#### COUNTY MATTERS.

The County Court for Mecklenburg was in session last week, and on . Tuesday the Magistrates assembled for the purpose of levying the County Tax for the present year.

To the Honorable Court of Pleas and Quarter Session:

of Mecklenburg County : Your Committee of Finance, to whom was referred the amount of Taxes to be laid by the County this year, bave given the same a careful consideration. and in view of the enormous burden it will impose upon the people to levy tax sufficient to meet County and Rev. Paul Bagley. and Court expenses and other indebtedness, do not feel as if they would be justified in recommending such a tax as would discharge all claims this year. They are forced to the suggestion that the debt due by the County to D. Henderson, say \$2,000 : interold interest not funded, say \$1,500; Funded Bonds and interest due this year, \$2,000-amounting to \$9,700-be extended beyond the year; and they maturing five years after date, and bearing interest at the rate of six per cent, payable annually. It will be absolutely necessary to raise funds for

County purposes, say for Asylum, Wardens of the Poor, " County Purposes,

\$16,000 To raise this amount your Committee would recommend that twice the amount of Tax as is laid by the State, be laid for County purposes, and the

money so raised be applied only to County purposes. It would have been a source of gratification to your Committee if they could possibly have done so to propose a levy sufficient to pay all the indebtedness of the County, but they feel that the pressure would be too great upon the people at this time, and can only recommend such a tax as will meet the wants of the County, and trust for better days to come when her bonded debt and interest shall receive that attention which it was our pride to give it in more prosperous days.

F. M. ROSS. W. W. GRIER, Committee. T. W. DEWEY,

Therefore, the County Tax will be about twice as high as last year. This will be pretty hard on some people in these times, but if the Court has given the matter full consideration, it might be out of place for us to raise any objections or suggest a different course to lessen the amount of taxes.

IF It would be well before North Carolinians purchase any history of the late war, or of Gen. Lee, or anybody else, to examine the book and see if there is not some slander in it against North Carolina. Pollard's history of the "Lost Cause" is unworthy of patronage, and a history of Gen. Lee's campaigns, gotten up by a Virgmian named McCabe, contains an untruthful statement about Pettigrew's N. C. Brigade at the battle of Gettysburg. On our first page we pub lish an excellent reply to McCabe's slander, which the Raleigh Sentinel says was written by Col. Faribault of Wake county.

Although North Carolina was the back-bone of particular favorites. the Confederacy, and the bones of her sons lie on every battle-field, she has never yet received justice from any one who professes to give a history of the Southern Generals and armies. such books, and wait until some well-informed impartial man writes a history.

THE LAND WE LOVE .- The April number of this excellent Monthly, published in this city, is as handsomely printed as any work we ever saw. It is filled as usual with articles of great interest, consisting of reports of battles, poetry, and anecdotes of the war. This is truly a Southern Magazine in every respect, and equal in point of merit to any published in the North, and the Southern people should do all in their power to

RELIGIOUS .- The Rev. J. B. Hardwick, the Paster of the Baptist Church at Goldsboro, has during the past week. Although the weather was quite inclement, we learn that the congregations were large. Mr Hardwick is an impressive speaker and an earnest, energetic Minister of the Gospel-popular with all denominations wherever be is known.

CORN .- We are gratified to see that a large quantity of corn is arriving at this place for the destitute of Union county. Mr J. McLaughlin, of the firm of Hammond & McLaughlin, has kindly volunteered to take charge of and store the corn as it arrives. He had on hand last week 1.000 bushels for Union. It is to be hoped that persons in that county who have teams will promptly haul the corn to the point of delivery.

F. W. Ahrens, Assessor of U. S. Revenue will be at Morrow's Turnout on the 23d inst., instead of the 22d as advertised.

A meeting of the Mecklenburg Agricultural Society will be held in the Court House on Saturday next. at 11 o'clock.

CANDY MANUFACTORY .- Believing it to the interest of all to encourage home manufactures, we call attention to the fact that Dallas M. Rigler, in Granite Row, has commenced the manufacture of Candy for the wholesale and retail trade. He has a No. 1 candy-maker, and is manufacturing a very superior article which he informs us he is willing to sell at lower rates than it can be brought from

PARDONED .- We are gratified to learn that Ex-Gov. Vance has been pardened by the President. The pardon was recommended by 12 Senators and 28 Representatives-among them some of the most extreme radicals.

