IF.

The Yankees have one unfailing "base" to "fall back" on, in order to account for their uniform want of success in the "on to Richmond." It is he short and comprehensive syllable "if." If McDowell had joined his forces to McClellan's. the "young Napoleon" would have captured Richmond, and if Burnside's pontoons had arrived in time he would have swept Lee from the heights around Fredericksburg with the besom of destruc-

"If" is a very short, but a very important word in human affairs. If Adam had not fallen, there would now be no war and no Yankees. If Julius asar had listened to the advice of his wife, the ungrateful steel of Brutus would not have found his heart. If Grouchy had come up to time at Waterloo, or if Blucher had been behind time, England would not be a first-rate power. If the Abolitionists had not got possession of the Government of the United States, the Union would still be in existence. If the combinations of Generals could always be carried out to their satisfaction, there would be no necessity of an "if" to vindicate their reputations. Even admitting that an "if" can account for the past failures of McClellan & Co., what is to insure them against an "if" with their future operations ?
