Local, State and General

You needn't open this paper; there is nothing on the inside. The inside is outside this week. It happened just this way. We had been getting our supply of paper from the Neuse Mills, in Wake county, and a week ago we were notified that our order could not be filled on account of low water. We at once ordered from W. & R. Tiddy of Charlotte and after some delay were informed by them that they did not have our size on hand, and were on Government work which they could not interfere with. We then sent to Richmond and there succeeded in getting a supply, but too late to print an outside. We hope our patrons will bear with us this once, and next week we will publish how the young man helped two girls from the church window, the girls having been locked up in the church by mistake.

Graham is dull.

State Fair commenced last Monday.

Squirrel hunting is becoming a very popular amusement.

Mr. John Denny leaves tomorrow to attend Presbytery.

Madam Rumor reports a marriage soon to take place in Graham.

The weather still continues warm and pleasant.

The Bergers, and Sol Smith Russell will visit Greensboro the 17th inst.

Mr. J. S. Albright left with his family last week, for his home in Columbus, Miss.

Tobacco is curing beautifully this year, and the farmers are well on with the work of cutting and curing.

We failed to get up proceedings of County Commissioners at their last meeting. Shall appear in our next.

There will be five Sundays in next February. It will be just forty years before there will again be five Sundays in the shortest month of the year.

The time has passed for the "Elixirs," "Cordians" and etc., for the Baby, and Dr. Bull's Baby Syrup is now the established and reliable remedy. Price 25 cts.

There will be no services at the Presbyterian church for the next two Sabbaths, as the pastor will be attending Presbytery and Synod.

C. A. Jones, of Salem, N. C., has been appointed internal revenue storekeeper and gauger for the fifth collection district of North Carolina.

Those wishing to buy the lots in the town belonging to the county will have an opportunity of doing so on the first Monday in next month. See ad in another column.

We are requested to announce that communion service will be held in the Presbyterian church on this place on the third Sabbath in November, Rev. F. H. Johnston, of Winston, will be with the pastor and congregation upon the occasion.

DAVIDSON COLLEGE VOLUNTEERS—We notice in the *Charlotte Observer* an account of the Davidson College volunteers. The company numbers fifty. At the election of officers we notice that J. L. Scott, Jr., of our town was elected First Lieutenant, and E. C. Holt, also of our town was elected First Corporal.

HALE'S WEEKLY—According to announcement the first number of this paper appeared on the 7th day of this month. It is an eight column paper, beautifully printed, and filled with interesting, live matter. No better paper in the State, and for neatness in appearance, it has not an equal in the State, so far as we have seen. It is such a paper as we expected from the hands of Mr. P. M. Hale, whom the people of the State delight to welcome back to the field of Journalism.

TRAINS FOR THE FAIR—A note from Capt. Turrittine, Railroad Agt. at our depot, informs us that during Wednesday and Thursday, the 15th and 16th inst., there will be three trains on the North Carolina Railroad, each way, for the accommodation of those wishing to attend the fair. The schedule for this place is as follows: Going to Raleigh, the first train will pass Graham Station at 7 o'clock and 3 minutes in the morning, the second at 8 o'clock and 14 minutes in the morning and the regular train at 9 o'clock and 34 minutes in the morning, and, in returning, the regular train will arrive at Graham station at 6 o'clock and 23 minutes in the evening, the next train will arrive at 7 o'clock and 27 minutes in the evening and the last train at 8 o'clock and 26 minutes in the evening. Persons can go to Raleigh on any one of these trains, and return on any one of them.

From the *Durham Recorder* we learn that the jury empanelled to enquire into the cause of the death of Haywood Redmond, an account of whose death we published last week, found that he was killed by the engine as reported, and that it did not appear that proper signals of warning were given in time to have enabled him to get off the track, and that he, Redmond, was drunk at the time. And the jury also took occasion to condemn the practice of running the trains through the town of Durham at a high rate of speed.

Mr. W. T. Thompson, at Mount Olive, in Wayne county, was trying to pass across the railroad track between two freight-cars while the train was running from ten to fifteen miles an hour, and was caught under the wheels and suffered a horrible death. There was no occasion for his crossing the track, and he was making the attempt to show he was not afraid, and could go across. He was a carpenter and well thought of.

We see it stated in the papers that a bill of indictment was found last week in the Federal court against Messrs. Bennett, Dargan and Pemberton, attorneys, and the sheriff and clerk of the Superior court of Anson county. The offence appears to be, that some time ago a revenue officer seized a wagon and team from a citizen for alleged violation of the revenue law, and a suit was brought in the Superior court of Anson for the recovery of the property. The persons indicted were the attorneys who advised the suit, the clerk who issued process and the sheriff who served the papers.

