

**The Journal.**

CHARLOTTE:

SATURDAY, SEPTEMBER 7, 1833.

ELECTION RETURNS.

Randolph.—Henry B. Elliott, S. Abraham Brower and Alexander Cunningham, C.

**Mammoth Squash.**—A gentleman in this vicinity raised this season on the plantation where he lives, a Squash which measured 4 feet 9 inches in circumference, and weighs 68 pounds.

We have received the first No. of "The Harbinger," a periodical published at Chapel Hill, by Mr. Isaac C. Patridge, under the supervision of the Professors of the University of North-Carolina. It is neatly printed and well stored with interesting matter. Persons wishing to subscribe can see the paper by calling at this office. Its terms are three dollars per annum, payable yearly in advance, or four dollars if payment is delayed six months after the commencement of each subscription year. The following notice of the paper we copy from the Fayetteville Observer.

We had the appearance of this paper, as one which promises to improve the literary taste of our citizens, and keep awake the spirit of laudable enterprise; and prove a constant incentive, to whatever is fitted to elevate personal character and enhance the best interests of the community. There are few men to whom, in many points of view, the State of North-Carolina is so much indebted, as to the venerable man who presides over our University, the Rev. Dr. Caldwell; and if we mistake not, he is now laying us under new and increased obligations, by his rich contributions to the columns of "The Harbinger." His eminent abilities, and the readiness and cheerfulness with which he habitually devotes them to the promotion of the best interests of the State, are too well known to need any eulogy of ours. We hope this paper will be extensively patronized; for when we consider the talents that are pledged for filling its columns, we hazard nothing in saying, that, for whatever is calculated to instruct, to edify, and to improve, it need not shrink from a comparison with any other paper in the United States.

**COTTON.**—The Camden Beacon of the 3d inst. states that private letters were received in that place from Liverpool, last week, stating that Uplands were worth 12d per lb. which is about 24 cents.

The following is a statement of the votes, as far as we have received, on the Amendment of the State Constitution.

	Amendment	No Amendment
Mecklenburg	1656	37
Rutherford	2059	00
Macon	725	00
Haywood	753	00
Lincoln	2146	00
Wilkes	1112	41
Anson	1370	3
Cabarrus	409	96
Stokes	1238	13
Surry	1471	09
Guilford	1173	107
Montgomery	1056	26
Richmond	507	27
Wake	81	181
Moore	739	62
Cumberland	1018	27
New-Hanover	192	22

**Change of the Constitution.**—We are glad to find that the citizens of Jones county have resolved, at a meeting held at the Court House in Trenton, "that our State Constitution should be altered or amended." This is an instance of the triumph of right over power, worthy of all commendation—Jones county being one of those small counties which will lose much of their relative weight in the government by the proposed change.—Fayetteville Observer.

**New Cotton.**—A bale of new Cotton, (the first that has been brought to market)—from the plantation of Lewis Cipes, Esq. was sold in this place on Tuesday last at 21 cents. This is the highest price that has been given this season. "Hurrah for" Camden.—Camden Journal, 31st ult.

**First of the new Crop of Cotton received in this City.**—Three bales of new Cotton were received yesterday afternoon—one was from the plantation of JOHN HOFFMAN, Esq. of Orangeburg, which was purchased by DAVID CLAYTON, at 18 cents per lb.—one of the others was from the plantation of Dr. JOHN S. BELLINGER, of Barnwell District, but we did not learn where the third was raised. The quality is very good. Samples may be seen at this office. Charleston Courier, 28th ult.

A lot of four bales New Upland Cotton of fine quality, sold on Thursday at 18 cents, the first parcel that has yet been sold for shipment.—ib. 31st ult.

**Earthquake.**—About sunrise, on Tuesday last, a slight shock of an earthquake was felt in this place.—Raleigh Star, 27th ult.

Yesterday, (Tuesday) about 6h. 27m. A. M., the shock of an Earthquake was sensibly felt in this place—the motion was quick and tremulous, but of very short duration. Halifax N. C. Advocate.

Baltimore, August 27. We are informed by a very respectable citizen, that a very sensible shock of an Earthquake was felt this morning about a quarter past six o'clock.

