

BE NOT DESPONDENT

When anxious cares thine heart assail, And gathering clouds sweep low and dark; Calmly survey the rising gale, And fearless trim thy gallant bark. Heed not the winds, though fierce they rage, Nor billows, yawning wide and deep— The storm will its own wrath assuage, The tempest rock itself to sleep. Be true to friendship's trusting ties— Life's golden chain in every clime; On thy fair brow wear no disguise— Truth brightens with the touch of time. And if thy heart would fondly prove, A richer joy than friendship breathes, Attune its chords to love, And wear the crown and angel wreaths. Be firm, whatever may betide— For danger lures along the way; Cringe not to power, nor fawn to pride, Nor blindly yield to fashions' sway— Steer boldly o'er life's darkest sea; Each act of duty well perform— Thy bark shall ride triumphantly— A hand Divine guides every storm.

FEMALE SUFFRAGE.

Certain startling questions have recently sprung into life, and are performing a grand march around the world. Prominent among them is "female suffrage" and nothing is more certain than that women will be permitted to vote in less than ten years. In this country it will come sooner, but in England the picket line of great thinkers are already agitating the question, and there the female will vote before long. Here no man of commanding intellect has broken ground for female suffrage, but we have an awful clamor in favor of it from hosts of noisy men and women.

A Postscript.

"I love to look upon a young man. There is a hidden potency concealed within his breast which charms and pains me." The daughter of a clergyman happening to find the above sentence in the close of her father's manuscript he had left it in his study, sat down and smiled. "These my sentiments exactly, papa, excepting the pains."

BAUGH'S RAW BONE SUPER-PHOSPHATE OF LIME.

Manufactured under the formula originated in 1854 and patented by

BAUGH & SONS,

Sole Proprietors, at the Delaware River Chemical Works, Philadelphia, U. S. A.

This old established MANURE is manufactured from bones that have not been burned or steamed, and it contains all their original organic matter. It is active in its operation, and a fertilizer of great durability. It does not exhaust the soil like Peruvian Guano, but on the contrary permanently improves it.

Previous to 1861 it was introduced into the Southern States to considerable extent, and again in 1862, where it has been used with remarkable success upon

Cotton, Corn, Tobacco, & all Crops.

A trial will convince any planter of its merits. Pamphlets containing well known Southern evidence furnished upon application to New York or Philadelphia offices.