A TERRIBLE RAILROAD ACCIDENT—The Pacific Express on the Michigan Central Railroad, collided with a switch engine at Jackson, telescoping the baggage and express cars and piling eleven coaches on each other. The first coach was filled with immigrants, most of whom were killed or wounded. Many of the occupants of the other coaches were also killed or wounded. No Southern people named among the killed and wounded.

The Gate City Guards, of Atlanta were cordially welcomed in Philadelphia, and were received by a battalion of State Fencibles, and escorted to Independence Hall, where Mayor Stokely made a welcoming speech.

SCRATCH YOUR HEAD IN ANOTHER PLACE—Lucien Crater, the barber, may always, that is nearly always, be found at his shop in room No. 19 in the Graham Hotel. The location is quite convenient and Crater is a good barber; keeps everything nice and clean, and does his work well.

In the case of Emmett R. Williamson, who was some time ago bound to the Federal court at Greensboro, charged with sending postal cards to a young lady in Chapel Hill containing slanderous matter a plea of guilty was entered and judgment suspended upon payment of cost, the defendant confessing the falsity of the card and apologizing to the young lady.

SAD ENOUGH.

[Vice Herald, Rep.]

Better no Republican party at all in the South than another one like that which has faded away. Of adventurers and pilferers masquerading in the name of Republicanism we have had enough.

Up to this time about four and one third million of the old bonds of the State have been exchanged for about one million three hundred thousand of the new bonds, under the recent act of the Legislature to commute and settle the public debt.

HALLS VEGETABLE SICILIAN HAIR REGENERATOR is a scientific combination of some of the most powerful restorative agents in the vegetable kingdom. It restores gray hair to its original color. It makes the scalp white and clean. It cures dandruff and humors, and falling out of the hair. It furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft and glossy, and is unsurpassed as a hair dressing. It is the most economical preparation ever offered to the public, as its effects remain a long time, making only an occasional application necessary. It is recommended and used by eminent medical men, and officially endorsed by the State Assayer of Massachusetts. The popularity of Hall's hair renewer has increased with the test of many years, both in this country and in foreign lands, and it is now known and used in all the civilized countries of the world.

ORANGE PRESBYTERIAN meets at Alamance Church, in Guilford county, tomorrow. Rev. C. H. Wiley will preach a historical sermon on Saturday. For the first hundred years of its existence this church had two pastors, the Rev. David Caldwell was the first, and he served for sixty years, and the Rev. Eli Caruthers was second, who was pastor for forty years. These facts we get from *The Patriot*.

THE SYNOD of the Presbyterian church of this State will meet in Statesville on the 22nd of this month.

A Marriage and a Death.

Night before last Mr. Edward Drayton son of Gen. T. F. Drayton, and a former citizen of Charlotte, was married in Florida. In the midst of a conversation with several friends concerning the happy event at the hour at which it was supposed to be transpiring, Gen. Drayton received a telegram announcing the death of another son, Mr. W. S. Drayton, at his home in Georgia. The community deeply sympathize with Gen. Drayton in his bereavement. The news is a severe shock as he was not even aware that his son was ill.—*C. Observer*.

On Friday night last about 7 o'clock, the Boarding House of Mrs. R. R. Moore, on South 2nd street, was entered by an unknown party. Two of the sleeping rooms of the house were entered, and the pockets of the occupants searched and robbed only of the money they contained—a small amount—leaving their watches on the floor. The thief was seen by Mr. Sherwood, mail agent, an occupant of one of the rooms, but he made good his escape.—*NORTH STATE*.

The grit is said to be of a superior quality. The quarry has been worked, after a fashion, for years.

Five negroes have come up to state that they sneeze just like other people. Never said they didn't. Simply gave a current report to that effect, and—found very few white people who were willing to deny it.—*Charlotte Observer*.

Renfro, the Georgia Treasurer, who was put upon his trial before a high court of impeachment, has been acquitted, less than two thirds of the Senators voting guilty. Public opinion then does not appear satisfied at the result.

The Ohio election was yesterday. Can tell you what in our next, can't now. Guessing is useless; so will only say that Ohio is a Republican State, and, if Foster, the Republican candidate, is elected, unless by a very large majority, it will only show that the Republicans are holding their own; while if Ewing, the Democratic candidate, is elected, it will be an immense Democratic triumph.