An affair of honor took place near this town, on Friday evening last, between J. Hemphill, Esq. Editor of the Sumter Gazette, and Capt. M. M. Levy of this town. We are happy to say it terminated without any serious injury to either of the parties. Mr. Hemphill was slightly wounded in the pistol hand. Mr. H's pistol was not fired, the jar of his antagonist's ball having let down the hammer. Much credit, it is said, is due to both gentlemen for firmness. Camden Beacon.

William Gaston, of North Carolina, and Thomas S. Grimke, of South Carolina, are two of the noblest and purest spirits of the South—able men—eminent statesmen, tried patriots. Why are they not nominated for some of the honors of their country?—and why cannot their nomination be sustained by the whole southern press.—Alex. Gaz.

**A simple fact.**—The amount of specie in the vaults of the U. S. Bank, on the 1st ultimo, was \$10,008,816 06—the amount in the vaults of all the State Banks in the Union, is estimated at \$10,953,650. Poulson's Daily Ad.

**Consumption.**—This distressing complaint, which carries off so many of our valuable young men annually, is stated, in a well attested case, in a late number of the New-England Farmer, has been cured by a very simple remedy, viz. the inhaling of the gaseous perfume of the Chloride of Lime.

The person whose case is here referred to, is 25 years old, had been much reduced by the disease, his lungs being badly ulcerated, and he daily became worse, so that his physicians gave him up for lost. It is supposed that he coughed up two quarts of matter from his lungs in the 24 hours.

Having seen an account of the experiments in Pulmonary complaints, made by Dr. Cottereau, of Paris, with Chloride of Lime, the friends of this young man had recourse to this simple remedy, from which the patient found immediate relief, and is now daily regaining health and strength.

The Chloride is dissolved in soft water, and then a little vinegar put to it, and applied to the nose by a rag, or in any other convenient way.—Nat. Intelligencer.

**Destructive effects of Lightning.**—A thunder storm, more than usually destructive in its effects, passed over Newport, R. I. on Sunday fortnight. The lightning struck in various parts of the town, doing great damage. The Mercury gives these particulars—A house in Broad street, occupied by Mr. Robert Franklin, jr., was struck with lightning, and his wife, and a child, the daughter of Mr. John Almy, were instantly killed. Mrs. Franklin was sitting at the time near the fire place, with the child in her lap, and a dog by her side, when the lightning descended the chimney, and they were all found dead in that position. The house of Mrs. P. Mumford, on the hill, was also struck and much injured, the lightning having struck both chimneys, and forced its way down the side of the chamber and lower rooms, from whence it passed out of the window. Three horses on the Point were also struck, but were not much injured. In Middletown, the lightning also struck in two places. On the farm of the late John Chase a stack of grain was struck, and entirely consumed; and on the farm of Mr. Pardon Brown a stack of hay was consumed.

**THE CHOLERA.**—A Physician, who attended Cholera patients in the Ohio Penitentiary, states a remarkable fact: not a single case occurred either among the attendants upon the hospital, the guards, or the family of the keeper. In describing the disease, he remarks, very strongly but expressively, that "a man in a perfect state of collapse from Cholera, is a living corpse, and will as certainly have to be speedily buried, as he will certainly die."

Is the Fourth Auditor specially paid for serving as the President's Agent in relation to the depositories? Has he not enough of business, as Auditor, to occupy all his time? If so, ought not the job to have been given to some person whose time and faculties were not already due to the nation, that pays the salary. Could no disengaged individual be had, suitable for the ingenious errand?—Nat. Gaz.

**Perpetual Motion.**—We see it stated that "the grand desideratum of Perpetual Motion has again been discovered. A French watch-maker, of Montevideo is this time, said to be the "fortunate holder" discovered "again." What a pity that it will not stay discovered.—Balt Pat.

An Elephant, perhaps the largest ever seen in this country, arrived here on Friday, in the Brig Treaty. He is said to be 35 feet 3 inches long, from the end of his snout to the end of his tail—and 8 feet 9 inches high. The price asked for him, we understand, is \$6000.—Pennsylvania.

