ON SUCH SUBJECTS THE TESTIMONY OF
WOMAN SHOULD BE CONCLUSIVE.

NEW YORK, August 2, 1852.

☞ Mrs. Clute, of No. 272 Second street, believing her child, about three years old, to be troubled with worms, purchased one bottle of DR. M'LANE'S CELEBRATED VERMIFUGE prepared by Fleming Bros., Pittsburgh, Pa., and gave it two teaspoonsful, which had the effect of causing the child to discharge a large number of worms. The child is now enjoying good health. We would advise all parents who may suspect their children to be troubled with worms to lose no time, but immediately purchase and administer Dr. M'Lane's Celebrated Vermifuge. It will cure. *The money will be refunded in all cases where it does not give satisfaction.*

☞ Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED VERMIFUGE, manufactured by FLEMING BROS., of PITTSBURGH, Pa. All other Vermifuges in comparison are worthless. Dr. M'Lane's genuine Vermifuge, also his celebrated Liver Pills, can now be had at all respectable drug stores. *None genuine without the signature of*

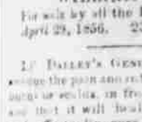
☞ Educational.



MR. U. F. HEWITT, a Graduate of the Government Training Institution, (England) begs to announce to the citizens of Charlotte, and its vicinity, that he intends to establish himself amongst them to give instruction to youth in the various branches of learning generally taught in the High Schools of this country.

His first great object will be to impart to those placed under his care and tuition a thorough knowledge of an English education; and then to carry them forward to the Classics and Mathematics.

Mr. H. F. H. trusts by a careful culture of the minds of his pupils, together with a strict attention to their morals and habits, that he will secure for himself both a liberal support and the respect and esteem of his patrons.

The Rev. B. P. Bowers will also devote as much of his time and attention to the superintendence and general conduct of the School as the duties of his ministerial office will allow.

It is expressly to be understood, however, that no more of religious instruction will be accepted pertaining either to one branch of the Church or another.

The subjects taught will embrace the following branches on the following terms:

The Primary Class, including the rudiments of English Studies, $10 per session.

The Secondary Department, including the more advanced English Studies, $15 per session.

Latin, Greek and the Higher Mathematics, $25 per session.

COTTON SAW GINS.

Straight RIBS vs. Crooked.

Uniformity of Roll, &c.

ALTHOUGH the advantage of the straight rib in the COTTON GIN has been discovered for more than twenty years yet it has not been sufficiently known or appreciated by the planter. The advantage consists simply in that: that the ribs worn worn, can be moved down to where they are not worn; which answers the purpose of a new set of ribs. Three moves can be made, which gives four wearings, which is equal to four sets of ribs. So that a purchaser having in view prospective expense, would lose the price of three sets of ribs if the ribs of his gin were not moveable. Any planter with common intelligence can move the straight ribs himself, and thus obtain all the benefit of a new set of ribs.

The greatest uniformity can be obtained in the roll by giving the ribs the proper angle, the effect of which is, to throw the weight of the roll more upon the saws than upon the seed board, and by adjusting the seed board so as to prevent the seed, when once detached, from re-uniting with the roll; this improvement has been made by the subscriber within a few months.

With regard to fast picking gins, the greatest amount of lint is obtained in two ways. First, by having long teeth lying as nearly parallel to the rings of the saw as possible, so that the teeth entering the ribs as much point foremost they are obliged to carry all the cotton through that they get hold of. A fifty saw gin with these sort of teeth on a nine inch saw has ginned eight bales per day. The second plan is, to form the breast so that the teeth meets the ribs nearly at right angles, and thus packs the cotton into the teeth of the saws. This plan is very straining on the saws, and causes a much heavier draught. Whether the cotton is injured by an overwrought speed, the planters must judge for themselves. The subscriber will furnish to the planters of this and adjoining Districts, Cotton Gins equal in durable value to any in the country. Delivered at Chester, York, or Charlotte, or any landing on the road for $2 per saw. The brushes of my gins are covered with lint which adds much to their strength and durability.

All orders promptly attended to

☞ Notice.

IN CONSEQUENCE of having lost by the fire which occurred in this place, on the morning of the 27th of May last, various Notes and claims against numerous persons in this and adjoining counties—which notes and claims, being the property of A. C. Steele, A. Bethune & Co., and others, which were placed in my hands for collection: All persons, therefore, against whom any of such claims are still standing unsettled, are hereby duly notified, that unless they appear immediately and close up the same, by note or cash, I shall be compelled to file, forthwith, Bills in Equity, thereby subjecting such persons to additional and unnecessary costs.
