## Democratic State Convention.

The Democratic State Convention held in Raleigh last Thursday is reported to have been one of the biggest ever held in the State. Harmony and enthusiasm were ruling features of the occasion.

Owing to the nominations through the primary system, there was no nominating of candidates for office.

Senator Simmons was there and made the keynote speech of the occasion. It was a great speech.

The convention in its platform endorsed the National and State Democratic administrations and a continuation of the splendid civic movements inaugurated by the Democracy.

Delegates to the National Convention were elected. For the State at large—Senators Simmons and Overman and Gen. J. S. Carr. Mr. E. S. Parker, Jr., of Graham was elected a delegate to the National Convention for the 5th Congressional District, and Mr. J. H. Vernon of Burlington was put on the State Executive Committee.

### Save Clover Seed.

If there is a quicker and cheaper way to improve land, and at the same time produce a profitable crop each year, than by turning under crimson clover, the farmers of the State have not been able to find it. Of course, stable manure is the best of all things but we need not consider that for more than a few acres.

Last year the amount of crimson clover sown was perhaps double that of any former year, but it was not half what it should have been for the high price of seed. The indications are that the seed will be high again this year. This large expenditure of money each fall, when money is scarce, should not be continued from year to year since such simple and economic means of saving seed have been devised.

Every farmer who is growing crimson clover should arrange to save seed enough for planting a large acreage for himself this fall, and should also save some to sell to his neighbors. We now have a clover seed stripper that takes the seed off and leaves the stalks standing in the field. Any farmer can make the machine at small cost. All that is needed is two wagon, or old buggy wheel on an axle, a pair shafts, and a box with sawed wood teeth. The box is hung under the axle and is adjustable to height of the clover.

We are mailing the Farmers Bulletin, No. 646, which gives the details of the machine. It gives also much other valuable information concerning the value and growing of clover. Any other farmer who desires a copy of this bulletin can obtain it by applying to his County Farm Demonstration Agent, or by writing for it to Mr. Bradford Knapp, U. S. Department of Agriculture, Washington, D. C.

Last year the Demonstration Agents induced the making of 120 of these machines. The machines worked very satisfactorily. In a number of instances two or three farmers clubbed together in making a machine, thereby reducing each one's cost. During the cold rainy days of winter is a good time to make these machines so that they will be ready for use at clover seed harvest time. Farmers that have good home-grown seed this fall will be more likely to plant than if they had to purchase seed. In several respects these seed with the chaff attached are preferable to clean seed purchased on the market.

## Graham Township S. S. Convention.

The Sunday School Convention last Saturday was the best Graham township has ever held. It was interesting from beginning to end. In the morning the addresses were given by Rev. R. P. Ellington of Mt. Olive and Dr. W. A. Harper, Pres. of Alamance College, and the session was held in the Baptist church.

In the afternoon the session was held in the Christian church and was devoted principally to business routine.

At night the session was held in the Presbyterian church, where there were addresses by Mr. J. Norman Willis of Greensboro and Mr. W. E. Sharpe of Burlington.

The addresses were excellent and highly pleasing and have had many complimentary returns.

Officers for the ensuing year were elected as follows: Pres. Prof. C. W. Rankin, vice—Pres. L. Alford, Secy. Phil S. Dixon, Executive Committee—A. P. Williams, chairman, Walter R. Harden, J. Dolph Long.

It was decided to have a union meeting of the Sunday Schools on each fifth Sunday, which will be greatly aided in the promotion of Sunday School interest, and the Convention will take up the Graham Relief Work under the conduct of the officers of this organization.

The music for the day was furnished by the Graham Choral Union which was one of the most pleasant features of the session and thoroughly enjoyed by everyone.

### Ught Calomel Makes You Dealthy Sick

### Stop Using Dangerous Drug

Before it Salivates you!  
It's Horrible!

You're bilious, sluggish, constipated, and believe you need vile, dangerous calomel to start your liver and clean your bowels. Here's my guarantee! Ask your druggist for a 50-cent bottle of Dodson's Liver Tone and take a spoonful to-night. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick, I want you to go back to the drug store and get your money.

Take calomel to-day and tomorrow you will feel weak, sick and miserable. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless. Give it to your children. It can't salivate, so let them eat anything they want afterwards.