We are sorry that the President did not pardon every Southern man long ago, before Congress interferred with his power over the matter.

The Washington Star, speaking of Governor Vance's pardon, says:

The President this morning issued his warrant of pardon to Z. B. Vance, late Governor of North Carolina. The pardon was issued upon the recommendation of Senators Henderson, Davis, Saulsbury. The Sentinel knows very well that we have been doing all we could to prevent confiscation. Since the close of the war we have used our influence to promote peace and good feeling among the people and Sentinel and those for whom it speaks had purimposed by Congress. We will speak plainly to the Sentinel and tell it that its present course is calculated to bring about confiscation and further disfranchisement. It is doing Gov. Worth's administration a great deal of harm.

> We are opposed to test oaths, disfranchisement and confiscation, but we fear that if the Sentine continues its present imprudent course these neasures, in their worst form, will be forced upon the people. It is said that there are persons in this State who favor confiscation. We know that such persons did not control the late Convention at Raleigh. > SOUTH CAROLINA .- Gov. Orr has appointed agents to proceed to Europe and represent to those who contemplate emigrating to America the advantages of South Carolina, and a circular has ing them to co-operate in the movement.

An effort was made to induce the late Legislature of North Carolina to initiate measures for securing immigration to the State, but that body was unwilling to do anything to promote the obsubject, and Mr Wilson, our able Senator, did all he could to awaken an interest in the matter, but been preaching in the Baptist Church in this city all failed. The result is that the States around us, by their prompt action, will increase their white population and the production of their soil. while thousands of farms and good land in our own State will "lie out" uncultivated. Small farms and an increased number of farmers are what is demanded by the circumstances and the

ENTERPRISE .- Jas. R. Love, Esq., of Buncombe county, N. C., writes from New York to the Asheville News as follows:

Charlotte.

"I have succeeded in an arrangement by which the American Agricultural and Mineral Land Company, chartered by the General Assembly of the State of North Carolina, on the 26th day of February, A. D., 1867, and organized in the city of New York on the 21st day of March, A. D., 1867, will go largely into the raising of sheep and other stock in the counties of Western North Carolina. In connection with the same business the Company hope within a reasonable time to erect Woolen Factories in some of the counties ground, planting and all, in the space of twelve West of the Blue Ridge, and develope mines.

TRUE .- The Richmond Whig, speaking of the coming reconstruction elections, makes this truth-

"It may be as necessary to sacrifice our preferences for men as it is to sacrifice our preferences for particular forms of Constitution.'

If the people will act on that idea, and abandon their old prejudices and preferences, there will be no further trouble.

The party in Tennessee that opposes Brownlow, called the Conservative Union party. is holding meetings throughout the State, at which negroes and white men meet and sit together. The fact is, all parties in the South will court the negro vote.

In order to secure this benefit a man must take man, E H Webster, A H Garland. Horace Greeley out a Policy in the Equitable Life Assurance Society. #### THE ROCK ISLAND FACTORY.

We felt truly sad a lew days ago, on reading in a Charlotte journal, a correspondence between the President of the Rock Island Manufacturing Company of this State, and a gentleman from New Jersey, who, on his way home, extreme radicals who favor confiscation and fur- had purchased cloth from that Company for a suit of clothes. We had supposed that this but few merchants in the South, at least, would consider their stocks perfect without a complete assortment of Rock Island Factory cloths; but the President, in his communication to the New Jersey gentleman, tells a very different tale .-He says it is languishing for want of support, been addressed to the planters of the State urg. and that but few merchants at the South give it patronage. We are at a loss to know the reason of this. We have been acquainted with the cloths from this factory for many years, and always purchased them in preference to any others, when we could get them, because they are more durable and equally as fine as any othject. A committee of the Mecklenburg Agricul- er goods, beneath the grade of Broad cloth, we tural Society petitioned the Legislature on the care not where they are made. We have now a winter coat made from it that we purchased in February, 1865, which has seen some very hard service, but bids fair to make a respectable appearance for years to come, and after we have done with it our "better half" expects to make one of our little scions comfortable winter clothes out of it. But aside from the intrinsic value of the article, in our opinion there is a moral obligation resting on every individual in the South, to sustain our Factories, more particularly now. and when, as in the case of the Rock Island Factory, the goods produced by them are equal in quality and price.

