(RAHAM, N. C., Feb. 10, 1916

President Wilson should feel gratified at the outcome so far at the lead he is taking in the preparedness campaign. Of course no great movement will meet with unanimous approval. It is perfectly natural for some people to disapprove. It is expected. But when trouble comes, it is natural, too, and generally hapould have been done regardless of the opposition.

### Standing University N. C. With Southern Universities

Cor. of The Gleaner.

Chapel Hill, N. C., Feb. Statistics from the 1916 World Almanac and from the recent reort of President Graham to the Trustees show several very interesting facts in regard to the standing of University of North Carolina among the other Universities of the South. In the first place, the University of North Carolina stands fifth among thern Universities both in re gard to number of students and number of instructors.

In regard to the total incomproductive funds of each University, North Carolina stands fifth in the total income rank (with \$190,000 yearly) and about eighth in productive funds. The rank of the Southern Universities as regards total yearly income is as follows: Texas (2,603 students) \$828,000; Virginia \$344-315. Tannesses \$293,000. Ala 315; Tennessee \$293,000; Ala bama \$200,000; Louisiana \$193 bama \$200,000; Louisiani \$190,000 000; North Carolina \$190,000; etc But the table on productive funds is still more interesting. In this Virginia heads the list with \$2,-288,745; Texas \$2,025,00: Miss. 3700,000; Alabama (1500 students \$565,000; Tennessee \$437,000; North Carolina's endowment fund both for general and specific pur poses, only amounts to \$82.594.

The above figures show, for in-stance, that South Carolina with 507 student has a total income of \$179,000, while North Carolina with 1121 students has but \$190. pi with 608 students has productive funds amounts 000. It also shows that Mississip e funds amounting to \$700,000, and Virginia with 1002 students has an income of \$344,315 and productive funds amounting to 2.288,745, while North Carolina has \$182,594 in productive funds.

In many ways the University is growing and extending its in-fluence. Without increased appropriation from the State the University must restrain all further development and growth th as to the number of students and as to all University activi-ties. Owing to lack of dormi-tories over half of the students are forced to room out in the town of Chapel Hill. Several of the dormitories already erected have on repeatedly condemned by the Insurance Inspectors. Further-more, State Fire Inspector Brockwell, in his report, laid stress on the dilapidated and unsafe condition of the Power Plant and urged that it be rebuilt immediately. The need for new lecture halls is

than the University's urgent needs. As President Graham says in his report to the Trustees, "No criticism is voiced here for this policy which the Legislature regarded as a necessary policy." regarded as a necessary policy. It is set down simply as a state-It is set down simply as a state-ment of the fact that confronts his opportunity; and the best time to aid the student in studythoughtful concern. The question
involved constantly shapes itself
to this point: how genuinely
will be given if the proper introwill be given if the proper introdren survive.

\* **Educational Column Conducted** by Supt. J. B. Robertson.

Assignment of the Lesson-

Although it is one of the first and most fundamental functions remark "and study yout lessons" or it may not. Too often the next Forces Organized for page is assigned with such inaccuracy that the student reasons pens, that those who disapproved are loudest in their complaint at the thing not being done that could and the thing not being done that could and the teacher that the student knows it makes very little difference on the part of the teacher that the student knows it makes very little difference on the part of the teacher that the student knows it makes very little difference on the part of the teacher that the student knows it makes very little difference on the part of the teacher that the student which is the student with the student which is the student with the student which is the student with the student ence on the part of the teacher if he doesn't get that.

The purpose for assgning a esson at all is that a certain amoun of work may be properly prepared by a student till a stated time and that at that time, the student may recite the lesson earned to the teacher. It is of no small cosequence to be exact in the assignment of the lesson. about what we expect. And un-less we expect something exactly teacher in the assignment of the dents in the preparation of that

It is very true that the teacher It is very true that the teacher must have due regard for the length of the lesson in making the assignment. It should not be too long nor too short. To make it long nor too short. To make it too long burdens the child. If the load is too heavy he becomes discouraged. He can't properly prepare, and he finds himself un-derneath instead of on top—a bad position for work and work that will count. On the other hand the lessons should not be too short. To make the lesson too short means to do little at most Sometimes when we make a task too small it dulls interest as much as to make it too large. And it often happens in life that we do not do a small task as well as we do a large one. But it is a serious mistake to give a child four pages for a lesson when he can't pro-perly prepare two pages. Where-ever it is possible and practical make the lesson a unit in thought. But be sure to tell exactly what the lesson is and just how it is to

assignment of the lesson should include an introduction to that lesson. This may mean giv-ing the setting of the lesson so the of intelligent approach. Or it in Montana was reported to be may mean and often does mean making the connection between the worst in 20 years. the old and the new lesson-show ing how the new is like or unlike the old, showing how it is old principles newly applied. It may consist in pointing out all the new things in the new lesson and their peculiarities, if they present any, and how to meet them. For example the little child who is making his first way into reading should be told, or led to find out, all the new words in the coming lesson. The older student should tiplication for the first time ex-

be recited.

aid the student in studying, the wth and challenges our time to aid the student in study

great, and how widely serviceable does state policy in North Carolina consider it actually and practically desirable for the University of the State to become?"