THE STATE FAIR—Last Monday was the first day of the State Fair which is to continue until and including Saturday. The formal opening was on yesterday by Gov. Jarvis. If there had been a rain last week sufficient to lay the dust it would have contributed much to the comfort of those attending. We don't think there are many exhibitors from this section. Dr. Faust went down Monday morning with a selection of fruits. Some of our people were off, for the pleasure of being there, this morning. From the *Raleigh papers* we learn many entries had been made, and the contributions to the premium list was quite large.

SERGEANT JASPER—The one hundredth anniversary of the siege of Savannah, and the death of Sergeant Jasper was celebrated on the 9th of this month, on a grand scale. There were present twenty thousand people. The volunteer soldiers of South Carolina, Georgia and Florida were present in large numbers. The procession was brilliant and imposing. John McMahon, President of the Jasper Monumental Association, laid the corner stone of the monument to the memory of Jasper, and U. S. Senator Gordon delivered the address of the occasion.

THE WALKING MANIA—The walking mania is spreading big contests were under way last week in San Francisco, Baltimore and New York. Tens of thousands pay their admission fees and witness the pluck and powers of endurance of the walkers. The successful pedestrian realizes a fortune. The good sense of such strains upon the strength of men may be questioned.

If you have chills go to Company Shops Drug Store and there you will find a cure.

We recognize this fact, that if the candidate of the Democracy is defeated, this is the last free election we shall ever hold upon American soil. We are not saying this for political effect or for the purpose of creating unnecessary alarm, but because we believe and fear it. Already the waters are troubled and the waves are casting up from the bottom, sea weed, mud and all manner of filth mire. The roar of elements indicates no ordinary storm.—*Southern Home*.

Chew Jackson's Best Sweet Navy Tobacco.

There is trouble between the English landlords and Irish tenantry in Ireland, and the subject of home rule is again more than ordinarily agitated. The Irish in New York are going to have a rousing meeting in Cooper Institute for the purpose of encouraging their countrymen to come to this country, by the wholesale, and thus teach England and landlords a lesson.

A new mode of collecting honey is being tried in Germany. A small apparatus, with wires, gives the bees an electric shock, and they fall to the bottom of the hive, remaining motionless for several hours.—*Milton Chronicle*.

Getting the Hancock Boom Together.

[Baltimore Gazette, Dem.]

The friends of General Hancock propose to establish a Hancock headquarters at Washington when Congress meets and to begin the work of actively pushing him for the Democratic nomination for the presidency. They expect much assistance from the South and parts of the West.

In disinfecting Memphis the National Board of Health has used 170,105 pounds of copperas, 9,000 barrels of lime, 40 barrels of sulphur, 1,215 pounds sulphate of zinc, 15 barrels of carbolic acid, and 1,200 gallons of zinc iron.

Don't Know Half Their Value.

"They cured me of Ague, Biliousness and Kidney Complaint as recommended. I had a half a bottle left which I used for my two little girls, who the doctors and neighbors said could not be cured. I would have lost both of them one night if I had not given them Hop Bitters. They did them so much good I continued their use until they were cured. That is why I say you do not know half the value of Hop Bitters, and do not recommend them high enough."—B. Rochester, N. Y. See other columns.—*American Rural Home*.

SOUTHERN PLANTER AND FARMER FOR OCTOBER, published at Richmond, Va., at \$2 a year, is received. Among other interesting articles by prominent Southern farmers, we notice one of special interest to such farmers of the South, who wish to improve their worn-out lands, by Dr. Elzey, on "Green Fallow Crops, Animal Manures and Commercial Fertilizers." This is the third series on these subjects. The Doctor discusses with great interest and originality the scientific and practical action of peas and clover fallow, and grasses generally—the best time, mode of seeding, &c. His discussion on the action of plaster, lime and commercial fertilizers exhibits great scientific research and practical experience. These series of articles should be read by every Southern farmer who desires to improve his lands by the most economical and efficient means. The *Planter and Farmer* is a leading agricultural journal for Southern farmers, and we advise our readers to subscribe to it.

Judge McCoy is stopping at the McAdoo House, and being a little unwell this morning had his breakfast sent to his room. A young lawyer seeing the servant carrying the breakfast to his room, concluded that the Judge was sick, and rushed off at once to spread the news and lay pipe for the appointment of his successor. The Judge is hale and hearty, however, and will keep somebody waiting for his shoes a long time.—*NORTH STATE*.
