## between Dvinsk and Vllas, and that they have captured s Postawy after driving the Germans twenty-five miles. General von Hindenburg is pushing his attack upon Dvinsk, but the defenders are said to be holding their own AmsterGerman mine men A GENERAL SURVEY OF THE WAR their own. Austro-German gains near Lutsk, in Volhynia, are admitted.

MONDAY.

MONDAY. The allies have made further pros-ress in the Champane region, and that all captured positions in the Ar-tois region have been held, the Paris official statement says. German at-tacks have been repulsed with heavy loss, the statement adds. Berlin despatches say that in the

loss, the statement adds. Berlin despatches say that in the naval attack on Zeebrugge, which ac companied the land advance, one Brit ish warship was sunk and two were demaged.

In the meantime, the Russian ar in the meantime, the Russian ar-mfes have resumed the offensive along a 250-mile front, from the Dvina river to the Pripet marshes, on the eastern front. Eeven fortified towns have been retaken, including Ostrow, Pet-

TUESDAY. The forward drives of the French and British troops continue with new gains near Artois and in the Cham-neared reader the continue with new gains near artors and in the Cham-pagne region. Paris reports that the right wing of the German crown crown prince's army in the cham-pagne has been shattered, and that German counter attacks in the Ar-gonne region, have falled. The crown prince is said to have lost, 100,000 men during the last few months. Official statements from Petrogra report severe fighting along the entire western front, with the Russians, a western front, with the Russians, at most points, on the offensive. The Germans still are attacking near Dwinsk, apparently without success. The cear's troops have captured many prisoners on the Galician front, and report a success over the Germans in a battle at Ekau, Courland.

#### WEDNESDAY.

WEDNESDAY. German casualities resulting from the big offensive of the French and British, including killed, wounded and prisoners, were given officially by the French war office as in excess of the strength of three army corps (more than 120,000 men). The British forces north of Lens, in Article are storming the third line of

Artois, are storming the third line of German defences. Over 3.000 prison were captured and great quanti of munitions.

Reports from Russia say an entire German army corps (40,000 men) were trapped in the marshes near Pinsk and only a few escaped death The official report says the Russian offensive continues unchecked. The first-class Italian (battleship Deneddite Brin was literally form to Benedetto Brin was literally torn t pieces by an internal explosion while lying at anchor in the harbor of Brin disi. Only 378 men and eight office of her complement of 720 mea known to have been saved.

business of every station, in order that the men may become expert sharp-shooters. They will dig trenches in the sand of the beach and with mä-chine gun and Krags will defend the shore line against attack by landing parties of an imaginary eneuy. Immediately upon the outbreak of war the service (now renamed the coast guard) will automatically be-come an adjunct of the nävy, and as such it will have assigned to it the important duty of protecting the naval wireless plants strung all along our coasts at intervals of 200 miles. The first thing likely to be attempted by an enemy is to capture and disable these outits for distributing intelli-gence. The accident occurred in the Foster unnel of No. 11 mine of the Lehigh tunnel of No. 11 mine of the Lenign Coal & Navigation company colliery. A blast released water from an aban-doned working, and the flood rushed into the gangway, where the eleven men were working and blocked the gangway a distance of more than1200 feet. William Watkins and George Hollywood escaped on Tuesday afte noon, by making their way from a chute through various air ways, until they finally reached the surface. The other nine were caught farther Each wireless plant will be in con

the one of the gangway and so found their escape cut off. They made their way up a chute, where they huddled together almost seven days. Several of them were able to save their dinmunication by telephone and telegraph with all the life saving stations for a distance of hundreds of miles, and, undistance of nunareos of mues, and, un-der the system now being organized, an emergency summons will call out from each station a seagoing power boat carrying a machine gun and a dozen or more armed men. Thus, within a ner pails and the contents were appo tioned out sparingly, while the lights or more armed men. Thus, within a surprisingly short time, a formidable body of defenders will be assembled, trained for the kind of fighting that is expected of them. Hastily throwing up intrenchments along the beach, the best fortification in the world is a bank

chicken bones which two of the men-had in their pails, and not until then did they give up hope. They had heard the rescuers working at times, and they feit themselves growing weaker and weaker, they abandoned hope of being taken out alive. When the rescuing force came upon them, after having driven 1200 feet
