GRAHAM, N. C., June 15, 1916.

At St. L. us yesterday while the resolutions committee was in session, Samuel A. King, of Utah, rose and made the statement:

"I called on William J. Bryan today and asked if he would submit any planks." He replied:

"I have no planks to offer but one, and that is the President's. Determine what he wants and his plank will be mine. I expect to go before the people in his behalf on your report."

While a great many feel that Mr. Bryan made a mistake and criticize him for withdrawing from Mr. Wilson's cabinet at the time he did, Mr. Bryan knows now that Mr. Wilson is a safe and not untried leader.

A day or so before June 3rd, the day on which the State Primary was held, we received a marked copy of a newspaper published at Kernersville containing a marked article which was a tentative announcement of the candidacy of Hon. Porter Graves for the Democratic nomination for congress two years hence to represent the Fifth Congressional District.

The slogan of the Democrats at St. Louis is "Peace, Prosperity and Preparedness." These appeal to the sense of the American people, the first two they have and the third is under vigorous construction.

"Hughes and Harmony" is being promulgated as the slogan of the Republican campaign. The prosperity under the Democratic administration has knocked into smithereens that old something they used to have about "dinner pails."

There isn't a shadow of doubt about the nomination of Woodrow Wilson to succeed himself, and we don't believe there is any doubt about his re-election. He has steered the ship of State safely in the great trying times of the past four years and the people will hardly risk the result of swapping horses in the middle of the stream.

Mr. Roosevelt is taking time to deliberate before accepting the nomination given him by the Progressives. Before coming to a conclusion he doubtless wants to see what Mr. Hughes is going to do and how he will deport himself. Then he will be heard from—he can't keep quiet.

It is useless for the Republicans to further deny that Marion Butler is their "boss" in North Carolina. He ran Duncan out in their State Convention and at Chicago he took precedence over Congressman Britt, the only Republican in Congress from this State.

On June 22nd a statue to the great commoner, Zebulon Baird Vance, will be unveiled in Statuary Hall in Washington City. On this occasion many prominent North Carolinians will be present to witness the impressive ceremony.

The Democratic convention is rather more of a ratification meeting than anything else, and it is confidently believed that the experienced and thoughtful men who compose that great body will do nothing that will hazard success in November.

The woman suffrage agitators were at Chicago in force trying to gain recognition from the national Republican convention. Despite a rain-storm and a cold wind, about 5,000 of them paraded Wednesday.

President Wilson has signed a resolution passed by Congress authorizing him to invite Spain and Latin American countries to participate in an exposition in 1918, celebrating the 200th anniversary of the founding of San Antonio, Texas.

Raleigh News Letter

Cor. of The Gleaner.

Raleigh, N. C., June 13.—The investigation ordered by Gov. Clegg into conditions at the Central Hospital for the Insane at Raleigh, will be resumed on Tuesday, June 20th, and unless the numerous and varied charges already filed specifically (with others to be added, it is reported) are disproved or fail to substantiate, the directors will be forced to wield the sanitary broom at a lively clip in the near future.

Taking The Lid Off. The inquiry lasted only one day when the adjournment to June 20th, was taken. Postponement became necessary because of the informality of "inviting" scores of witnesses (namely in the complaint) to come and testify at their own expense.

An attempt to prove something by one of the employees of the institution resulted in a miserable failure to get any thing out of him in the way of "constructive evidence." The necessity of securing disinterested witnesses became so apparent that steps were then taken to get them here at the next hearing, and Gov.-elect Bickett is expected to develop the truth of the situation at that time.

Nobody is "nussing" a grievance over the result of the State Primary that I know of. The defeated aspirants and all their friends have no kick to make about anything, for there was no "cheating" and no "political assassins" on duty to do anybody's "dirty work."

Now all this looks like "easy sailing" for the party craft this year. There lies the danger, and if the crew goes to sleep there will be a wreck. So, it becomes necessary to keep awake and so avoid both the shoals and snags of ordinary navigation and the mines and torpedoes and submarines of the enemy.

There was approximately 50,000 democratic voters who did not participate in the State Primary. The normal republican vote is greater than the combined vote for all the candidates for each office cast by the democrats in the recent primary.

It requires no field glass to see, therefore, that there is work to be done, and the Democratic State Committee is now charged with the bulk of it. Chairman Warren will have a task worthy of his activities and there will be no lack of purpose and effort on his part.

On To St. Louis. The Tarheel delegates and visitors to the Democratic National Convention at St. Louis this week are on the ground by this time and the formal nomination of Mr. Wilson and the adoption of a bang-up, patriotic, non-jingo platform will be the news due to trickle along the wires about the time you are digesting this letter.

State Primary Figures. The State Board of Elections was necessarily late in completing the canvass of the vote of the primary on June 3, because of the

Galomel Salivates and Makes You Sick. Acts like dynamite on a sluggish liver and you lose a day's work.

