

contrary to the practice of the Senate.—There were some of the provisions which had his entire approbation, and there were some to which he objected. But he looked upon these minor points of difference, as points in the settlement of which no difficulty would occur, when gentlemen met together in that spirit of mutual compromise which he doubted not, would be brought into their deliberations, without at all yielding the constitutional question as to the right of protection.

(Here there was a tumultuous approbation in the galleries, which induced the Chair to order the galleries to be cleared. On the expression of a hope by Mr. Poindexter and Mr. Holmes, that the order would not at this time be enforced, the Chair subsequently withdrew it; but gave notice that on any repetition of the disorder the officers of the House would act without further direction.) Mr. Forsyth at length withdrew his motion, and the bill was received, and subsequently referred to a select committee, consisting of Messrs. Clay, Calhoun, Grundy, Webster, Clayton, Rives and Dallas. Mr. Webster has since introduced a series of resolutions directly the reverse of Mr. Clay's bill.

The Journal. CHARLOTTE: SATURDAY, MARCH 2, 1833.

We are requested to state, that Monday next, the 4th inst. is the day appointed by law for the election of Commissioners of this town, for the ensuing year.

Stage Accident.—As the Northern Stage was proceeding southward on the 22d ult. a few miles south of Salisbury the horses became frightened, runaway, upset the stage and we are sorry to say that several of the passengers were seriously injured.

Gen. Hamilton, President of the Convention of South-Carolina, has issued a proclamation, calling upon the members of that body to reassemble at Columbia, on the 11th inst. to take into consideration such matters as may then be submitted to them.

Mr. Wilkin's Revenue Collection Bill has had its final passage in the Senate, and was carried—Ayes 22, No 1.

Members Gales & Seaton were, on the 15th ult. elected Printers to the House of Representatives for the next Congress.

Gen. Duff Green was, on the 20th ult. elected Printer to the Senate for the next Congress.

JOHN TYLER was, on the 15th ult. re-elected a Senator to Congress from the State of Virginia, for six years from the 3d of March next.

Gen JOHN E. WOOL, Inspector General of the Army of the United States, has arrived at New York, returning from a tour in the continent of Europe.

Fire in Baltimore.—A fire occurred in Baltimore, between 2 and 3 o'clock, on the morning of 14th ultimo, which terminated in the destruction of Peale's Museum, with a valuable collection of Anatomical preparations belonging to Dr. McKenzie.

The following gentlemen compose the Select Committee of the Senate to whom the bill to modify the act of 14th July, 1832, and other laws imposing duties on imports, has been referred, Messrs. Clay, Calhoun, Grundy, Webster, Clayton, Rives and Dallas.

A destructive fire took place in Charleston, on the 15th inst. The amount of property destroyed was considerable. The Courier says—"The loss of property generally, has taken on a class of persons the least able to bear it." Great praise has been given to Col. Bankhead, the commander of the U. S. Troops, and his soldiers, and a large body of seamen from the Natchez, and other armed vessels in the harbor, for their prompt aid and assistance in extinguishing the fire.—Camden Journal.

We learn at second hand from a Gentleman who was on the spot, that a late unfortunate occurrence at Barnwell was not as has been reported in Charleston, an affray between the political parties. The facts are these. A quarrel arose between four individuals, two of each party—and a fight ensued between them, in which dirks and sword canes were used—and one of the Union Men was badly, but not dangerously wounded in the neck, and the other in the body seriously, and it is feared mortally.—A number of persons being present, the excitement occasioned by the occurrence had nearly produced a general fight between the two political parties, but it was fortunately prevented by the interposition of some gentlemen of influence who were present. We have not heard whether the quarrel originated in politics or not.—Chas. Mercury.

Accident.—One of the horses belonging to the Columbia Stage was drowned and the Stage considerably injured in crossing the Ford of Green River, at Mr. J. M'D. Carson's, on Thursday last. The deepest part of the river had been crossed, but one of the horses proving refractory and unmanageable, forced the other down the stream into the deep water, where the carriage divided and one of the horses drowned.—Rutherfordton Spectator, 23d ult.

NORTH CAROLINA AGAINST KENTUCKY. AGE OF WONDERS!—There was killed, near Pioneer Mills, Cabarrus County, on the 15th of last January, by Mr. ELLIAS SNELL, a Hog, of his own raising, three years old, which weighed nett 541 pounds! Beat this who can.—Western Carolinian.

Fire in Greensborough.—On the 12th inst. a considerable fire occurred in Greensborough, destroying property to the amount of about \$3,500.

