Steadman's Salem Magazine.

IS TO BE the 15th of a Literary Periodical, to be published Monthly, in the town of Salem, North Carolina, by ANDREW J. STEADMAN, a member of the North Carolina bar.

In offering to the public my Magazine, I claim for the Editorial Chair no superiority over that department of other like Periodicals; but I do claim for the talent of North Carolina, and the South generally, that will be brought to its support, Southern patronage. And I also, as a Southern man, and the Editor of a Southern Magazine, claim at the hands of the Southern country and especially of North Carolina, that she and support that with here, at home, established, upon a firm basis, a fountain of Literature, and exclusively a Home Literary Magazine.

Many are the Magazines now published in the Northern States to the Care feeding the whole Southern country. There is not, (it is probable,) a county in any Southern State that is not visited by "Harper," "Graham," "Peterson," or "Godey," while here, in North Carolina and the South, where genius unsurpassed and unequalled reigns, the literary talent that is brought into exercise is dedicated to the support of Northern Magazines, while Southern enterprise, taste and talent bow in humble submission to such suicidal policy as Southern contributors.

Why I ask, cannot we—North Carolina, the South—send greetings to our Southern clime a Magazine, acceptable for the many qualities that adorn the pages of the most chaste, elegant and polite Periodicals? It is true that the South has her Magazines; but few in number are they, and unknown, compared to the publications of the North, which every mail brings to our homes, filled with the result of hired labor, and teeming with unpermissible realities.

Then I appeal to North Carolina and other Southern States to aid me in my enterprise, and in promoting a literary taste amongst those upon whom as a Southern man, I have claims.

My Magazine will be of the usual size; and nothing will be admitted to its pages but such articles as will meet the approval of the most fastidious. It shall be illustrated with Engravings and Plates, of the most elegant texture, equaling in beauty and style any executed at the North.

My price of subscription is THREE DOLLARS per year, which is required to be paid in advance, as the expense to be incurred in establishing such a publication will not admit of a credit system.

☞ *The first number will be issued 1st January 1858.*

"ELECTRIC OIL."—The operation of this Oil in removing rheumatic pains and other ills, is indeed astonishing. Like every good article it has a base counterfeit, entirely useless; but the preparation of Prof. De Grath, of Philadelphia, has received testimonial from Congressmen, Mayors of Cities, Merchants, Hotel Proprietors, all of the highest character, attesting its beneficial effects in cases under their own observation. It can be had of the agents here, see advertisement in another column.

Notice.

ALL persons indebted to the estate of John S. Neely, dec'd, are *a second time notified* that the estate must be settled, and those who do not come forward and liquidate their accounts between this and the 1st of January, 1858, will have to settle with an officer.

Valuable Town Property

FOR SALE.

THE subscriber being desirous of improving his other Lots, offers for sale his residence on the corner of Church and —— Streets. The situation is high and healthy and one of the most desirable in the town. The buildings are all good and have been finished off lately in handsome style, and the Dwelling House is covered with tin and the domestic part of the building is arranged in a style superior to any building in the country, and in the yard is a well of excellent water. This desirable residence is situated within a short distance of the Female College, one of the handsomest buildings in the State. As I do not expect a person to purchase without examining the premises, I will take great pleasure in showing the property to any one desirous of purchasing. I will make the price correspond with the hardness of the times, not expecting to realize more than what will pay for the cost of the buildings.

AFFLICTED THIRTEEN YEARS, AND CURED IN ONE WEEK.

Read letter from Rev. James Temple.

PHILADELPHIA, June 9th, 1856.

PROF. DE GRATH: I have been afflicted for thirteen years with Neuralgia and other painful complaints, and I have been unable to sleep soundly or walk any distance for many years past. Last week I got a bottle of your "Electric Oil." The first night I slept soundly and well, and to day I am like a new man. My wife could not believe her eyes. Your Electric Oil has done in one week what the physicians of Philadelphia failed to do in thirteen years.

Gratefully yours,

CITY OF MOREHEAD!

GREAT SALE OF LOTS!!

ON THE ELEVENTH (11TH) DAY OF November next, at the City of Morehead, will be sold at public auction, the Lots of said City.

