## H Poem for Today

THE THREE TROOPERS

By George Walter Thornbury

GEORGE WALTER THORNBURY was born in London in 1828. At the age of seventeen he became a contributor to periodicals. He studied art and occasionally practiced painting, but devoted himself to literature and produced some twenty-five volumes. He died in London June 11, 1876. "Crum-well" is a pun on the name of Cromwell, the celebrated lord protector, who ruled England for several years after the death of Charles I.

NTO the Devil tavern

Three booted troopers strode, From spur to feather spotted and splashed With the mud of a winter road.

In each of their cups they dropped a crust And stared at the guests with a frown, Then drew their swords and roared for a toast, "God send this Crum-well down!"

A blue smoke rose from their pistol locks; Their sword blades were still wet; There were long red smears on their jerkins of buff As the table they overset. Then into their cups they stirred the crusts

And cursed old London town, Then waved their swords and drank with a stamp. "God send this Crum-well down!" The prentice dropped his can of beer;

The ruby nose of the toping squires Grew white at the wild men's shout. Then into their cups they flung the crusts And showed their teeth with a frown; They flashed their swords as they gave the toast, 'God send this Crum-well down!"

The host turned pale as a clout:

The gambler dropped his dog's eared cards, The waiting women screamed, As the light of the fire like stains of blood On the wild men's sabers gleamed. Then into their cups they splashed the crusts

And cursed the fool of a town And leaned on the table and roared a toast, "God send this Crum-well down!"

Till on a sudden fire bells rang, And the troopers sprang to horse; The eldest muttered between his teeth Hot curses deep and coarse. In their stirrup cups they flung the crusts And cried as they spurred through town, With their keen swords drawn and their pistols cocked,

Away they dashed through Temple Bar, Their red cloaks flowing free; Their scabbards clashed; each backpiece shone None liked to touch the three. The silver cups that held the crusts

"God send this Crum-well down!"

They flung to the startled town, Shouting again, with a blaze of swords, "God send this Crum-well down!"

# Farm and Garden

FOR FARMERS' WIVES.

What They Need Is an Occasional Change of Scene.

A bright woman correspondent of Country Gentleman writes as follows: Once in awhile most farmers' wives, I think, get tired of their everyday duties and occupations-out of tune with their work and surroundings. The best medicine for such a complaint is change. They should go to the home of some city cousin, of which most of us have a few, and compare conditions. The first thing we notice is lack of room, which is a painful want to those of us who have been brought up in the big country. What comprises a home in a large city can often be con-

AT A BARGAIN SALE

tained almost on one floor of a coun try house and the tiny dooryard be covered with a good sized tablecloth. Everything, too, costs so much-even the air, we get so little, and we sigh in vain for the cooling breezes that are nearly always to be found somewhere on our farm home.

City women, however, have a good many advantages that their country ids miss. They have more time for rest, recreation and reading. Their homes, being small, are more easily cared for. The men of the shold are usually away through the day. Fruit, vegetables and groceries are brought to the door, and it is always possible to find some one to do the work. The chances to shop and attend bargain sales are right at hand. There are siso theaters, lectures, concerts and in the summer beriess little excursions that are not expensive and make a delightful

enjoy these privileges very much. If we go in the summer, however, we hardly get home before our visit is returned. Our city friends think it costs country people scarcely anything to have company—they raise so much of their food, and they have pienty of room anyway. So if we go for one week they return us two or three, if

#<del>\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*</del> and outdoor life-even better than we do the city pleasures, which tire us even while they entertain, so that we are glad to go home, glad to return to the simple life and take up our old work. We all have, I believe, some city friends whom we visit seldom and whose coming we look forward to with dread. Their children are unruly, and they don't wish them to be corrected. They keep our houses and

lawns untidy with their hats, wraps

MIEIR CHILDREN ARE USEULY. they are extremely particular and don't want to have a thing out of

There are others who feel superio to us. They view the farmer and his family with pity, almost with contempt. They think farm life is so solitary, farm earnings so small! Yet they like to partake of the farmers' hospitality even while they try to excite envy and discontent, and I think they really like to have us visit them, mostly, though, for the purpose of showing us their luxuries and advantages which we do not possess. Such acquaintances should never be invited to repeat the first visit. We should speed the parting guest and discour-age them from coming again.

The first barbers of whom there any record piled their trade in Greece in the fifth century B. C. In Ron the first barbers operated in the third century B. C. In olden times in England the barber and the physicis were identical. Thus a king's barber was also his chief medical adviser. It the time of Henry VIII. of England laws were made concerning barber of which the following is an extract: 'No person occupying a shaving or barbery in London shall use any surery, letting of blood or other matter, except the drawing of teeth."

No one who has ever talked to class Prenchwoman can have middle class Frenchwoman can falled to see that she is interest outside her own country an little outside her own family beyond French frontiers is a world or barbarians. It is this curious menta attitude which makes our neighbo across the channel in a sense the Chines of Burope. London Sketch.

night off."
"No," rep not more. They always get the best of us, we can be certain of that, and how they enjoy the drives, fruit, milk libeary.

WASHINGTON, Nov. 9, 1908.

Now that the election is over those whose interest is largely in political or national affairs, are busy estimating the result. With the election of Taft, the presidential policy of the next four years is as well understood as it can be. It will, of course, be modified by events which no one can see, but Mr. Taft is pledged to carry out the policies and enterprises of the President. It will probably fall to his lot to apppint four justices of the Supreme Court where he once aspired to sit, having on more than one occasion said that he would prefer a supreme judgship to the presidency. That he will be able to select suitable men for this highest and most potential court in the world is believed even by his political opponents.

But not only was a president elected on Tuesday last. It is now known that the Republican majority in the House will not be more than fifty after the Fourth of March next, which will be less than the present Republican majority. At this writing it is not certain that the majority will be as much as fifty, but it can be said with certainty that it will be less than the present majority of fifty seven. All of the big four standpatters have been re-elected-Cannon, Tawney, Payne and Dalzell. Sereno Payne of New York, the Republican leader and chairman of the committee on Ways and Means, to head? Goliath. whom matters relating to the revision of the tariff will be referred, has been re-elected by a good major- gathers up the waist (waste).

Not many presidents have assumed the duties of the office with as complete a preparation as presidentelect Taft will have. He has been for years closely identified with Gov ernment affairs here in Washington, in the Philippines, in Cuba and in Penama, and before he took up pubextensively as he has.

Magnet to find Trensure

Luray, Va., Nov. 2. -Working spon the tradition that many years ago an iron pot of gold was buried on the farm belonging to H. M. Coffmaking efforts to locate the treasure. His method is magnetic needle, which, he declares, will become reflected when placed over the iron vessel. Excavations have recently been made at a number of places on the Coffman farm, some of them very deep.

His theory is that the treasure box is now many feet deeper than when originially buried, due to the action of water upon the soil. The gold is supposed to have been buried by the Stokes family, which lived on the land while Page was a part ments in this country with the facil- of Shenandosh county-shout 80 years ago.
