It is not a more party triumph we seek. We are using to save our country from the dangers which averhang it .- Gov. Seymour's Address.

The election of a Democratic Executive and a maity of Democratic members to the House of Represtatives, would not give to that party organization the power to make sudden or violent changes; but it would serve to check those extreme measures which have been deplored by the best men of both political rganizations. The result would most certainly lead to that peaceful restoration of the Union and re-establishment of fraternal relationship which the contairy desires .- Gov. Seymour's Letter of Accep-

The Legislature.

The Legislature adjourned on Saturday last t meet again on the 3d Monday in November next. We publish in this issue several of the Acts passed, and will publish others hereafter.

At pressent we can't tell what measures were

State Appropriations and Extravagance.

Although the State Treasurer has had to borrew money to defray the expenses of the State Govconment, and although nearly a million of dollars interest is due holders of State Bonds, (which amount must be raised within the next year,) the Legislature has made extravagant appropriations for Railroads and other purposes, just as if the Treasury was overflowing with money. Besides that, salaries of State officers have been increased enormously, and additional Clerks allowed.

Last week, a bill was passed appropriating two millions of dellars to the Chatham Railroad, in addition to amounts heretofore appropriated to that work. Judge Osborne and others, presented a protest against such extravagant and unconstitutional be the result of the approaching election, the mass donations of public money, but of course it had no of our people want peace to prevail. They have effect in stopping it.

Promoting Peace. For some time past there has been great danger of a conflict in Louisiana in consequence of the extreme and tyrannical measures passed by the Radical Legislature of that State. To avert a conflict required the mutual co-operation of moderate men of both parties. A dispatch from New Orleans, dated August 15th, says :

"An informal meeting was held fast night, in the Governor's office, between prominent members of both parties. Both conceded the situation to be dangerous and imminent. The Democratic members expressed the opinion that the best and only way to insure peace was to stop the system of aggressive legislation now in progress; that the .Democratic-Conservative element in the country expected to accomplish nothing except in a legal and constitutional way; that it was unwise and improper for the State Government to defy the sentiment and wishes of the people; that if the Governor would throw himself upon the people, they would sustain him; and that no extra force would be necessary for the preservation of peace.

Gov. Warmouth stated that he was authorized to say, on behalf of the Republicans, that there was nothing in reason the Republicans can do or concede, but will be done to secure harmony, and promised that measures, not of party politics, obnoxious to the citizens, will be modified ; and said it was his earnest desire to secure the welfare of all and preserve peace and order.

Another meeting will be held in a few days, when it is hoped that some practical illustration of the mutual desire for harmony will be presented. The moderate Republicans, unfortunately but few in number, conceded that the system of legislation, and Blair; adding, that secession is not dead. It is heretofore and at present pursued was calculated to create strife. They say that the preservation of order is what they most earnestly desire, and that it rests entirely with the Republicans."

This is a proper more and must meet the approbation of all true friends of peace.

Why cannot a movement of this sort be inaugura ted in this State? The friends of Seymour and finally passed at the close of the session. In the Blair do not propose or expect to resist law or effect House, a resolution was adopted giving the seat of changes in the State Government by any other means Mr Long, white, of Caswell, to a negro named Carey. | than the peaceful ballot. The platform of the party declares emphatically in favor of a peaceful mode

> The people are uncasy and apprehensive of trouble in consequence of some of the measures adopted by the Legislature. The law to arm only a portion of our people, to be selected by the party in power in the State, is not only dangerous to peace, but will prove expensive to tax-payers.

If the party that controls our State Government will agree to modify their acts, we have no doubt a consultation between gentlemen of both parties could be had which would result in removing all apprehension of a conflict and do much to promote a better feeling of security for persons and property.

For our own part we apprehend no conflict in this section, but others do fear it. No matter what may already shown a greater spirit of forbearance than any other people have ever exhibited, and will continue to do so until pressed to the wall. In Tennessee, Gen. Pillow, Gen. Forrest and other prominent friends of the late Confederacy, joined heartily in suggesting lawful measures to preserve peace, and some good has resulted from their consultation.