A Message was received in the Senate yesterday, from the President of the United States, forwarding the Documents called for by Mr. POINDEXTER'S Resolutions, being copies of all Military and Naval Orders issued to Commanders of troops or armed vessels on the Charleston station, &c. Some of them were read to shew the general character of the whole. They appeared to be in general pacific, defensive, cautionary, and discreet, indicating at the same time some reason for apprehension of violence being attempted on the other side, &c. &c. National Intelligencer, 13th ult.

The votes of Electors for President and Vice-President of the United States, for the next four years, as counted in Congress on the 13th of February, were as follows:

Table with 2 columns: Name and Votes. For President: Andrew Jackson of Tennessee (219), Henry Clay of Kentucky (49), John Floyd of Virginia (41), Wm. Wirt of Maryland (7). For Vice-President: Martin Van Buren of New York (189), John Sergeant of Pennsylvania (49), Wm. Wilkins of Pennsylvania (30), Amos Ellmaker of Pennsylvania (17), Henry Lee of Massachusetts (7).

Pensioners.—By a report from the War Department, it appears that 24,260 persons have applied for pensions under the act of Congress of June 7, 1832. It is supposed that about 1,000 of these applicants will be rejected, and that the sum necessary to pay the remaining 23,260, at an average of 75 dollars 97 cents each, will be \$1,767,082 20 cents per annum. To pay them from the 4th of March 1831, (to which the act has a retrospective operation,) to the 4th of Sept. next, will require \$4,417,655 50.

Table with 2 columns: State and Number of Applicants. Maine (1336), New Hampshire (1288), Massachusetts (2451), Connecticut (1822), Rhode Island (474), Vermont (1608), New York (5619), New Jersey (862), Pennsylvania (854), Delaware (7), Maryland (57), Virginia (1273), North Carolina (1003), South Carolina (312).

The Winyaw Intelligencer finds but small comfort in the mediation of Virginia, and expresses its disappointment at the course pursued by that State in the language of reproach. "We are free to confess, says the Intelligencer, that individually we consider Virginia has not performed the part that we expected from her—she seems to have shrunk from the magnitude of the task, and South Carolina must look to the virtue and bravery of her own sons to sustain her in the present crisis."—Charleston Courier.

Caricatures.—"The Union Pic."—We have noticed lately in the shops a caricature under the above title, on the subject of Nullification. The idea supposes John Bull at the bottom of a plan to divide the Union; and represents the 24 States built up in form of a chicken pic. It possesses much originality and is the commencement of a series to illustrate Nullification. [N. Y. Cour. & Eng.]

Expedition.—We learn from unquestionable authority, that the Government Express, going South, which passed through Petersburg on Jan. 18th, ran over the Line owned by Col. Avery, the mail contractor from this place to Lawrenceville, in three hours, a distance of 49 miles, and over one of the worst roads at this season of the year in the country; and on its return it came from Lawrenceville to this town in 2 hours and 40 minutes; and from this town to Richmond in 1 hour and 10 minutes; thus performing a distance of 71 miles in three hours and fifty minutes. Probably this expedition, considering the state of the roads, has never been surpassed in any country. Petersburg Intel.

Sudden and singular death.—On Sunday evening last, a man residing in Lawrenceville, two miles from Pittsburg, died suddenly whilst in the act of eating his supper. He was perfectly well when he sat down at the table, but in a few moments after fell back in his chair and expired. American Manufacturer, 9th ult.

Improved species of Cotton.—Mr. Burrell Lyles, in Newberry District, South-Carolina, lately brought to market three bales of Cotton, the staple of which is allowed to be superior to any heretofore seen in that Country, and for which 11 cents has been refused. It appears, that four years ago, Mr. Lyles observing in his crop a single stalk remarkable for its height and the number of its pods which came to maturity earlier than the rest, saved the seed, and from year to year planted it in a separate

patch, and this year he was enabled to plant 14 acres.—He calculates the produce at a bale of 325 lbs. to the acre. Mr. L. proposes to distribute the seed in different parts of the State, and if it succeeds agreeably to expectation, it will be of more value than a discovery of Gold Mines! We hope some of the seed of this improved Cotton Plant will find its way into our State.—Raleigh Register.

