SOCIETY

A LIFE ON THE OCEAN WAVE. "A life on the Ocean Wave?" The man who wrote it was green;

He had never been to sea, And a wave he has never seen. He has never seen a wave As it dashed over the vessel's deck. He rever has seen a fire at sea,

Or beam floating upon a wreck. He never has been aroused From his morning gentle doze, By the sound of the splashing water, As it fell from the horrid hose.

He never has heard a man Scrubbing right over his head, With a noise sufficient to rouse From the grave the slumbering dead.

He never has seen a fat woman Growing thinner day by day, And leaning over the vessel's side, Throwing herself away.

While the people look carelessly on, Though in tears the woman may be, And unfeelingly say it is nothing at all Only the roll of the sea.

And oh! he has never been sea sick, And crept into bed in his coat, While every motion increased his throes, And his feelings in his throat.

That man may have sailed in a boat, In some puddle, or in a sound, But if he has been to sea, and wrote Such a song he deserves to be drowned.

ASSURANCE

# To the Public.

The signal and unexampled success of this Society, the character of the dividend just made, its increasing business and income, and its rapidly accumulating assets, form a legitimate subject of

congratulation from the officers to the insured. A dividend of profits amounting to over HALF A MILLION OF DOLLARS was declared on the first instant, which will be apportioned to and applied on each policy at the anniversary of the payment of the first premium, or, in other words, at the beginning of its second or older policy-year, either by a permanent addition to the sum assured, without increase of premium, or by a cash reduction of premium, or otherwise as the policy-holder may elect under the rules of the Society. Choice of the particular mode of applying such dividend may be in every case made at the time of the settlement of the first premium of the policy-year due after the date of dividend. Agents will be furnished in advance with the necessary figures enabling them to impart all requisite information to policy-holders at the time

when their premiums, on which dividends are applicable, become due.

With an accumulated fund of Three Million Dollars securely invested, the Society now rests upon a foundation solid and enduring. Its cash income is Two Million Dollars, while during the last year

alone, One and-a-Half Million Dollars have been added to its assets. While this success affords great gratification to those charged with the management and conduct of its affairs, it cannot be without interest to the policy-holders, to whom we tender our congratulations

on results so satisfactory, and prospects so auspicious. In a single year the Society has issued new policies assuring more than Thirty Million Dollars, and no efforts will be spared or means left untried during the coming year to add largely to the amount. As this Society is purely mutual, its policy-holders are mutually benefitted by its success, and directly and permanently interested in its advancement and increase; and by inducing their friends and acquaintances to take out policies, they will render certain the increase of business, which we anticipate stock of STAPLE HARDWARE; also, GLASS and

in the future, and at the same time essentially benefit themselves. Just and liberal dealing with our assured-promptness in the payment of losses, and the greater advantages offered to the assured by this Society, have secured to it a success such as has not been Consisting of Superior Black and Green Teas, Cofequalled in the same space of time in this or any other country. Guided in our future progress by the lights and experience of the past-redoubling our efforts and exertions, and devoting our entire energies to the interests, progress, and success of the institution, we cordially and earnestly commend it to the kind consideration and good offices of those who are already WILLIAM C. ALEXANDER, President. enrolled among its patrons.
