Letters received by the last Tennessee Burwell, Charlotte N. C. Dec. 8, 1857. atrengthen the reports we received by way of Havana, that four sailing vessels and one steamer were being fitted out at Key West to operate against Mexico. Gen. Minon is reported to be at the head of this movement and men of all nationalities are enlisted in it. The reported plan is to attack Mexico in to do something against Mexico, and for Santa Anna. It may be that the reports come from his fertile brain or from that of some one connected with him.

Our belief is that the fleet will do nothing. Our reason is that the steamer reported as belonging to this formidable expedition is the Scottish Chief, an unseaworthy shell that and a variety of office articles too testions to prostarted from New York to reach the Goat- tion. zacoalcos river, but was aboudoned in Key West. It is quite likely the balance of the expedition corresponds with the steamer .--Mexican Extraordinary.
