DEMOCRATIC Anti-KNOW-NOTHING TICKET.

FOR PRESIDENT. JAMES BUCHANAN, OF PENNSYLVANIA,

FOR VICE PRESIDENT,

ELECTORS FOR PRESIDENT AND VICE PRESIDENT: For the State at Large:

Henry M. Shaw, of Currituck. Samuel P. Hill, of Caswell.

JAMES W. OSBORNE, ESQ.

The able and patriotic letter of this gentleman, in to-day's paper, assigning his reasons, as an old-line Whig whose sympathies have been warmly on the side of Fillmore and the Know-Nothing party, for transfering his support to James Buchanan, will be read with profound interest by the people of Mecklenburg, and will command general Highly respected and esteemed by all his numerous acquaintance, for his elevated social and moral character, he is at the same time the pride of his friends and the admiration of all, on account of his commanding intellect, talents, and oratorical only a local reputation as a man of giant circumstance that none were killed. intellect and prominence, but a name famihar far beyond the bounds of his own State; and the opinions of no man is entitled to greater respect and consideration. A patriot, who has kept a watchful eye on the enemics of the Constitution, the Union, and his own beloved South, at the hour of imminent peril to all, he surrenders party attachments, lays aside all minor considerations, and gallantly, generously, and magnanimously steps forward to render all the aid in his power to save his country from the accursed thralldom of Black Republicanism. Are there not thousands in North-Carolina, who will follow the noble example of Jame W. Osborne! Who can doubt that there are? We honor and admire him more than ever, as must every friend of the country, for this distinguished proof of his devotion to country over party. Always the idol of his political friends, and occupying a front position in their ranks, let them read attentively his reasons for reluctantly finding himself obliged to act with the Democratic party in the present contest for the Presidency, and give his opinions that high degree of respect to which they are entitled. "All he desires is the safety of the, South and the preservation of the Union.' And the only hope now of securing these great ends, is by a union of the South on Mr. Buchanan, to defeat Black Republican-

------MORE FRIENDS OF THE SOUTH.

In connection with Mr. Osborne's Letter, we are much gratified in laying, before our readers the admirable Letters of the Hon. D. M. BARRINGER and A. C. WILLIAMSON, Esq., of this town, also assigning their reasons for supporting Mr. Buckanan.

We also invite attention to the able and interesting letter of George D. Gray, Esq. a Know-Nothing leader in Virginia, on the same subject-and an extract from a letter of the Hon. Charles J. ed the eyes of the South. The signs give us reason to hope that ere long Black Republicanism will find but little consolation from dissension amongst our people.

A WHIG CONVENTION.

A national Convention of Know-Nothings, calling themselves Whigs, has just closed a session, "flat, stale, and unprofitable," at Baltimore. Of course, it nominated Fillmore & Donelson, for the members went there (Gov. Graham, of this State, stated) for no other purpose. The Conven-North, by inducing some Whigs there to adhere to him, who otherwise would have given their vote to Fremont. It is rather late in the day for national Conventions, and especially for Know-Nothing Conventions. This never would have been called, 5,000 to speculators and 9,000 to exporters. if the present aspect of the political horizon could have been foreseen. The elections in the free States, showing that Mr. Fillmore is powerless in the North as well as in the South, had not taken place at the in a collision off Liverpool, and seventy time this Convention was called.

Road Company. GENTLEMEN: At your last annual meeting you directed me to employ David Ren-over Killian's creek, at Dr. C. L. Hunter's, and pay for the same out of the proceeds of BRANDY, Apple per gal..... the Road: he has done the work, and done and I have paid him on the same \$274. The Board of Directors instructed me to have \$8,500 insured on the bridge over the Catawba river, and \$1,500 on the bridge over Killian's creek, against fire-all of the river bridge, in the Charlotte Insurance Office, and \$2,500 on the same in the Asheville Insurance Office-and I insured \$1. 500 on the Killian's creek bridge, in the Charlotte Insurance Office. Some five or six months since. I discovered that the river bridge was considerably bent up stream, between the piers, and I got Col. Renno to put in some iron rods to prevent it from giving away any more, and he thought it much worse, and I laid the case before the Board of Directors, and they directed me to employ Col. Renno to move it back to its place, and put in such timber as would him and engaged the timber for the same, and the work is now nearly completed, and will not be the least danger of its ever giving way again. The Directors placed \$1,-000 worth of our Bonds at my disposal to pay for the repairs. The receipts of the Road from toll and fines for the last year, (which has just ended) is \$3,829 91, which together with \$298 87 cents remaining on hand at the end of