Take Wine and—Bark.—A few weeks ago, a young, thin, tall, pale, meagre-looking dandy from the South, took lodgings at the Tremont, wearing large whiskers and mustaches, which gave him a peculiarly ludicrous appearance. His deportment was very civil, and he soon gave indications that he enjoyed but very indifferent health. He observed to some fellow boarders of the house that he had long been afflicted with that vile, tormenting disease, the Dyspepsia, and inquired what skillful physician of the city he should consult.—He was recommended to avail himself of the advice of Doctor W.—; accordingly he called on Dr. W.—one forenoon—gave a minutest detail of his symptoms, and wound up by saying—

"Now, Doctor, I look to you for help—can you give me any medicine that will cure me?" The Doctor could hardly suppress his risibility as he banded him a prescription in the following words;—"Take wine and bark." Our dyspeptic gentleman left him, much pleased with his visit, and congratulated himself upon a speedy termination of his sufferings, which were more than half imaginary. As he returned back again to Tremont, that harmonious instrument called a gong saluted his ear and announced that dinner was ready. He forthwith seated himself at the table and speedily devoured every thing that came in his way. Next came on the wine, and down went four glasses of the real "white top"—the invalid intending to follow up the prescription to the very letter, then set up a most hideous bow-wow-ow, bow-wow-ow.—Every person at the table was seized with astonishment and terror—knives and forks dropped upon their plates, and for a moment it was supposed that some half a dozen dogs had made their way into the hall.—The Southerner took another glass of wine, again vociferated "bow-wow-ow, bow-wow-ow" like a real blood hound, when he was seized by the best and an explanation demanded. The poor fellow, as much astonished at being thus accosted, as the company was at his strange yelping, exclaimed—"Bless me, I must not be interrupted—here is the prescription given me by the Doctor,"—which being read to the company "Take wine and bark," excited an instantaneous roar of laughter, to the mortification of the poor fellow, who left the room in a twinkling and was not seen again for three days. State Herald.

Remarkable Instance of Presence of mind.—In the awful and destructive hurricane which occurred in the vicinity of Liverpool, in October last, and which caused the loss of the ship Grecian, of Boston, the English ship William Neilson struck on the banks, went to pieces, and every person on board, twenty-six in number, perished! The letter bag was picked up upon the shore the following day, and on opening it, it was found to contain a quantity of chaff which the Captain, with a presence of mind, in the hour of death, seldom paralleled, knowing the importance of the letters which it contained, was supposed to have placed there for the purpose of rendering it buoyant!

The Great Canal of Goetha.—This magnificent water line, which passes through the heart of Sweden, and unites the North Sea and the Baltic, was opened with great solemnities on the 26th Sept. last. It will admit vessels drawing nine feet and a half water, and two-and-twenty feet in width, and they make the passage into the Baltic in eight days, with the aid of steam boats across the lakes, which occur on its line. It has been two-and-twenty years in construction, and costs rather more than \$10,480,000, of which 6,378,334 doles. were contributed by the State.

Reverse of Fortune.—The Sunderland, Eng. Herald says:—"Would any of the gay gentry of these parts deem themselves honored and above their fellows, had they "tripped the light fantastic toe" with royalty? There is at this very moment, while I write, a female casting coal into my cellar, (the wife of a naval officer deceased) who once danced with King George the Fourth.

A hard case.—Amongst the petitions presented to the New York legislature last week, was one "of Dan Mauer of New York, for leave to change the g in his name, to j." We hope the request of poor "Dan" will be granted, and while they are about it, the legislature might as well give him leave to tack tel to the end of his Dan.

"DAVID CROCKETT" has issued his "Proclamashun," stating that if the tariff be not reduced before the fourth of March next, he will go down East and "drink upp thur rivurs, ete up thur steam-boates, passingers, fyre, would and awl, which will be distressing; and weal blow upp thur towns, rattel thur tin shops, tern over thur facturris, stomp down thur rale-rodde, and shak thur Yunion from thur centre toe thur surcumference."

Annapolis, Feb. 12.—The resolutions so ably discussed in the House of Delegates upon the present state of the Union, after undergoing strict scrutiny, were finally so framed as, upon the final question, to receive the support of every member in the House except one, (Mr. Jones) whose substitute in favor of Nullification was rejected with the same decisive vote. So SAYS MARYLAND, on this subject.—Republican.

FOR THE JOURNAL. MARCH OF INTELLECT.

