

North Carolina News.

REGISTRATION IN N. C.—We would again urge on our people that they should give their undivided attention to Registration.

THE SHERIFFS.—We learn that not over forty of the Sheriffs of the State have settled in full with the public Treasurer; others have settled partially.

HORRIBLE MURDER.—A colored girl named Grizzly Peace was killed at Steep Hill, about five miles from this city, on Monday, by her cousin, Adelaide Adams, with whom she had been living.

WINE-MAKING IN N. C.—We recently saw at Lumberton the wine presses and fixtures worked by Mr. J. T. Pettevay of that place.

THE WILMINGTON, CHARLOTTE AND RUTHERFORD RAIL ROAD is now being extended as fast as the iron can be laid.

WE learn Judge Torrance refused to hold court in Caswell, last week, because no negroes were summoned as jurors.

WHAT IT COSTS.—We were in Stokes County last week, and learned that the County Commissioners had been in session, (not regular) some twelve or fifteen days, at a cost of \$18 per day to the county.

CORN SOLD LAST WEEK at 50 cents per bushel, and for even less, at public sales.

NO ELECTION IN TEXAS.—Gen. Reynolds, commanding the department of Texas, has issued an order closing with the words: "No election for electors for President and Vice President of the United States will be held in the State of Texas on the third day of November next."

THE SUGAR TRADE.—There is scarcely anything that is so valuable, to be found in North Carolina, which grows more abundantly and spontaneously, than the sugar cane.

IMPORTANT TO FARMERS.—We have been informed by a gentleman well posted on the subject, that all farmers who will be forced into bankruptcy during the coming fall and winter, can save their growing crops by filing their petitions on or before the 15th of October next.

CALIFORNIA.—A destructive rain, lasting three days, has flooded the entire country.

WOMEN'S RIGHTS.—Mrs. E. Cady Stanton has been visiting New Jersey, and finds in that benighted State a married woman can neither own, sell nor devise property.

TRAFFICKING IN FLESH AND BLOOD.—It has now been definitely ascertained that, in 1866, a party of Puritan carpet-baggers, in Mobile, chartering a vessel for the ostensible purpose of carrying negro emigrants to Texas; that they induced a large number of able-bodied negro men to set sail with them; that, instead of landing them in Texas, the poor negroes were taken to Cuba and sold to the planters of that Island.

WE commend these solid facts to the consideration of those negroes who consider every Southern man a "d-d Rebel," and every negro-selling carpet-bagger a most virtuous and estimable gentleman.

The Catholic Council of 1869.

The European papers have lately been rife with speculations as to the character and purposes of the General Council of the Catholic Church, to be assembled next year in Rome.

It is not unlikely that, in view of the present state of modern society, the expediency of severing all connexion between Church and State will be maturely weighed in the Council.

Another practical question may be raised as to the election, nationality and residence of the Pope in future.

There have been already held eighteen General Councils of the Catholic Church.

The authority of Councils is not determined by the number of Bishops who may be present.

Great Democratic Meeting in New York.

NEW YORK, Oct. 6.—The meeting, last night, was the greatest ever held in this City.

THE SUGAR TRADE.—There is scarcely anything that is so valuable, to be found in North Carolina, which grows more abundantly and spontaneously, than the sugar cane.

IMPORTANT TO FARMERS.—We have been informed by a gentleman well posted on the subject, that all farmers who will be forced into bankruptcy during the coming fall and winter, can save their growing crops by filing their petitions on or before the 15th of October next.

CALIFORNIA.—A destructive rain, lasting three days, has flooded the entire country.

WOMEN'S RIGHTS.—Mrs. E. Cady Stanton has been visiting New Jersey, and finds in that benighted State a married woman can neither own, sell nor devise property.

THE BOLL WORM.—We learn that the boll worm has made its appearance in some sections of this District.

The Earthquake in South America.

The steamer which recently arrived at New York from Aspinwall, brings further particulars of the disastrous earthquake in South America.

Postal Affairs.

The Post Master General has ordered that from and after the first day of January next, the registration fee on all letters registered and addressed to any place within the United States shall be reduced from twenty cents to fifteen cents.

THE present registry system is a great improvement upon the old custom of registering, where registered letters were sent in the bundles of letters without being receipted for.

LAND SALES IN YORK DISTRICT, S. C.—On Monday last, a considerable quantity of land was disposed of at auction by Assignees in bankruptcy.

FODDER.—This has cost money to raise and should be carefully used.

CLIPPING HORSES.—The Turf, Field and Farm, remarking on the practice of clipping the hair from the bodies of horses—in other words, shearing them as in the case of sheep—concedes it has considerable antiquity in its favor.

THE planters of Bullock county, Alabama, have resolved to keep out of market all cotton not necessary to meet their debts now due, and call upon other planters to do the same.

A sugar planter of Louisiana informs the New Orleans Picayune that on many plantations there will be raised fifty bushels of corn to the acre this year besides the other crops.

ADVANCES FROM ARIZONA state that owing to the withdrawal of a portion of the military the Indians are becoming bolder.

TWO FULL MOONS.—We are to have two full moons during the month of October—one on the 1st, the other on the 31st—a good time for lunatics.

THE man who attempted to whistle a bar of soap has injured his voice by trying to sing a stave of a barrel.

Agricultural.

Reform in Farming.

We are in the habit of running over much land, and running it is; we must hurry to get the work done—not to do it well.

Advantages of Pulverizing the Soil.

The effects of pulverization or stirring the soil are numerous:

- 1. It gives free scope to roots of vegetables, and they become more fibrous in a loose than in a hard soil, by which the mouths or pores become more numerous, and such food as is in the soil has a better chance of being sought after and taken up by them.

KEEPING CABBAGES.—Cabbages in the Spring are a great scarcity, yet there is no reason that they should not be as plentiful then as in the Fall.

WITTKOWSKY & RINTELS Have now in store one of the largest Stocks of Goods ever brought to this market.

In the State, which we offer cheap. BREM, BROWN & CO., Oates Building.

The Riots in Louisiana.

NEW ORLEANS, Oct. 7.—Lieut. Lee, of the Freedmen's Bureau, who was sent by Major Hutchinson, in charge of the Bureau here, to investigate the troubles at Opelousas, reported this morning that the immediate cause of the outbreak was a personal difficulty between the editor of the St. Landry Parish Republic newspaper and three citizens, growing out of offensive articles in the Republican paper, the editor of which is named Bently, who was also a school teacher, in which difficulty the latter was killed.

The negro calling himself captain was one of the killed. Eight of the party were captured and lodged in jail, and the balance dispersed.

IMMENSE STOCK

Cotton Crop of the United States

For the Year ending September 1st, 1868. The total crop reaches 2,498,895 bales, while exports have been 1,657,015 bales, and the home consumption 885,017 bales, leaving a stock on hand at the close of the year of 38,139 bales.

The total receipts at the Gulf and Atlantic shipping ports this year has been 2,240,282 bales, against 1,965,775 bales last year.

The highest prices for middling uplands has been as follows: May 1st, in New York 32½c; in Liverpool 12½d. Last year in New York the highest price was 42c; in Liverpool 15½d.

The consumption in the Southern States was 84,650 bales, (560 pounds each) in 1868. In the Northern States during the same period there were 703,950 bales.