the previous year, amounts to \$4,128 78;

and the disbursements are \$4.111 04, leav-

As the plank on the road are decaying fast, and I see no prospect of being able to discharge the the payment, which, after paying for the epairs of the river bridge, will amount to about \$22,500. The other debts not inness of the Company something like \$33,-000-and the cost of the Road near \$83,-000. I would recommend to you the propriety of endeavering to fall on some plan of the Company at as early a day as possible, to enable us to meet the payment of the Bonds and all other outstanding debts. I would also recommend you to appoint a committee of two gentlemen, to enceavor to get our next Legislature to amend or alter the Charter of our Road, so that it may be kept up as a Turnpike Road after the plank have decayed, that we may be able to collect toll on the same as we now do. The well at the toll gate near Lincolnton is so much out of repair that it cannot be made to answer the purpose designed, and it is so far to any other water, that we will not be able to keep a Toll Collector there unless we sink a new well. I would therefore recommend the Company to order another well to be sunk there at an early day. The suit of W. W. Elms, against the Company is yet pending in court, and as there may be some erroneous opinions entertained by some of the Stockholders and the requested. public about the suit, I think in justice to the Directors under whose advice I act, and also to myself, I should state the circumstances of the case: A few months after I took charge of the Road as President, I was informed that Mr. Elms intend ed to sue the Company for his pay, and that before he had completed his contract. I called to see Mr. Elms and told him what him that there was no necessity of sueing: that I was ready to come to a settlement with him at any time and give him the Company's Bonds and Certificates for Stock according to contract; he answered that he would be losing the Interest on the Bonds that he should have had before. I told him the Bonds should be drawn to bear interest from the time the work was completed; he appeared perfectly satisfied, and asked of the Metalic plate. They cannot get dusty me if I would be in Charlotte again in two and are at the time appointed, and every two or three weeks, for several months thereafter, and saw Mr. Elms nearly every time, and he never named the settlement, but had a Writ served on me for \$20,000-and two or three times after the suit was commenced, I understood through his attorney Major Green W. Caldwell, that Mr. Elms wished to make a settlement. I always replied that I was willing and ready to settle, but never could get Mr. Elms to a settlement. An arrangement was made with our Council and his to make a settlement during one of the court weeks at Charlotte, and I went over prepared to go into it. On going there, one of our Attorneys was subponed in the case by Mr. Elms, and nothing more was said about a settlement. I had intended to have taken the deposition of our late Engineer, Mr. Fry, when he was in Charlotte last winter, but before I had any nowas then satisfied, and forwarded to Mr. Fry what I knew he would prove was the contract, and his estimate of Mr. Elms' work; and on the day appointed to take for Mr. Thomas Alexander. the deposition, Mr. Osborne was not in Char lotte, and Mr. Elms rode out on the same day to his gold mine, and Mr. Fry left late on the same evening for New York, which appeared to me very much like the notice was given to deceive me, and prevent me from taking his deposition, and since that, Mr. Fry has been travelling over the north western States, so that I have not been able to get his deposition. These are the reasons why I had the suit laid over at the the trial of the case before I had my evidence ready. Mr. Elms' contract with the Company was to take the Bonds or Notes of the Company and Stock on the Road for

TERRIBLE RIOT IN BALTIMORE. The most terrible riot that has taken place in Baltimore for many years, occurred on Friday evening, at the corner of Light and Warren streets, in the vicinty of Federal Hill, between the adherents of bled at the Seventeenth ward Democratic Headquarters. Two men were killed outed. Both the men killed and a majority of those wounded had no connection with the affray, being either residents of the street at the time. Guns and pistols were

savages, the fight lasting for half an hour. The following particulars of the riot we The fishing club several times passed the Seventeenth Ward House, kept by James Clark, where a slight difficulty occourred early in the day. When they pass ed the house the last time, one of the Wampanogs lagged behind and cheered for Fillmore, which was responded to by a man on the sidewalk named John Carter, who cheered for Buchanan. These parties then took hold of each other, when several others interfered. The fishing clubs then returned, when the party in front of the house commenced firing pistols. The fire was returned, and for a half hour the conbeing shot down at every turn. The fish-

much larger number was not killed. Most of those injured, as is usual in such cases, had no part in the affray.
