THE COOPERVILLE IRON WORKS, located at (herokee Ford, Broad River, in Union and York Districts, South Carol na, are offered for sale, This is one of the most extensive Iran producing E-tablishments to the Southern States, and in fire don liberal and accommodating terms. and Machinery are very complete, and include all the facilities for producing iron of various kindsan invention said to realize "perpetual mo- by mesos of a large dam screes the river. Among tion" was to come by the next steamer to Washington. A locomotive, one-fifth the size of rail road engines, has, says the inventor, been working continually since Hotel, Dwelling House, Cottages, &c., &c. The

Attached to the property there are various Tracts of Land, located in Sportan-burg, Union and York Districts—in all newards of 10,000 acres. There is an a-noncast supply of ex. Chapt Ore, both red and gray: so, a large quantity of Limestone. There is some Fuel on the Lands, and contracts can be made with the neighboring farmers for supplies of wood and The iron made at these works is of superior qua-

lity. It is very tough and mulicable, and is said to be well adapted for RAIL ROAD LOCOMOTIVE TiftES, and will answer well for making fine STEEL.

Connected with the Works, there is a prime gang of 65 NEGROES, forty of whom are able bodied Mechanics and Laborers. The Dam at the Works, across Broad River, has lately been put in good order. The supply of wa-

ter is good, and with a tight dam, never known to il in times of greatest drought.

The Flour Mill is a large Building in excellent order, and could easily be turned into a Cotton or

Woolen Factory.
In the Machine Shop there is a large number of valuable Patterns, and all sorts of Machinery can be made at the Works. The whole property offers to capitalists a most

destrable opporturity for advantageous investment. In the hands of a skilful and experienced manager the place could not fail to be profitable.