There's no reason why a person should take sickening, salivating colomel when 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for colomel—it is a pleasant vegetable liquid which will start your liver just as surely as colomel, but it doesn't make you sick, and cannot sallow.

tardiness in sending in the returns from some of the counties, the work not having been completed until Saturday evening.

The official figures show that there were over 90,000 votes cast for the democratic candidates, and as predicted in these Letters two weeks ago, Commissioner of Labor and Printing Shipman, Insurance Commissioner Young and Corporation Commissioner Lee received the largest majorities.

Mr. Shipman's majority is 36,971. He carried 93 of the 100 counties, including the home county of his opponent (Gaston), and led the ticket in his home county (Henderson). His majority in the tenth congressional district is 5,282, Buncombe county giving him the largest majority, 2,049. He carried every congressional district in the State.

Corporation Commissioner Lee polled a big vote also, his majority in 99 counties being 34,481. He carried every congressional district, including his own district, in which his majority is 1,491. Ins. Commissioner Young's vote is even larger, and his majority in 99 counties is 47,395, carrying all the counties except three.

Bickett's majority is nearly as large as was claimed for him by Manager White, about 25,000. Grimes and Graham won over all competitors, but Manning fell short of a majority, with Jones second in the race for Attorney General. But there may not be any second primary as Mr. Jones may not demand it.

Validity Of A Rubber Stamp Signature.

New York, April 25, 1916.—What is the status in New York of a signature made with a rubber stamp? It seems to us that there is evident danger in accepting a signature of this kind. How is it generally regarded?

Reply.—Any one who indorses a check or signs any other document is bound by his signature, whether it is made with pen or pencil, a rubber stamp, or in any other way. The difficulty arises only when an attempt is made to show that the signature is his.

Every friend of the primary law, as well as its critics, owe it to themselves and the party to be vigilant—more vigilant than ordinarily at this campaign.

The North Carolina Association of Insurance Agents, in session at Greensboro last week, elected W. E. Sharpe of Burlington president and Ray Johnson of Winston-Salem secretary and treasurer.

Emmett Murry, in charge of a road construction crew at work near Marshall, Madison county, was shot Saturday by Enoch Rector, a farmer. Murry was building a bridge for the county. Rector thought the bridge was too far on his land. Murry told him to go to the county commissioners and Rector fired on him, the report says. Murry is in an Asheville hospital seriously wounded.

News comes from Hayesville, Clay county, that Robt. and Oscar Henderson were killed by revenue officers Friday night just across the North Carolina line, in Union county, Ga. The officers were searching for a blockader, it is said, when they became engaged in an altercation with the Hendersons, who are alleged to have attacked and cut the officers with knives, which resulted in the killing. One of the officers was J. H. Penland.

Congress has passed a bill to make Winston-Salem a port of delivery. The city was made a port of entry by the Treasury Department several weeks ago. A port of entry provides for the transfer of goods from one bonded warehouse in the country to another, but the port of delivery provides for the immediate transportation in bond of any goods from foreign countries without appraisal at the seaport. This means that goods from foreign countries can be sent direct to Winston-Salem, appraised there and the duties collected.

The Kentucky Prison Commission paroled Beach Hargis, who was sentenced to life imprisonment a number of years ago at Jackson, Breathitt county, for the murder of his father, Judge James Hargis. The latter was a noted leader of the feuds in Breathitt county.

Canning Club Contest.

Premiums are to be given for products canned or preserved according to club recipes and packed according to club rules and regulations. Quality rather than quantity will be stressed.

Two deputy sheriffs and two negroes were killed and two deputies seriously wounded Tuesday night at Beckley, W. Va., when a mob composed of negroes attempted to take three negro prisoners from a party of officers. Mob leaders, it is claimed, thought an attempt was going to be made to lynch the prisoners and opened fire on the deputies.

There is more Cataract in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Cataract to be a constitutional disease, and therefore requires constitutional treatment.

Hall's Cataract Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials. Sold by J. C. HENNEY & CO., Toledo, Ohio. Sold by Druggists, etc. Make Hall's Family Pills for constipation.

The Spanish Moors. When the people of the rest of Europe were little better than barbarians the Spanish Moors were in the midst of a splendid culture. As early as the tenth century this country was the source of learning for all Europe. Their libraries, schools, arts, sciences, luxurious regiments and all round material and intellectual advancement differentiated them from the rest of Europe as clearly as ancient Greece was from the peoples that surrounded it.

Driving it in. The bright newspaper wit who is on the job twenty-four hours a day recently heard a lady remark on the stability of posts in a public building which had but one nail driven in each. "That's nothing," he cut in. "Look at the magnificent physical organization which we call a human body, and yet it is all put together with only twenty nails."

The lady's expression showed it was not a point which needed to be hammered in.—Baltimore American.