Nothing can be more suicidal, in the present depressed condition of our beloved South, than to neglect our own Manufactories, and run after foreign fabrics, in every way inferior. Will the Southern people never come to their senses and act wisely in this matter? For our part, we feel prouder in a suit of cloth made by our friends and neighbors than we would in the finest broad-cloth made at the tip of the Fashion. But it is not so much the people at large who are to blame as the merchants. They prefer going North for their goods, and many of them have got to thinking that nothing can be profitable unless it comes from the big Nor'ard. We are confident the Rock Island cloths would sell readily if our merchants would put them on the market. For many years we have enjoyed a personal acquaintance with the energetic and truly honourable President of the Company, and unhesitatingly endorse any recommendation he may give his goods. We hope some of our merchants will get stocks of their Summer cloths, for we want a suit of it as soon as it arrives .-Send to John A. Young, President of the

The party supposing to have stole these mules is described as a white man, medium size, ruddy face, dark hair and moustache, aged coat and pants, (the pants much worn at the knees,) black felt hat, and shoes.

SHOCKING DOUBLE MURDER -At Augusta, Arkansas, a few days since, Tilman Gregory, a wealthy planter, got into an altercation at a game of cards with a Dr. Dameron, in the course of which the latter drew a pistol and shot the former in the hip. Mr Gregory being in liquor, as indeed both were, taunted him for not shooting better than that. Dr. Dameron fired again, shooting him this time in the breast. Mr Gregory then drew a pistol, and taking deliberate aim at the Doctor, shot him through the heart. Gregory's shot took effect almost instantaneously in Dameron's heart, and both fell dead together Both were influential citizens, and the tragedy created a profound sensation.

One singular fact, says Young's History of the war, in connection with the death of Mr Lincoln, is, that no coroner's inquest was ever held on his body, no legal evidence taken as to the manner of his death, nor was a single person, accused of connection with it, ever brought into a court of law; nor is there to this day any legal testimony whatever as to the manner of his death, the cause of it, or who killed him.

THE TERRITORY PURCHASED FROM RUSSIA. -The Territory known as Russian-America has been purchased from Russia by the United States for the sum of \$7,200,000. Professor Baird describes the country as follows:

Climate and Temperature. - The coast from Prince of Wales Island to the entrance of Behring's straits during the winter months is about the same as the city of Washington .-Little snow and much rain. During the summer months very foggy.

Timber.-The whole country, well up the northern coast, is heavily timbered, chiefly with hard pine forests and small trees, up to the very shores. Some of the islands are heavily timbered with pine forests and dense underbrush. and some of them are destitute of timber, and covered with grass of a luxuriant growth.

Soil .- On the west coast, produces excellent barley and roots, such as radishes, turnips; and esculents, such as lettuce, cabbages, &c.

Animals---Furred animals, such as sea otter, river otter, sables, furred seal, mink, foxes (black, silver, red, etc.,) in great numbers; red deer in the south and the reindeer in the north. Fish .- Herring, salmon, balibut, and codfish abound in countless numbers. In Behring's sea and to the northward great whales are very

Minerals.-Surface washings of gold have been discovered on the headwaters of the streams on the east side of the coast range of mountains. The geological developments are the same on the western slopes. Native copper has been discovered in various places on the coast and in the vicinity of Copper river. Iron ore of exce!lent quality, and believed to exist in inexhaustless quantities, is now being smelted and worked by Russian artisans in repairing ships, &c. Coal is also found in large quantities, and is being used by the Russians for naval purposes; is similar to New Brunswick coal. Recent discoveries have been made of what is believed to

be a better quality of coal, but not yet tested. Inhabitants - Five or six thousand Russians, fifty or sixty thousand Indians and Esquimaux. The latter inhabit the coast on the Northern sea, are industrious, peaceable, and teachable, and live by hunting and fishing. The Indians inhabit the interior, are peaceable, and live by hunting, fishing and trapping.
