No Paper Next Week—Twice a year printers take a holiday. No one with a soul worth looking after begrudges it to them. For twenty-five weeks, without missing a single day the printers in the GLEANER office have faithfully worked. They propose now to play a week, and then set in for twenty-five more weeks which will bring them to Christmas. We know our readers will feel a pleasure in knowing that they are having a rest; unless it is some who have not paid their subscriptions, and they can't take pleasure in thoughts concerning the paper.

THANKS TO DR. W. F. BASON for a Box of delicious honey, the product of his own apiary. The box is as full of the pure honey as an egg is of meat, or as anything else that is just as full as it can be. The bees themselves put it there in such order and beauty, man could not have done it. From a letter accompanying the box we must ask the Dr.'s pardon for printing the following well expressed extracts. The Dr. says:

What I claim for my little Workers, Chemists, Pharmacists, Mathematicians and Philosophers is the largest amount in the smallest space considering the size of the box.

Man with all his claims of superior wisdom, philosophy &c. should learn to be humble when so far excelled by the little bees. These teach the advantages of specialties.

He who cultivates health would like to know should cultivate both Fruit and Bees.

BINGHAM SCHOOL—We are in receipt of the catalogue of the Bingham School for 1879. It is no injustice to any other School to say that the showing [142 pupils from 14 States of the Union, and one from Ala.] is better than any similar School in the South makes. We notice that the most liberal offers are made to the sons of clergymen and others, and that young men with small means can "mess" and thus get a first class education with very little money.

We notice also that board, with furnished room is reduced to \$12 per month and the tuition (\$75.00 before the war and \$62.50 till now) will be \$40.00 hereafter, and the Superintendent claims that, with his able, and thoroughly trained and experienced corps of teachers, and increased facilities, more satisfactory results will be secured and for less money than at any time since his connection with the School, begun twenty-two years ago.

At the opening of Trinity Normal School, Dr. Craven delivered a lecture, (as we see stated in a correspondence to one of our exchanges) in which he laid down the following requisites and propositions concerning teachers. We give them and commend them to the consideration of our teachers. What a first class teacher should possess, what are the opportunities and responsibilities, and the future of teachers is tersely stated by the Dr., as follows:

1. Learned education.
2. Special preparation.
3. Experience.
4. It is the noblest profession.
5. It requires the highest culture.
6. It insures an entrance into society to a cultured man or woman.
7. It is of the greatest interest.
8. It is a profession because it receives increased pay for the time employed.
9. It will always increase as a profession until the millennium.

IN THE WHOLE HISTORY OF MEDICINE

No preparation has ever performed such marvelous cures, or maintained so wide a reputation, as AYER'S CHERRY PECTORAL, which is recognized as the world's remedy for all diseases of the throat and lungs. Its long continued series of wonderful cures in all climates has made it universally known as a safe and reliable agent to employ. Against ordinary colds, which are the forerunners of more serious disorders, it acts speedily and surely, always relieving, and often saving life. The protection it affords, by its timely use in the throat and lung disorders of children, makes it an invaluable remedy to be kept always on hand in every home. No person can afford to be without it, and no one who has used it, never will. From their knowledge of its composition and effects, Physicians use the CHERRY PECTORAL extensively in their practice, and Clergymen recommend it. It is absolutely certain in its remedial effects, and will always cure where cures are possible.

FOR SALE BY ALL DEALERS.
