Democratic Convention.
 A Democratic county convention is hereby called to meet at the court house in Graham on Saturday, April 22nd, at 12 o'clock, for the purpose of electing delegates to the state and congressional conventions, and to transact any other business that may come before it.
 W. H. CARROLL, Chairman.

WELCOME!
 Graham extends an unstinted welcome to the whole of Alamance county on County Commencement Day—April 22nd.

It is hoped everybody will come and enjoy the day. It will be great and inspiring.

Last Saturday the State Republican Executive Committee met in Greensboro and named the following to be voted for in the State primary on June 3rd for State officers, to-wit: For Governor, Frank A. Linney; for Lieut.-Governor, L. L. Jenkins; for Commissioner of Agriculture, A. L. French; for Attorney-General, Z. V. Waler; for State Auditor, J. Q. A. Wood.

Villa still keeps out of the clutches of both Mexican and American soldiers. A day or so ago he was reported dead and buried, but that was regarded simply as a "trick." It would seem that he could have been taken before now, if the Mexicans were as earnest about the matter as the Americans are.

T. R. Roosevelt is running a big bluff. Progressive or whatever he may call himself, he is after the Republican nomination for President. He ran well four years ago and had a tremendous following, but he will not do so well again. When he tries it he will see.

In the past few days the fighting in Europe appears to have been the fiercest and most deadly of the whole war.

To Pension Jobs.

A proposal for national insurance against unemployment has been introduced in Congress by Representative Meyer of London, the Socialist member from New York.

The measure proposes that a fund be established "to secure to workers adequate means of subsistence while involuntarily unemployed, whether the unemployment be caused by lack of work, sickness or old age." It provides for the appointment of a commission, two members of which are to be employers of labor, two representatives of organized labor and the fifth the secretary of Labor, as chairman ex-officio.

To minimize the burden placed upon the insurance fund Mr. London proposes that employment be provided by the development and exploitation of public lands. He puts forth his measure as an avowedly socialistic scheme. Such schemes of social insurance are better understood in Europe, where many nations have adopted them as necessary measures of national welfare. Mr. London's plan, however, is comprehensive and embraces practically all the various branches of social insurance that have secured wide adoption. They have usually been taken up as natural extensions of workmen's compensation laws.

Last month one branch of Mr. London's scheme made its appearance in New York State in the shape of a bill introduced in the Legislature providing for a State scheme of sick payments to workers getting less than \$100 a month.

AYCOCK MEMORIAL CUP.

High School Debate Friday Night—75 Schools Enter Final Contest—Girl Debaters in 45 of Them—Graham Sends Two Girls.

Cor. of The Gleaner.

Chapel Hill, N. C., April 12.—Seventy-five schools, having complied with the conditions regulating and governing the High School Debate, are now eligible to enter the final contest for the Aycock Memorial Cup. Each of these schools will send two teams to Chapel Hill on Thursday, April 13—one affirmative and the other negative. And once on the Hill, the affirmative team and the negative team, which are to face each other in Memorial Hall Friday evening at eight o'clock, will be chosen by the process of elimination. From the seventy-five schools which will enter the first preliminary Thursday evening, about sixteen teams will be chosen to enter the second preliminary Friday morning. At this time and from this number the two teams which are to enter the final debate in Memorial Hall will be chosen.

One interesting phase of the debate is the fact that very few of the High Schools win out in the triangular two years in succession, a fact which signifies that all schools enter the contest upon an equal basis and all have the same chance of winning the Aycock Cup. For instance, only ten of the schools which sent down teams last year will be represented again this year; and only eight of the schools represented here in 1913-'14 will be eligible this year. Out of the 325 schools in the contest this year not a single one of them has sent down teams for four successive years. Eight schools, however, have been represented at Chapel Hill three times. Of that number three—Lumberton, Holly Springs and Stoneville—sent teams down for the first three years but lost out in the triangular contest this year. The other five schools achieving such distinction are Pleasant Garden, Wilson, Graham, Statesville, and Stem.

Forty-five schools will be represented at Chapel Hill by one or more girl debaters. Eighteen of these schools will send down two girls; two—Vanceboro and Trenton—will send three girls each; while the teams representing Faison and Swannanoa will be composed entirely of girls.

