A few weeks since, in control down North river, I was seated in the inspuiseent steat mer Isaac Newton, in conversation with use friends. Is was becoming late in the vening, and one after another vesting, and one after another, seeking repose from the cares and totls of the day, mode preparations to retire to their berths. Some, pulling off their boots and costs, laid nemarives down to rest ; others, in the sttempt to make it seem as much like home as possible, threw off more of their clothing each one as their comfort or apprehen n of danger dictated I had noticed on dock a fine looking boy

about six years of age, following around a man evidentiv his father, where appear a man evidently bir father, whose appra-ance indicated him to be a foreigner, pro-bubly a German; a man of medium beight and respectable dress. The child was un-uccasily fair, and fine looking, handionneily featured, with an affectionate expression of countenance, and from under his German cop fell Chesnut hair, in thick clustering

the father and son stopped within a few feet af our tim-of where we were setted, and hegan prepa-ration for going to bed. I watched them. The father adjusted and arranged the bed We comprethe child was to occupy, which was an upper berth, while the little fellow was undreasing

FOR THE NORTH CAROLINA WHIG MALLARD CREEK CELEBRATION. We give below the cote in seven Con-For a number of months the Temperance gressional Districts, as far as heard from, exue has gained ground, and the Order of and from this District in full exuse has gained ground, and the Order of Sour of Temperance has enjoyed a season FIRS of great prosperity in Micklenburg County. 1855 This may be said, not of this county only, but Counties. Show, D of the whole State of North Carolina : the Curritack, 611 of the whole State of North Carolina : the Curritack, 101 of the whole State of North Caronas, the Carriage, 104 Order—as reported by the Grand Seribe, Canden, 106 A' M. Gorman, Eeq. of Baleigh, at the late Parquotank 356 semi-annual meeting of the Grand Division Perquants 282 at White Hall—has hearly doubled its num-Gates, 367 ber of members in six months. In Meek, Chowan, 265 at white fiall-mas hearly doubted its barn bor of members in six months. In Meck lenburg, Temperance celebrations and pub-lig meetings have been held public dinners and pic noise have been held public dinners have been made, and friends of humanity Martin, 708 have been made, and triends of humanity Martin, 70 have labored to promote the Temporance Bertie, 47 reformation; and more than this, ministers of the Go-pel have, from the pulpit, pre-sented the subject to their congregations. As a natural result, new Divisions have been 52 instituted ; the old Divisions have received instituted ; the old Directons have received by accessions; public opiuion bestows a more favorable judgment upon our Order, Shaws's maj , 38 and patriots have been encouraged to renew their efforts in behalf of the good couse. On Friday last, the 12th instant, in The Result. We compratisfy our means at the result of leaburg Division and a delegation from Hyde, the election in the Side. We have elected north the Section of Cadets, it was my pleas Breatfort, The father adjusted values to overly which was an upper the shill was to overly which was undressing hunself. Having functed this, his father trial a handkeredief strong his head, to protect his early, which looked as if the sup takent from his young barpy bears always rested the res. This done, I looked for this seerk his config place but meread of this he quictly knowed down upon the floor pot his liftle hands together as to teaurifully child like, and somple, resting his arma on the lower berth, against which he know begin his prayer. Area he his side, and stand. The exercises of the day were opened Ruffin's m 5521 with prayer by Rev. S. C. Pharr, D. D.-Dr. Pharr then, in his usual eloquent and hear the murmaring of his sweet voids, but stored eavy from he puls to affect the wide the wide the works the source access to the second difference of the state of affect t buildance of good things were prepared. On Richmond, reaching the tables we found a most excellent dinner in readinces, and those A beautiful eight it was, that shild at prove a over 200. In the fifth Woltens, they exist a main work of the basy, thought, to the such Smith Woltens, they exist a main and the set of the basy for the basy is the set of the basy for the basy is the set of t ing, wheth is far off or sight it could scares satis show that Mi Gameria's between testered by all varied and effective manner, addressed C rateau from weeping then, nor can I now, an increased sequence in a backhas bester the animum of or on hour and a holf - W as I are again that asset shild, in the Santo by about 900 rates. Lanon - Daily occupation without excessive severity, during the neular week, with every eventh day of that entire change of thoughts and dutine suited to the sacred moure, will lead to the longest life of which our decaying nature is expable. The our ery which has been made in this country, of 157 late years against over-tears, we believe has no foundation in reality. There may be undue excitoment connected with both mental and hodily employments brought about by a disposition to rash adventures speculations, and too much hasts to be rich Bus of downright houses work in either de partment, we have little fear; and often wich that there were more of it, instead of less. Care is wearing, but labor is health fol and dispess is worse for either hady or mind than both care and inbur together A very active industrious man, who account prishes a large amount of both mental and skywest labor, will in the enjoyment of signrous health, was told by an idle neigh-

chood that be would "work humself to borhood that he work? Work himself to dwath." He replied, "I never knew but one man who lizerally warend himself to dwath, and he died at the up of one han-dread with a splendid airer pitcher." *Jour. of Con.*

in its phraseoingy and certificate for in-paction, they discovered it

We admit the fact ? By asture, men are a piece of tissue paper a We solve the last 1 By esture, men are Demorrate! By nature, men are without law, except the last that might make rights. We solve the last difference in the master; of the strong-without property, except into as they sequire and held by-"The good and rate-the emple place: That they may take who free the power. Also they may take who free the power. Also they may take who free the power.

" The good old rule - the enough place ; That they may take who have the power, And they may have who have the power,

And they may haid with some." By nature, men are uneividized, igno-rant, bruth, bruth, thisrift and blood thirsty. We have an approximation to man's condition, haint, propendities, by nature, in the case of some of the lower tribes of Indians on this continent, and this baser develops ments of homanity in Africa. It has been the estilizates were thus shown forgeries. When this same before our comwhigher, for s.z theurand years, to get men most Herculean efforts were made in religion, for each theorem years, to get men-as far away from a state of natures as possi-ble. When the excitance influences of Art and Science Ied on and excited by Christiani-ty, shall have succeeded in completely re-detening man from the depraviation of the be-suffel inty of weaking ratural condition, then, Heaven he present

widely extended had the social been by which is was to be maintained.