Not long since, a foppish looking gentleman, professing to be a Dentist, passed by the residence of a highly respectable family, not one hundred miles from this place, in all the formidable array and gaudy trappings of a New-York dandy. The whip cracked and the wheels rattled with posthaste rapidity, until young Dash (for so we shall designate our hero) came in front of a blacksmith shop which stood but a short distance behind the house. This same shop had, as usual, an inmate stout and sturdy, a little colored on the cheeks with charcoal powder, and possessing withal, a greater share of shrewdness and penetration than commonly falls to the lot of these useful sons of the anvil.—Here our man with the tongs was busily engaged in inflicting divers wounds and contusions on a piece of iron already highly inflamed. Young Dash soon drove up, slacked his reins and brought Selim to a dead halt. Our laborer was next called out and interrogated respecting the condition of his teeth; were any in a decayed state; did he wish to have any plugged, or extracted, or filed, &c., if he did he was the man that could accommodate him, and give him a better mouth than he ever had. Sledge-hammer, not a little startled at such rhapsody, surveyed him with a suspicious glance from head to foot, and informed him he had one or two old snags he would like to have out of the way; but before submitting to an operation he must grant him the privilege of asking a few questions. Certainly, Mr. Sledgehammer, with all imaginable pleasure. How long were you engaged, Mr. Dash, in the study of Dentistry. Three days, sir; but I have known some stupid fellows whom it took three weeks or longer, to acquire the requisite knowledge. Do you think you are duly qualified, Mr. Dash, to perform the various and responsible operations of that profession after such a limited study? Unquestionably, sir; to a man of genius nothing is impossible. Can you make teeth, Mr. Dash, and what materials do you use? I can make the most beautiful ivory teeth out of porcelain earth, or if this cannot be readily procured, a good, clean, marrow bone will answer the purpose. Are you skilled in setting or inserting teeth? As to inserting teeth, Mr. Sledgehammer, I have been rarely excelled in North America, Nova Scotia, the island of Mexico, or Terra del Fuego. What method have you found the most practicable and safe, Mr. Dash? That of inversion, sir; whereby a tooth is turned up side down and the roots clipped off, which forms a very good masticating surface, as soon as it becomes firmly imbedded in the gum. What materials do you use, Mr. Dash, in plugging? Some Dentists use gold; others, tin; but in times of scarcity, I have found a good substitute in pewter. Did you ever pull a horse's tooth, Mr. Dash? I never did, sir. Well, I have taken out three or four, and so I think I must turn Dentist too, for I have done more than you. Young Dash, by this time, becoming fully satisfied with the quizzing powers of his interrogator, concluded it would be best to be "off," and leave this son of Vulcan to pursue his labors. S.

MARRIED, In this county, on the 21st ult. by the Rev. S. L. Watson, Mr. Williamson A. Wilson to Miss Mary Sumner.

DIED, In this county, on Wednesday morning last, of consumption, Mrs. Margaret Parks, wife of Mr. Levi Parks.

DENTAL SURGERY

DR. WAKEFIELD INFORMS THE LADIES AND GENTLEMEN of Charlotte his intention to be at Dr. Boyd's Hotel, on the 4th of March, where he will be happy to wait on those who may desire his professional services. He humbly trusts that his experience in the profession will entitle him to as liberal a patronage in this place as hitherto extended to his exertions in others. NATURAL or ARTIFICIAL TEETH inserted singly, or in sets, on gold plates, so closely resembling nature as to escape detection and perfectly competent to the purposes of mastication. Every other operation on the teeth performed with scientific skill and the least possible pain. Dr. W. has letters from gentlemen of the Medical Faculty, on the subject of his professional capacity, which are open to the inspection of the public. Charlotte, Feb. 23, 1833.

THE AMERICAN FIRE KING.

MR. PROSSER very respectfully informs the Ladies and gentlemen of Charlotte, that on Friday and Saturday nights, the 1st and 2d inst. at the Masonic Hall, he will exhibit his power of withstanding very high degrees of heat. After partaking a comfortable supper consisting of MELTED LEAD, BLAZING SEALING WAX, LIVE COALS, &c. he will regale himself by swallowing

FLORENCE OIL,

heated to upwards of 600 degrees (400 degrees above the boiling heat of pure water.) He will conclude by entering

AN OVEN Heated upwards of 500 degrees,

and remain sufficient time to cook a beef steak, eggs, &c. Having performed in the principal cities in the United States, he begs leave to say his explanations are such that each individual attending will be convinced the experiments will be performed without injury or mystery.

Single Tickets 50 cents—or Tickets \$1 admitting a gentleman and any number of ladies. Performance to commence at half past 7 o'clock. March 1, 1833. 1w

NOTICE, THIS is to notify the public, that the firm of Cohen & Co. or Cohen & Wyatt is dissolved, and that I will not be responsible for any debts that may be contracted in the name of the above firm, after this date. Any contract made, or debt incurred by Mrs. Cohen I will not be accountable for, unless I am consulted personally. BENJ. COHEN. Feb. 1, 1833. 3c29

JOB PRINTING

Of all kinds, neatly executed at this Office.

WEEKLY ALMANAC.

Table with columns: MARCH 1833, Sun rises, Sun sets, MOON'S PHASES. For March, 1833. 2 Saturday, 6 21 5 39; 3 Sunday, 6 20 5 40; 4 Monday, 6 18 5 42; 5 Tuesday, 6 17 5 43; 6 Wednesday, 6 16 5 44; 7 Thursday, 6 15 5 45; 8 Friday, 6 13 5 47. Moon phases: Full 5 11 46 aft'n; Last 13 0 46 aft'n; New 21 5 57 morn.; First 28 5 38 aft'n.
