Latest about the Cuban Fuss.

The following dispatches give the latest advices from Washington and Cuba. The indications are not as warlike us they were a few days ago; but the level. difficulty is far from being settled:

meeting was held to-day. It is ascertained that the ultimatum to Spain is the restoration of the Virginius, to salute the flag, release those alive, reparation to the families of those killed and guarantees for the future. Should Spain fail or be unable to enforce these, the President and the West and South are for war. Punishment of the Cuban gressing and the result depends upon dispatches

It was remarked by a Cabinet officer, after adjournment, that the business was in such a condition that a single telegram on either side might sonal ends. change the whole course of the proceeding. Tonight it can be confidently said that the question has assumed a more favorable aspect than it bore this morning, and that there are strong reasons for expecting results entirely satisfactory, and it can he added on the same competent authority that although nothing has yet been reduced to precise terms, the situation is very hopeful.

Since writing the above paragraph we find the following announcement in the Raleigh Sentinel. Put all together and form your own conclusions of what is going on:

ANOTHER INJUNCTION .- Alfred Swazev of New York, has enjoined Tom Scott, Billy Smith and solvent railroads from Beaufort to the mountains. We do not know Alfred Swazey, but we do hope the Legislature will not interfere in a fight over the carcuss of three dead corporations by legislation which will give one set of wolves advantage over

We presume legislators will be careful before they endorse any sort of trades and combinations in Railroad affairs where the State is interested.

N. C. INSANE ASYLUM.-We publish an inter esting synopsis, on our second page, of the Report of the North Carolina Insane Asylum for the year 1873. From public and verbal statements we think the Institution has been well managed and controlled. Dr. Grissom, the Superintendent, is a first-rate manager, and we hope he will be permitted to retain his position as long as he is willing to serve the Justices of our Supreme Court and so lately a the State. ATTEMPT TO BURN.-Early on Friday morning last, fire was discovered in one of the rooms of the Springs building, second floor, adjoining the Printing Room of the Daily Observer and the Editorial Office of the Southern Home. A large hole was burnt in the floor, but the fire was extinguished before spreading much. The printing material of the Southern Home had been removed to another building several days previously, but the books and papers in the Editor's Office were considerably damaged by water.

About a week previous an attempt was made to fire the Observer Job Office in the Bryce building by placing a coal of fire in a table drawer. Both attempts are rather strange and unaccountable. If either the Bryce or Springs building had burnt the conflagration would have spread and destroyed a large amount of valuable property.

We hope some effort will be made to detect the

DESTRUCTION BY FIRES .- The Gin House of Dr. Columbus Mills, in Poplar Tent neighborhood, Cabarrus county, was destroyed by fire on Monday of the concern complained that very little morning, Nov. 24th, about 9 o'clock, and 30 or 35 bales Cotton were consumed. As the Gin was not in operation, the fire is unaccountable. The loss to Dr. Mills is heavy.

On Monday night, 24th November, the Kitchen of Capt. James F. Johnston, in this county, was burnt, with all its contents. This is the second time this year that Capt Johnston has suffered loss by fire on his premises.

The Danger.

The Asheville Expositor very properly and timely says of secret class combinations:

"It is of doubtful policy to combine in secrecy any large body of men, full of prejudice and passion, against another class of men. The array of one side will produce opposition from the other. Besides all this, it tends to foment much discord and bad feeling between different classes of men. all equally entitled to respect. And it is a fact that cannot be disguised, that there is a spirit of communism in a large portion of mankind. South Carolina.

The salary of the Governor of South Caroina is only \$3,500, and yet it is stated that Governor Moses, although a bankrupt, without visible means of support save his salary, lives in splendor, drives fine horses, sports costly diamonds and other expensive extravagances. The way he gets this money is explained by a single statement we get from the Charleston News and Conrier to the effect that in December last the General Assembly appropriated \$325,000 to pay the claims of the Credit Mobilier Printing Company, and it was openly said at the time that Governor Moses refused to approve the joint resolution unless he was paid forty thousand dollars for the job. The "bosses" was left when they had finished paying the various politicians who "helped the claim

through. The same paper informs us that it was rumored in Columbia that an attempt would be made to impeach Gov. Moses, the general charges against him being that he had received bribes from the Republican Printing Company, and that he had "farmed ont" the offices within his official gift. Such reports have been in circulation ever since Gov. Moses was installed. Before that he was only accused of fraudulently issuing pay certificates as Speaker of the House of Representatives:

In the New York Sun of the 5th ult., appears a statement that R. K. Scott, (late Governor of S. C.,) gave Neagle \$30,000 to buy up the members of the Legislature in the last U. S. Scuatorial election, and that Neagle took the money and used it for Patterson. Scott says this assertion is only partially true: "I did not give Neagle \$30,000, but I did place in his hands \$5,000 to be used in my interest, and the d-d ra: cal took my money and secured votes for

The long session of the forty-third Congress will commence to-day (Monday, Dec. 1st). It will be the first Congress assembled under the new and increased apportionment in the House of Representatives, making the number of members two hundred and ninety-two. The administration will hold one hundred and ninety-five seats, giving it a majority of ninety-eight. The opposition will be in a greater minority than in the last Congress, as it then numbered one hundred and eleven members out of two hundred and forty-three, and now there are but ninety-seven Democrats and Liberals in a total of two hundred and ninety-two .- Atlanta Herald.

The proposition alluded to is, to loan to the Southern planters about five hundred millions of dollars, to be distribute I among them as a compensation for their incalculable losses during the war. The proposed loan of the money is based upon the issue of four per cent bonds of the United States, to run for thirty or more years, at the expiration of which time the Government may relinquish the entire in-

In the first article of the treaty of Ghent there was a stipulation on the part of Great Britain in regard to any slaves or other private property carried away by them, and the Emperor of Russia, to whose arbitration the case was submitted, decided that the British should pay the American

owners for slaves carried away during the war. Precedents of such a high character at least deserve the respectful consideration of Congress, and when urged for the welfare of the agriculturist, who is the bone and sinew of the country, by such statesmen as the Hon. R. M. T. Hunter, one of Virginia's noblest sons, we trust they will profit by his aggestion and afford much needed relief to the enterprising and working people of the South.

December 1, 1873. MONEY! MONEY WANTED!! Goods Sold at Panic Prices!

Taking into consideration the existing state of affairs, such as low price of Cotton, scarcity of Money, and a general depression in every branch of business; I have firmly resolved that I will offer my goods at

Panic Prices! There will be no deviation from this rule. It will be strictly observed. The present Stock of my Fall and Winter Goods has been purchased by me in the Eastern Markets, after the commencement of the Present Money Crisis, and in consequence, at low figures. I am therefore enabled to sell my goods at greatly reduced prices. The goods have also been selected

with usual care and attention. The course pursued for strict, fair and honest dealing, during the number of years I have resided in Charlotte, and the patronage and confidence herectofore so liberally extended to me by the people, gives me the assurance now, that this announcement will find its way into every household with the desired effect. My Stock of Goods is complete in every depart-

ment, and those wishing to purchase will be able to suit themselves in Styles, Qualities and Prices at B. KOOPMANN'S, Wholesale and Retail Dealer in MILLINERY GOODS.

Fancy and Staple Dry Goods,

Trade Street, CHARLOTTE, N. C. To Wholesale Dealers and Country Merchants I offer special inducements, and assure them that I will sell Goods cheaper than they can buy in Northern and Eastern markets.

MY MOTTO-Quick Sales and Small Profits; The best Goods for the Least Money.

Orders solicited and promptly filled. B. KOOPMANN. Nov. 10, 1873.