**KENTUCKY.**—The Lexington Intelligencer of August 16th says—"Were we ever disposed to exult over political opponents, when success crowns our efforts, we certainly should have good cause, in the result of the Congressional Elections which have just terminated in Kentucky. They exhibit a triumph of National Republican principles, cheering to every well wisher of our country, and of its institutions." Further, says the same paper—"At the last Congressional Election we succeeded in electing four out of twelve members to Congress: the present Election has resulted in the choice of TEN National Republicans out of the thirteen to which Kentucky is entitled." From the same paper we copy the following:

The defeat of Mr. CRITTENDEN, in the Louisville district, is as much regretted as it was unexpected; but this loss is amply made up by the success of our candidates in every other district but two in the State, and in two or three where the contest was considered unpromising, and doubtful.

From the 1st Congressional District, we have reports that Mr. BOYD has succeeded over Mr. LYON, (both Jackson men.) We have seen no returns from any part of the district.

Report says, that Mr. HAWES is elected to Congress by a majority of 160 votes over Mr. THOMPSON. It is also reported, that these gentlemen were about to settle a personal difference by a resort to the pistol. Mr. HAWES renounced Jacksonism in his Circular, after the adjournment of the last Congress.—Nat. Intelligencer.

**IMPORTANT RAIL-ROAD IMPROVEMENT.**—We learn that Mr. YOUNG, a skilful mechanic of Norfolk, has invented a simple and cheap machine to protect passengers and property from the sparks emitted from Rail-road Locomotives.

The New Orleans papers announce the Yellow Fever as having broken out in that city. Its ravages, as yet, are confined to strangers and unacclimated residents.

Among the presentations to the King of Great Britain, at his levee on the 10th of July, was that of JOSEPH M. WHITE, Delegate from Florida in Congress, by the Chargé des Affairs of the U. States, Mr. VAIL.

**Bear! Bear!**—A very large Bear was brought to market this morning which was killed yesterday, 10 or 12 miles from this place. We understand that this is the 6th which has been killed in that neighborhood this summer.—N. Carolina Journal.

**Cutting Patterns.**—"Please sir," said a snubnosed girl fourteen years of age, to a country dealer in dry goods, "to send ma'am the patterns of your calicoes, and put 'em cheap, for she is going to get a new gown soon and wants to see as what I wash."

**Shop-keeper.**—"Who is your ma'am?" **Girl.**—"My ma'am is Aunt Oily Deo, sir." **Shop-keeper.**—"Your sister was here yesterday and took patterns of all the kinds I have." **Girl.**—"Yes sir, I know that—but then she sewed them all up for patchwork, and wouldn't give me any, but told me to go a shopping myself."

**OBITUARY.** Died, at his residence in this county, on the morning of the 2d inst. Isaac Alexander, sen. aged 77 years.

He was one of the few remaining worthies who bore a part in the War of the Revolution, and yielded a prompt and decided influence in favour of the liberties of his country.

In 1770, he was elected Clerk of Mecklenburg County Court, which Office he held for 43 years and six months; discharging the duties of it in an able and upright manner.

He was for many years a Ruling Elder of the Church of Sugar Creek and proved by a cheerful, uniform and unassuming performance of its duties his deep interest in religion and his zeal for its prosperity.

Having thus long and faithfully served his Country and the Church, he descended to the grave with thankfulness and peace, and looking forward with joy and confidence to that rest which remaineth for the people of God.

**DIED.** In this county, on the 23d ult. Mrs. Ellen Cook, wife of Mr. William Cook, in the 40th year of her age, leaving a husband and eight children, with a large circle of friends to lament their loss.

**NOTICE.** THE subscriber now offers for sale the PLANTATION on which he now resides, containing 120 acres, lying between Mallard Creek and Rocky River, joining the lands of Henry Corum and the Widow Hope. There is a good Dwelling House on the premises and about forty acres of cleared land. For terms inquire of the subscriber. NATHAN O. BOALS. Mecklenburg co. Aug. 31st, 1833. 2w

**AN APPRENTICE** to the Printing Business will be taken at this Office. None need apply but such as can come well recommended for industry and good morals.

**JOB PRINTING** Of all kinds, neatly executed at this Office.

**WEEKLY ALMANAC.**

SEPTEMBER 1833.	Sun	Sun	MOON'S PHASES.