This is the New City laid off by the "Shepard's Point Land Company," at the terminus of the Atlantic and North Carolina Rail Road, at Beaufort Harbour, N. C., immediately at the Atlantic Ocean.

The various Reports of the United States Coast Survey establish the great excellence of this Harbor for facility of entrance, depth of water and security from wind or wave, which Fort Macon completely commands the entrance.

The inferior communications by water and land must make this a great Commercial City. The vast productions of the fertile valleys of the Roanoke, Tar and Neuse Rivers and the commerce of these great inland seas—the Albemarle, Virginia, Carolina and Pamlico Sounds, will reach this New Harbor through Core Sound on the north while Bogue Sound will bear on its bosom the agricultural products, lumber, naval stores and fine ship timber of the regions lying south.

The A. & N. C. Rail Road which will be ready for use by the first of January next, passes through the entire length of the City to its wharf in 18 feet water at the time and connects with the great N. C. Rail Road (of which it is a continuation) at Goldsboro'.

The N. C. Rail Road, among the best in the Union, 223 miles long, is completed to Charlotte, where it connects through the South Carolina and Georgia Rail Roads with Atlantic and the south west. Soon by its western extension, now in rapid progress, it is contemplated to reach the trade of Memphis and the Mississippi Valley by the nearest route of all the railways that connect at Atlantic, Charleston, or with the East-Tennessee Rail Road.

The Port of Beaufort, Chattanooga, Memphis and San Diego in the Pacific, are almost on a parallel of latitude; and it is that parallel to extended across the Pacific, it will reach Shanghai, the nearest great Port on the Eastern Continent; therefore, is the Pacific Rail Road ever be constructed, (and that should be done forthwith,) why may not this New City become The Atlantic port for the commerce of the East Indies?

Two short Rail Roads will connect the two great Cities of the State, lying on the north and south of the North Carolina Rail Road, and it is confidently expected that a vast Coal Trade will be carried on through the New City (if so, may not Beaufort become a great Coaling Port, not only for purposes of commerce, but to furnish the supplies to steamers passing so near the entrance going north and south; and may not the New City become that great "entrepot" between the north and the south, to which our able and distinguished countryman, Lieut. Maury, refers in his unrivalled Sisterns-mine paper on the currents of the Atlantic, South America and the Gulf of Mexico?

The City of Morehead is situated on a beautiful neck of land or city plain, almost entirely surrounded with salt water; its climate is salubrious; its sea breeze and scrubbing delightful; its drinking water good, and its fine chalybeate spring strongly impregnated with sulphur, will make it a pleasant watering place.

As not a single lot has been or will be sold until the day of sale, all will have an equal chance to get the best lots and to suit themselves.

It will be the first instance of an entire New City on the Atlantic coast being brought into market at once: and capitalists may never have again such an opportunity for good investments, for a great city must and will be built at this place.

President of Shepperd's Point Land Company.

DESIRABLE INFORMATION TO EVERYBODY.

FOR some time past I have been engaged in a business (known only to myself and compatriotic few, others whom I have instructed for $100 each) which has averaged me an income of from $2,000 to $3,000 per annum—and having made arrangements to go to the Eastern Continent next Fall, I am willing to give full instructions in the art to any person in the United States, who will remit me the sum of Two Dollars. I am induced from the success I have been favored with, and the many happy acknowledgments that I have received from those whom I have instructed in the art, and who are now clearing from $3 to $15 per day, to give every person a chance to come into possession of this valuable means of making a small fortune. There is no Humbug about the business herein offered to. Reference of the best given on regards its character, and I can also refer to persons in Chicago and Detroit, as well as in this place, who have within three months embarked in the business, and who will testify that they are making from $3 to $15 per day at the same. It is a business in which either Ladies or Gentlemen can engage, and with perfect ease make a very handsome income. Several Ladies in various parts of Illinois and Missouri, whom I have instructed in the art, are now clearing from $5 to $10 per day. It is a genteel business and requires but a few shillings to commence it. Upon receipt of $2 I will attend to the applicant a circular containing full instructions in the art, which will be perfectly understood upon being once read. Address:
