Do You Like to Get Tired In the Kitchen?

The way some women hang on to their old-fashioned kitchens one would think they liked to wear themselves out doing the work. The miles of steps they take getting three meals a day; the unnecessary trips to pantry, cellar and storeroom is drudgery that makes young women quickly grow old.

A million women in America won't submit to such slavery. They bought a Hoosier and do the same work easier and in half the time.