### Floats at County Commencement.

Led by marshals, of whom Mr. E. P. McClure was chief, mounted on spirited steeds, the grand parade on County Commencement Day, April 22nd, moved forward. The steps of footmen and horsemen were quickened as the Oneida Band of Graham filled the air with sweet and cheerful music.

Mr. and Mrs. McAdams of Graham, dressed as Columbia and Uncle Sam, riding on beautiful, spotted white horses, came next followed by the eighty-one graduates of the rural schools of the county.

The thirteen original Colonies, led by the McCray school, representing Virginia Colony, followed. Their float was a boat with sails unfurled, representing the first permanent settlement in America. It was attractively made and well suggested a sailboat as the faithful steed steadily drew it down the street. The brave Capt. John Smith and the Indian maid, Pocahontas, were two famous characters on this boat.

The new truck of Glencoe Mills, tastefully built to represent the Mayflower, who brought the faithful Pilgrim fathers to Massachusetts, glided along back of the Virginia Colony.

Their color scheme was gray and white. The sails were white with a border of gray. All the girls wore the Pilgrim caps of gray, which they wore all the day, while the boys wore Pilgrim hats.

Nothing was more beautiful than the King's school, as it were, rowing down the street in a beautifully decorated bateau. The float was actually built so as to represent the boat being rowed down the stream by the friends—the boys of the school—while Roger Williams and Ann Hutchinson occupied a conspicuous place in the artistically made boat. Should you have looked carefully the Indian chief, Tomichichi, would have been found in this happy group.

The grave Fort Saylor school, represented by the Eureka school, came next in good effect and was very suggestive of Connecticut.

Shallow Ford, in her complete color scheme of yellow and white, bore the float by name New Hampshire. John Mason and Ferdinand Gorges, in costumes characteristic of the times, occupied an important place on the float.

Maine, famed for its lumbering, was represented by the Bethany school. The school rode on a log wagon beautifully decorated with pine and on which had been placed a long log.

Lord Baltimore, buy'ng land from the Indians, was uniquely carried out by the Woodlawn school. A glance at their float would carry the onlooker quickly back to the pioneer days when the Indian wigwam was almost the only home found in our country. The teachers and the pupils wore uniform head dress characteristic of the colony. These they proudly wore throughout the day.

Hawfields stood for Carolina. Our hearts were made to feel keenly the throbs of State patriotism as the "Edenton Tea Party", so beautifully represented, passed along in line of parade.

Along came Mahan with Gen. Oglethorpe and his colony, suggesting the early settlement of Georgia. Red and white was their color scheme, and upon the whole it was very pretty.

As the "Halfmoon" in her colors of white and gold came gliding along as if she were sailing down the Hudson, in the days of Henry Hudson, one was made to exclaim, How beautiful! Sidney school gets credit for this.

Eldermont represented New Jersey and had an attractive float and a large attendance.

Ye Quakers and ye Quaker bonnets and dresses so uniquely carried out by the Spring school was indeed attractive. No less significant was their float representing Pennsylvania, the Quaker Colony, and William Penn's treaty with the Indians under the great tree.

Along came Sylvan with the "Raising of the First Meeting House" Quakers drove the team, and as one of the pioneers kept watch over the Indians with his gun the others were busy constructing the meeting house. This was complete in its plan and indicative in its appearance.

Nothing was more complete than "Ye old Tyme Skule", represented by the Cedar Cliff School. This float was such that would bear careful examination and then one would not be able to tell but that it had been built fifty or more years ago. The stick chimneys made of mud and sticks was even black with smoke that came from it years and years ago, and yet it had been built for only a day.

Complete in arrangement and most pleasing to the eye was the North Carolina Seal, as carried out by the Fair Ground School. Nothing was more beautiful. "The Goddess of Wisdom" was pleasingly represented by the Highland School.

Glenn had a float indicative of the causes of the Civil War. Girls representing the seceding States were grouped in the center of the float. Placed here and there were the slaves, while Abraham Lincoln stood sentinel in front in all his wisdom and dignity.

## Two-Sided Difficulty.

### Chapel Hill News Letter.

Quite a sort with the problem of job-less men and man-less jobs, is the problem of landless men and manless land.

