp with a flat wick, half an inch wide, beside a mould candle of the size called Sixes, and allowed both to burn 16 hours and a half without being moved. In that time two candles and

three-fifths were consumed, and one third pint of oil. From the experiment it appears that one gallon of oil will burn 402 hours, and that it requires 10 and three-fifths pounds of candles to burn the same time; so that, supposing oil to be 75 cents per gallon, it will be equal to mould candles at 7 cents per pound, which shows the advantage gained in the use of oil to be very great.

Foreign.

LATE FROM ENGLAND.
The packet ship *Canada*, Capt. Rogers, arrived on Saturday, from Liverpool, having sailed thence on the morning of the 4th ultimo. The papers contain no political intelligence of moment.

On the 1st of January, the stock of Cotton in the Liverpool market was ascertained to be three hundred and eleven thousand bales, or one hundred and ninety thousand bales more than at the same period last year. This declaration had caused a decline in the price of about 1/4 per pound, and a further decline was expected.

Letters from Havre of Dec. 26, state that about 5000 bales of Cotton had arrived since the 22d—no alteration in the price—sales dull.

The money market was becoming better. Of about seventy banking establishments in England which had stopped, five had already resumed payment. The late shock had extended to Ireland, where several failures had occurred. The most important is stated to be the extensive house of Henry Higginbotham, of Dublin, which had produced a great sensation in that city.

The deficiency in the revenue of the British Customs, in the last quarter of 1825, is said to be 730,000*l.*

A Treasury order, dated 8th December, permits tobacco to be warehoused five years without additional rent, and orders the duty to be charged on the weight actually delivered from the warehouse.

For the purpose of encouraging the growth of Cotton in the Isle of Malta, the importation is permitted in England free of duty.

On the first news of the death of Alexander, the august members of the Imperial Family, the council of the Empire, and the Ministers, assembled at the Palace, when the Grand Duke Nicholas, first, and after him all the public officers who were present, as well as all the regiments of Imperial Guards, took the oath of fidelity to the Emperor Constantine I.

The London Gazette contains an order for the Court to go into mourning on Sunday the 1st, for his late Majesty the Emperor of Russia: to change mourning on Sunday the 15th; and to go out on Sunday the 22d inst.

There were buried in the city of London, according to the bills of Mortality, from the 14th Dec. 1824, to the 15th Dec. 1825, 10,825 males, and 10,201 females, in all 21,026; christened in the same period, 12,915 males, 12,719 females, in all 25,634.

Concerning the Greeks we find no news at all.

The total import of Cotton into the Kingdom of Great Britain in 1825, was 820,929 bales,—which exceeds that of 1824 by 280,355, and 251,522 more than either of the previous five years. The stock remaining on hand on the 31st December, was greater than at the close of either the previous years. Estimating the import of Cotton the same this as the past year, to which add present stock on hand in port, shows a supply for 1826 of 1,236,888 bales; and, estimating the consumption and export the same this as the past year, which was 640,330 bales, the supply for 1826 will show an excess the present year of 596,558 bales, leaving stock in ports on the 31st December next, for the consumption and export of 1827, equal to the whole consumption and average export from the kingdom the past year.

Cotton—Upland 6 1/2 to 9 1/2, Orleans 8 1/2 to 11*d.*, Alabama 6 1/2 the 8 1/2, Sea Island 20 to 35*d.*, Stained do. 7 to 11*d.*

London, Dec. 23.—On Saturday Mr. Rufus King, the American Minister, transacted business at the Foreign Office.

FROM HAVANA.

The following letter from the Baltimore American, containing the last information from Havana, will show that they apprehend & are not badly provided with means to repel an attack from the patriots.

“We are quiet here at present and expect to remain so for some time, unless visited by some of our neighbors. The troops lately arrived from Europe, and those yet expected, with the great number of loyalists this place contains, make it probable that no attempt, at present, to overthrow the government, would be attended with success. I say the great number of loyalists here, as all those, or
