# The Talk about War.

The opponents of Seymour and Blair in this State seem to rely solely on frightening the people with a ery about war to secure a majority for Gen. Grant. Judge Pearson has been led into a serious error, which caused him to degrade the high office he holds, by the unjustifiable accusation against the Democratic party that they intend to bring on another war.

If we thought the election of Seymour would cause another war, we do not hesitate to say that we would not support him; but we know that all the people, North and South, are tired of war and will not engage in another one between themselves. A few imprudent men of both parties may engage in collisions. but the fact is notorious that more than nine-tenths of our whole population want peace and good feeling to prevail, and will exert themselves to promote that

But what does Mr Seymour himself say? Is it not right to judge a man by his own declarations, and not by the sayings of stump orators or letter-writers? Of course every fair-minded man will acknowledge that a candidate must be judged by his own words, family were at Church. We are gratified to learn and not by the words of others.

Here is an extract from Mr Seymour's letter of

"The election of a Democratic Executive and a majority of Democratic members to the House of Representatives, would not give to that party organization the power to make sudden or violent changes; but it would serve to check those extreme measures which have been deplored by the best men of both political organizations. The result would most certainly lead to that peaceful restoration of the Union and re-establishment of fraternal relationship which the country desires."-Gov. Seymour's Letter of Acceptance.

Does he not expressly say that his election would not give to his party the power to make sudden or violent changes, but would only serve to check extreme measures and lead to a peaceful restoration of the Union and re-establishment of fraternal relationship?

Is there any sign or prospect of war in the course Mr Seymour marks out? None at all. The fact is, if he were elected President he would not attempt to interfere with the present State Governments. He would have no authority to do so, and he will never get a decision from the Supreme Court (unless the present Judges die) that would justify his interference with force. The only way the people of North Carolina can reasonably hope to change their Conorder the change. We know that a few men differ | been discharged from custody. with us in this position, but time will show that we are right, and that no other method will be attempted than the peaceful ballot It is well to understand the matter now, so that there may be no disappoint-

It is certain, then, that Mr Seymour will not attempt to enforce "sudden" or "violent" changes, and it is well known that he is one of the most prudent, wise and cautious statesmen in America, and is the very man for Chief Magistrate in these exciting times. But our opponents will say that if Seymour is for peace, Blair is not, and that he will involve us in

war. Well, what does Gen. Blair say in his letter of acceptance? He says: "The appeal to the peaceful ballot to attain this end a change of State Governments forced on us by mil-

itary power] is not war, is not revolution." And in a letter to a gentleman at Atlanta, Ga., dated Aug. 18th, Gen. Blair says:

"I am for that policy which alone can give peace to the country.'

Even if Gen. Blair was disposed to favor anything like war, he would have no power as Vice-President to do anything injurious to the peace of the country. He would only preside in the Senate and give the casting vote in matters where a tie occurred. The Senate will remain Radical for some years to come, and if the next House of Representatives has a democratic majority, no changes can be effected in the Reconstruction measures until the people of each State, by a majority of votes, endorse a change.

So, view the matter in any light you please, it will be seen that there is no danger of war, no matter who is elected.

### The Election.

The election for President and members of Congress will be held on the third day of November, being the first Tuesday in the month. Every man who expects to vote must register before that day. Those who have heretofore registered must register

Gov. Graham and others have published the following statements for public information:

1. In the approaching election no man is disfranchised, who ever was entitled to vote. 2. A new registration will begin on the 15th of October, and every voter, old and new, must register. No man can vote without new registration, although he has registered before.

3. There are 140,000 white voters in North Carolina, and 70,000 colored voters; in round numbers, a majority of two to one.

4. Although the whole of the colored vote should be cast against the Conservatives, (which will not be the case,) and 35,000 white voters added, Seymour and Blair will still carry the State if a full vote be

Their names are Anson Davis and George Barringer, both colored. The evidence is very strong against them. One of them had in his possession some of the property stolen from the house before it was fired.

Anson Davis, the main incendiary, was in the employ of Dr. Pressly for two years, and the Doctor thought a great deal of him and trusted him to a considerable extent. The other man, Geo. Barringer, had been in the Doctor's employ until a month before the burning, when he was discharged for bad