We have in North Carolina 22,000,000 idle acres that need to be developed by home-owning farmers. On the other hand, in 1910 our tenants and renters with their families in the town and country regions made a landless, home-less population of 1,158,000 souls.

How can we get these people settled down upon land of their own? How can these idle acres get into cultivation by home-owning farmers? How can the landlords and landless people come to an agreement?

These people need the land and this land needs the people. What are the difficulties in the way of bringing together the two ends of this problem?

### Are Land Owners to Blame?

As a matter of fact, are landlords holding land out of use for speculation rising in value? Are they greedily aware of the fact that farm land in North Carolina increased in value \$201,000,000 during the last census period? Or that the increase in land values in the South Atlantic States last year was 19 per cent? Do they hold desirable farm land at prices beyond the reach of industrious, thrifty tenants? In many instances, Yes. In many other instances, No.

For instance, we found a landlord in Richmond county the other day who really wants to sell off 5,000 acres of good farm land at a reasonable price, on comfortable terms of payment. He is not bothering himself to sell it, and nobody is bothering him to buy it. Such is the situation in a county in which two-thirds of the white farmers are tenants!

Sometimes ago, we had a letter from a landowner in Alabama saying, "For six months or so I have been advertising for good white settlers upon a 7,000 acre tract, cut into farms of any size desired, at \$10 an acre, on almost any reasonable terms of payment; but so far only one white farmer has responded. I conclude that white farm tenants in this State do not want to own farms. If I offer this land to negro farmers it will go like hot cakes. Would you do it, if you were in my place?"

### DEATHS.

Mr. Aaron McInshon died Tuesday morning, 2nd inst., at his home in Newlin township. He was in his 87th year, a good citizen and one of the oldest men in his community. He was born Dec. 31, 1829.

Mr. Henry Sykes died suddenly at his home here about 9 o'clock last night of acute indigestion. He was only sick between 2 and 3 hours. Just before night he was down town making some purchases. He was about 70 years of age and is survived by several children.

Mr. Sam'l M. Cooper died at his home in Albright township Saturday, April 28. Just a week before he fell through his barn loft floor by getting upon a loose-ended plank. He fell upon a small tub and fractured several ribs, and sustained other injuries. He suffered for a week and passed away. Mr. Cooper was about 60 years of age. He was well esteemed by his neighbors and acquaintances. His wife and several children survive him.

Mr. Alexander Patton, known by his neighbors as "Sandy" Patton, died last Thursday, April 27th, at his home in the Hawfields community, aged 68 years. He had been in failing health for quite a while. Besides two brothers, S. Woods Patton of Mebane and James R. Patton of Durham, he is survived by his widow, two sons and three daughters. He was one of the county's best citizens. The interment was at Hawfields of which church he had been a member since his young manhood days. The funeral was conducted by his pastor, Rev. J. W. Godman.

When President Wilson delivered his famous message to Congress recently stating that he had notified Germany that her illegal and inhuman warfare against merchant vessels must cease or relations be severed, he was overwhelmed with telegrams of approval and endorsement from every state, and every important city in the country. Then the hyphenated ones got busy and sent a half ton of telegrams to Congressmen and Senators protesting against war. But these German telegrams were nearly all alike, showing that the Copperhead society had written the telegrams and passed them along to Congressmen.

## Annual Slaughter in the United States.

The modern world is a dangerous place in which to live. The figures showing the number of deaths from violence in recent years is appalling. Last year, in the United States alone, 75,000 persons were killed in accidents. Nearly 3,000,000 more were injured. About 35,000 workmen were killed while at their tasks. On the railroads of the country about 10,000 persons are killed every year, and 20 times that number are injured. On the streets and roads, 6,000 deaths are caused by vehicles, the automobile being responsible for half this number of victims.

Some Americans would have us all settle off the sea as soon as their friends in Europe begin fighting.

Both sides are achieving victories at Verdun and incidentally filling all the hospitals and graveyards.

On any showdown this country should be able to demonstrate that it has learned a number of things since the affair with Spain.

Neither Field Marshall von Hindenburg nor Gen. Joffre receives as much money for his services as does Charlie Chaplin. But they don't get knocked down as much as Charlie.

Members of Congress and some others would be very glad to discover some system of national defense that would operate comfortably and by proxy.

When a man quarrels with his wife he seldom gets a chance to say anything these days.