Because she fell into a hole on the sidewalk, Mrs. W. E. Dowd of same condition, to find out the lesson the best way he can; and it often is at a time when the little

# SUNDAY SCHOOL.

Lesson VII.-First Quarter, For Feb. 13, 1916.

THE INTERNATIONAL SERIES.

Text of the Lesson, Phil, II, 1-11-Mem ory Verses, 5-7—Golden Text, II Corvili, 9—Commentary Prepared by Rev The topic of this lesson is "Humilia tion and Exaltation," and the central

person is, as in all the Bible, the Lord Jesus Christ, Creator, Redeemer, High Priest and coming King. From the day that Saul saw Him and heard Him on the way to Damascus he had no else, as is plainly seen in some of his Christ." "Christ shall be magnified in my body, whether by life or by death." my body, whether by life or by death."
"I count all things loss for the excellency of the knowledge of Christ Jesus my Lord, \* \* \* that I may know Him and the power of His resurrection" (chapter i, 20, 21; iii, 8, 10). He never ceases to speak of the gospel or the good news concerning Jesus Christ (i, 5, 7, 12, 17, 27; ii, 22; iv, 3, 15), and he encourages all who believe the gospel by such assurances as that He who begins the work in them will not fail to finish it; that their names are in the Book of Life; that all their need her shall be supplied; that in the resurrec-tion the mortal body shall be changed to an immortal body, like the resur-rection body of the Lord Jesus, and that we should ever be looking for His return from heaven (Phil. i. 6; iv. 3, 19; iii, 20, 21). As to the present daily life we must count suffering a privilege and not be discouraged even by sickness in His service, content under all circumstances and free from all anxiety, fully yielded to Him, that He may work in ss both to will and to do of His good pleasure (chapter i, 29; ii. 25-80; iv. 6, 7, 11; ii. 13).

In our lesson verses we are led to consider the comfort that there is for consider the comfort that there is for us in Christ by fellowship with Him in the power of the Spirit. In the pres-ent conflict with the world, the flesh and the devil the only way is to run with patience, looking unto Jesus, and consider Him who endured such conconsider Him who endured such contradiction of sinners against Himself for us, lest we be wearled (Heb. xii, 1-3). If we are in Christ His God and Father is our God and Father, and He is the Father of mercies and the God of all comfort, and though we may have tribulation we need not be troubled (II Cor. i, 3, 4; John xiv, 27; xxi, 23; xx, 17). As we consider the meek and lowly One, who said "Take my yoke upon you and learn of me," we shall be ashamed of all strife or vainglory, for the servant of the Lord must not strive (Matt. xi, 29; II Tim. ii, 24; James iii. 14-16). How unseemly was the strife for greatness among the aposites on the last Passover night. Even Baruch, the scribe of Jeremiah, Even Baruch, the scribe of Jeremiah, was told that he must not seek great things for himself (Luke xxii, 24; Jer

xlv, 5).

Few seem to have attained to that rew seem to have attained to that fulness of grace, which enables them to rejoice in the welfare of another church or denomination as well as their own, because they hade not seen that to gather from all the world the Church, the body of Christ, is far more important than the welfare of any particular denomination or church or seeders. If believers had more fully society. If believers had more fully the mind of Christ they would never consider their own reputation or name, but would live only to magnify Him who so emptied Himself for us. He who had such glory with the Father before the world was as we cannot begin to imagine humbled Himself to Bethlehem, and Nazareth, and Gethsemane, and Golgotha, with all that each name suggests, that all who will acknowledge their guilt and receive Him as their Saviour may become children of God and joint heirs with Him. society. If believers had more fully dren of God and joint heirs with Him-self and in due time share His king-dom and glory. To this end God hath raised Him from the dead and set Him at His own right hand, far above all power and might and dominion and every name that is named, not only in this world, but also in that which is to come, and hath put all things un-der His feet and gave Him to be head over all things to the Church which is His body (verses 9-11; Eph. 1, 20-

It is this body and bride, that other Eve for the last Adam, that is now be-ing gathered from all the world in this age to reign with Him in the next age, when every knee shall bow to Him and every tongue confess that Jesus Christ is Lord to the glory of God the Father. This will be at the time of chapter iii, 21; Acts iii, 21; Rev. iii, 21, and the fitness for our taking part in it all is seen in Gen. iii, 21. He must reign till He hath put all enemies under His feet (I Cor. xv. 25), but He will not begin to reign till He has His Eve, His bride, His body, the Church, to reign with Him. We see not yet all things put under Him, but we see Jesus crowned with glory and honor, waiting for those other sons whôm He is bringing to glory and fitting them for it by their present sufferings it all is seen in Gen. iii, 21. He mus (Heb. il. 8-11). Only as we by faith

March bring weather conditions very trying

to most people. Colds, coughs, sore throat, tonsilitis, catarrh, bronchitis, pneumonia, are all

February and

dependent upon the same cause, climatic changes, Sloppy weather underfoot. High winds, chilling blasts, changing from day to day. Thermometer dancing a jig. Barometer follow-

### PE-RU-NA

They call loudly, too. If Peruna is neglected these catarrhal conditions are liable to become chronic. One bottle of Peruna used at the right time will save months, even years, suffering and sickness.
