

EVEN SO. In Pennsylvania, Ohio, Georgia, Missis... In the States enumerated, the elections... In Baltimore there was no election at all.

THE DUELLIST. In an address delivered before Wake Forest College, June 10, 1857, by Rev. Wm. Hooper, we find some strong arguments against duelling.

HONORABLE JACOB THOMPSON, SECRETARY OF THE INTERIOR. A correspondent of the Raleigh Standard communicates to that paper the following article:

Foreign Intelligence. The steamship North America has arrived with Liverpool dates to the 7th inst. It was announced that Parliament would not meet till the usual time.

THE MANNERS OF THE MOTHER MOULD THE CHILD. There is no disputing this fact, it shines in the face of every little child. This coarse, brawling, scolding woman will have vicious, brawling children.

UNNECESSARY GRUBBLING.—A Southern journal commenting upon a certain class who have plenty to eat, drink and wear, and no liabilities in any way embarrassing, who yet creak in the most forlorn manner, and sigh plaintively for better times, tells the following apposite anecdote:

A TERRIBLE INCIDENT.—Among the incidents of the Sepoy revolution, the following possesses a thrilling interest: "Frank Gordon, Alick Skene, his wife, and a few peons managed to get into a small room tower when the disturbance began; the children and all the rest were in other parts of the fort—altogether sixty. Gordon had a regular battery of guns, also revolvers, and he and Skene picked off the rebels as fast as they could fire. Mrs. Skene loading for them. The peons say they never missed once, and, before it was all over, they killed thirty-seven, besides many wounded. The rebels, after butchering all in the fort, brought ladders against the tower and commenced swarming up. Frank Gordon was shot through the forehead and killed at once. Skene then saw that it was no use going on any more; so he kissed his wife, shot her, and then himself."

Richard Taylor, the only son of the late President Taylor, is the Democratic candidate for the Senate of Louisiana in the Saint Charles District. It is a remarkable thing that the sons of nearly all the leading Whig statesmen of the Old Line, have been carried into the ranks of the Democracy by the changes of the times. The sons of Clay, of Webster and of Taylor, bear the banner of the Democratic party. Our "American" friends may think the abatement of such outrages as those which have disgraced their party in Baltimore, for depriving them of the support of the leading members of the Old Whig party North and South. We trust we shall always know how to submit to the decision of the majority, properly expressed, no matter how much we may differ from the policy of the successful party.

But you will say: How can we treat thus, a young man, gallant in spirit, generous, kind, warm-hearted, honest, honorable, amiable, elegant in manners, cultivated in intellect? I admit it is hard, but this is the only way in which you can get rid of duelling. And you will not have to do it long. The first generation must be sacrificed, but the second generation, and all succeeding generations will be saved.—Duelling which lives upon the smiles, will die under the slights and sneers of society. Society, then, has the control of the practice. It will flourish at her bidding, it will wither at her rebuke. And I fear there is no hope of its extinction until the popular sentiment shall sympathize with the law of God, which commands the magistrate to shed the blood of the wilful homicide.

The Indian advices received at Paris were more gloomy than the English letters. They report that the rebels were under European generalship; that operations were commenced to prevent a union of British forces; that five years fighting were anticipated; and that the native troops were not trustworthy anywhere.

The Spanish Ministry had resigned, and Narvaez had left Cadix for Paris. Lersundi had been appointed President of the Council in the new provisional cabinet. Bravo Murilla had quitted Paris for Madrid. France was adopting measures for the encouragement of the production of cotton in her West India possessions.

I can always tell the mother by the boy. Theurchin who draws back with double fists and lunges at his playmate if he looks at him askance, has a very questionable mother. She may feed him and clothe him with promises; but if she gets mad, she will give him a knock on the back, she will drag him by the hair, she will call him all sorts of wicked names, while passion plays over her face in lambent flames that curl and writhe out of the corners of her eyes.