Robeson county heads the list with four representatives among the 75 schools coming to Chapel Hill next Thursday. Seven other counties—Alamance, Buncombe, Gaston, Iredell, Scotland, Wake, and Wilson—have three schools each; and still three others—Guilford, Duplin, and Johnston—will be represented by two schools. A curious coincidence occurs in connection with the counties represented and the girl debaters—in that, six of the counties which will be represented at Chapel Hill by three schools will also be represented by five girl debaters.

Relief in Six Hours

Distressing Kidney and Bladder Disease relieved in six hours by the "NEW GREAT SOUTH AMERICAN KIDNEY CURE." It is a great surprise on account of its exceeding promptness in relieving pain in bladder, kidneys and back, in male or female. Relieves retention of water almost immediately. If you want quick relief and cure this is the remedy. Sold by Graham Drug Co. adv.

This time Russia seems to have a real iron horseshoe concealed in its boxing glove.

Uncle Sam is now, by the logic of events the policeman of the world—and he has not a sufficient force to police half his own hemisphere.

Kissed The Flag.

What Belgium's King and Queen have said concerning what has been done for the people of that sad, war-stricken land makes quite clear their heartfelt appreciation, but the most touching evidence of gratitude comes from the women and children and the old men who remain in their invaded country and who are direct beneficiaries of the benefactions of the kind-hearted outer world. Their efforts to show what they feel, to make others know how they are touched, is pathetic. Americans who have been working in Belgium, distributing food and clothing, find their task arduous, not physically, for the stimulus is great, but wearing on their powers of self-control. It isn't scenes of poverty and hungry women and children, for everyone in Belgium gets enough to eat now, that fills the eyes and makes speech difficult it is rather the poor, yet the best, efforts of the people to demonstrate their appreciation.

Some time ago a motor car belonging to the Commission for Relief in Belgium, through which has been distributed that vast quantity of food and provision which America sent across the seas to the stricken nation, drove slowly through the streets of Louvain. The car flew the American flag. A lady, evidently of goodly station, well dressed and refined, stepped in front of the machine, holding up her hand in signal to the American driver to stop. He did so and the lady advanced toward the car. Paying not the slightest attention to either driver or his companions, who looked curiously on, she approached the forward part of the car, from the engine hood of which rose the flag. Simply she lifted one of the folds of the emblem, bent over and kissed it. Then she turned without a word and walked on. And as the car resumed its journey there wasn't much conversation there, either.

Investigation has shown that there is a smaller number of bacteria in New York's subway air than in the outside atmosphere. Presumably the bacteria are crowded out by passengers.

Should Not Feel Discouraged.

So many people troubled with constipation and indigestion have been benefited by taking Chamberlain's Tablets that no one should feel discouraged who has not given them a trial. They contain no pepper or other digestive ferments but strengthen the stomach and enable it to perform its functions naturally. Obtainable everywhere. adv.

Villa has some of the qualities of the gila monster, but not the staying qualities.

There is more Catarrh in this section of the country than all other diseases put together and that is the sad part of it. It is incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a tea-spoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, Inc.

Take Hall's Family Pills for constipation.

Postmaster may be made, but toastmasters are born—but not so very frequently.

From a small beginning the sale and use of this remedy has extended to all parts of the United States and to many foreign countries. When you have need of such a medicine give Chamberlain's Cough Remedy a trial and you will understand why it has become so popular for coughs, colds and croup. Obtainable everywhere. adv.

The big idea in offering Chero-Cola to mankind is to provide a perfectly delicious, refreshing beverage, that is absolutely pure and wholesome.

In order to be sure the real goodness of Chero-Cola gets to the consumer, it is sold only in the original bottle, sterilized, carbonated and sealed at the plant. No Chero-Cola syrup is sold in bulk.

It is not on sale anywhere except in a Chero-Cola bottle with the label on it. Each bottle bears the Chero-Cola label that prevents the possibility of substitution. You get what you ask for.

Each bottle is sterilized and filled by machinery. The contents are clean. The Syrup has not even a chance exposure to contamination or adulteration.

Each bottle is absolutely uniform in flavor. The syrup and the carbonated water are accurately measured by machinery. There is no guess work in the manufacture of this beverage.

When you drink Chero-Cola from the original labeled bottle—through a straw—you have the satisfaction of knowing your drink is as pure and clean and refreshing as it can possibly be made.

Many families are serving Chero-Cola in their homes. They keep it in the refrigerator at all times—a real treat for every member of the family and for the unexpected guest.

Keep Chero-Cola in your home. Buy it by the case from your dealer.
