

PEACE PROSPECT IS UNDISTURBED

PRESIDENT WILSON IS GIVEN AN ACCOUNT OF MEXICAN SITUATION.

HEAR INTER-AMERICAN PLAN

Villa Approachable But Carranza Flatly Refuses to Enter Negotiations.—For Armistice.

Washington.—President Wilson on his return from Cornish was given a comprehensive account of the Mexican situation by Secretary Lansing.

The secretary told the president that the official reports indicated that the situation in the vicinity of Brownsville was of a local character and that quiet prevailed at Vera Cruz where there had been some anti-foreign demonstrations.

Neither the president nor Secretary Lansing was inclined to believe the situation required any further precautionary measures than have been taken in sending battlehips to Mexican waters and more Federal troops to the Texas border.

They devoted most of their time to a discussion of the inter-American plan on which they are pinning their hopes for the early restoration of peace in Mexico.

The conference appeal to the Mexican factions has not yet been sent, although signed by Secretary Lansing and the Ambassadors and Ministers of the six Central and South American governments participating in the conference.

A list of chiefs, generals, and governors is being compiled and as soon as the locations of all are determined the appeal will be telegraphed simultaneously to every part of Mexico.

On the eve of this action came an announcement from the Villa agency here that Carranza had flatly refused to permit a peace conference between his representatives and those of Villa.

BAYONET DRIVES TURKS.

Russians Explain Wholesale Exodus of Armenians.

Petrograd, via London.—Explanation of the renewal of the wholesale exodus of Armenians from their country into Trans-Caucasia is made in an account of military operations on the Caucasus front since July 22.

After the Russians penetrated to Mush—83 miles south of Erzerum and Plian, Halli Bey reorganized his Turkish army, bringing its strength up to 90,000. General Eudentich, the Russian commander, thus faced the alternatives of hurriedly attempting to concentrate his forces in the face of a strong Turkish army or retreating and thus exposing a large Armenian population to Turkish and Kurdish revenge.

The Russian main army withdrew along the right bank of the Euphrates, the Turks occupying the left bank between the two banks.