SAD ENGINEERING.—The Charlottesville Advocate says of the tunnel through the Blue Ridge: "It now turns out by actual experiment that the Blue Ridge Tunnel is too small to admit the passage of a single car, much less a full train! And it is variously estimated by knowing ones that it will take from at least three to probably eighteen months before the defect can be remedied."

FALL GOODS AT FISHER & BURROUGHS. HAVING OPENED A large and attractive stock of fall and winter Goods, we would invite the attention and solicit an examination of our DRESS GOODS, EMBROIDERIES, CLOAKS and TALMAS, Also, CARPETINGS, OIL CLOTHS and MATTING, in great variety. Blankets, Fine Bed and Negro Blankets, also Kerseys and Plaids for plantation use. A large supply of the above goods excellent in quality and moderate price will be found at FISHER & BURROUGHS.

Such "victories" as those achieved in Baltimore have led to the speedy ruin of the American party—their tolerance must operate to the serious injury of the city in which they are perpetrated. Many—very many of the members of the "American party" regard these things with as much dislike as we do, but still the humiliating fact remains that the acts of riotous violence are endorsed by the organs of the party in Baltimore, and silently approved by the authorities, since the police made not one effort to prevent the occurrences.

It belongs to the statesman and historian to examine and discuss all the great questions of public interest which agitated the public mind during this excited period, and to extract from the many speeches made by Mr. Thompson his views upon the different questions of the day. Suffice for our purpose to say that he proved himself a Democrat of "the strictest sect" on all these occasions—the determined foe of all corruptions or intrigues; the constant advocate of truth and justice; the liberal and patriotic statesman; and the unswerving and fearless advocate of the honor and interest of Mississippi. He took his seat in the House of Representatives, as a member from Mississippi, on the 21 day of December, 1839, with the Hon. A. G. Brown, now a Senator in Congress, the sole Representatives at that day. This was a period of extreme political excitement, and the first lessons which Mr. Thompson received in the stormy school of politics were well calculated to try his consistency and his nerve.

There is nothing lazier from India. Violent storms have swept the English coast. The American crisis has been felt severely in England and France, and money in all parts of Europe is advancing, in consequence of specie being shipped to America. The King of Prussia is in a dying condition. The London Star says the Governor General of India has been recalled.

The London Times expresses the opinion that there is nothing in the advanced rate of interest to excite alarm, and fright alone has caused all the run going on in the United States. The Europa brings \$63,000 in specie.

She hovers before him as a pillar of light before the wandering Israelites, and her beams are reflected in his face. To him the word mother is synonymous with everything pure, sweet, and beautiful. Is he an artist? In after life, the face that with holy radiance shines on his canvas will be his path with sunny smiles, and soft, low voice, will bring his mother's image freely to his breast. She is like my mother, will be the highest meed of his praise. Not even when the hair turns silver and eyes grow dim, will the majesty of that life and presence desert him.

Not Quite Off.—A Mrs Snyder, residing near McGeheysville, Va., one day last week suddenly fell down apparently dead. The necessary burial clothes were procured, (says the Valley Democrat.) and while her friends were engaged in dressing her in the habiliments of the grave, she politely requested them to wait until she was dead. It is needless to say that her request was cheerfully complied with. She is now rapidly improving.

SMUT MACHINES. The subscribers have on hand a supply of these superior machines, which they are offering at low prices for cash, and warranted to give satisfaction or no sale. FISHER & BURROUGHS. Oct. 13, 1857. 2m

The steamer Europa has arrived bringing advices from Liverpool to the 10th instant. The sales of cotton for the week amounted to 57,000 bales. The market was quiet on the day of sailing. The Persia's news caused a slight decline in all qualities. Flour is dull and slightly declined. Wheat is dull, at a decline of 2 to 3d. All qualities of corn are steady.

The London Times expresses the opinion that there is nothing in the advanced rate of interest to excite alarm, and fright alone has caused all the run going on in the United States. The Europa brings \$63,000 in specie.