Gov. Vance.

The following letter from Gov. Vance corrects a false report in circulation :

CHARLOTTE, N. C., July 30, 1868. To the Editor of the New York Citizen:

SIR-In your issue of the 18th inst., appears the following paragraph:

"Ex-Gov. Vance, of North Carolina, said in his speech-or is reported to have said, and has not contradicted the report-that, "what the Confederacy fought for would be won by the election of Seymou more alive than ever." If there be any truth in this story, we may set down Vance as working for the Radical ticket even harder than Mark M. Pomeroy in his La Crosse Democrat, a paper the immense en ergy and rough talent of which we have no disposition to deny.'

I desire to say that there is not one word of truth in this statement. I made use of no expression in the remotest degree like it. The reports of the speeches delivered on the occasion referred to, were all very meagre but none of them I believe attributed such a remark to me.

Not only did I not utter such sentiments in my New York speech, which I suppose to be the one alluded to, but I have never on any other occasion done so. I never was a secessionist, and only fought during the war at the command of my native State, and to resist a policy of coer- immigrate, and who will be located in that county. cion and consolidation worse and more ruinous

meets my eye. Very respectfully your obedient servant.

Several schemes to get appropriations from the Treasury failed at the late session, but may be revived at the next session. One grand scheme to survey every county in the State by the State Geologist, which would cost probably five hundred thousand dollars, was defeated and postponed till next January.

Caution.

The impression prevails among the people that a considerable amount of these appropriations are going notairly into the pockets of a set of speculators and sharpers, whose influence induces the Legislature to make them; therefore, no one need be surprised if a disposition to favor repudiation is engendered by extravagance and burdensome taxation.

The time may come when the people of this State will not be willing to be taxed to pay \$100 in gold to the man who holds a Bond that cost him only \$50 or \$70 in paper money, or that cost him nothing at all except a little scheming about Raleigh and the Ital's of Legislation.

Gov. Graham.

An enthusiastic democratic meeting was held in Hillsboro on the 15th instant, and was addressed by Hon. Wm. A. Graham. A correspondent, speaking of the speech, says:

"My only object in addressing you, is to call the attention of all old line Henry Clay Whigs, in and out of North Carolina, to the bold and noble utterances, on the occasion, of that tried and true Whig and patriot, William A. Graham. In the course of a speech of great carnestness and ability, he reviewed the state of public affairs, and most emphatically declaved that "a relief from the unconstitutional op-

The subject ber, said election to be held at such time as the of the remarks was, "Moral Training," which was Governor may designate, and in such manner as llustrated particularly for the benefit of the children. When the address was over, a procession, composed of the School and the audience generally, with the choir in advance, singing appropriate hymns, proceeded to the long table erected in the shade of friendly boughs and groaning under an abundance of good things. After the repast the audience returned to the arbor, and the School exhibition took place. The addresses were well selected and very creditably spoken, both by the boys and girls. The performances were interspersed with vo al music. The exercises of the day were concluded with another short address, prayer and the benediction.

This School, composed of Presbyterians and Methodists, who work harmoniously together for the rising generation and the promotion of the common cause of our Divine Saviour, numbers nearly one hundred scholars, and is destined to grow and prosper under the judicious and affectionate supervision of Mr Gatlin and his pions assistants, representing both Churches. The children appeared to be intelligent and happy-the most of them are the pupils of Mr G. in his week-day school-and to appreciate highly the interest which their preceptor manifests in their general welfare.

Such a celebration as this is certainly refreshing to the spirits and grateful to the heart of any lover of pure and profitable enjoyment, who can spare a day from the monotonous routine of home duties. The growing interest which is almost everywhere

exhibited in the Sunday School cause-and it amounts to a revival in many sections-may be regarded as an auspicious omen. It is a sure way to secure the blessing of God upon the land.
