

ISSUED EVERY THURSDAY.  
**J. D. KERNODLE, Editor.**  
 \$1.00 A YEAR IN ADVANCE.  
 ADVANCE PAYMENTS.  
 The square (1 in.) time \$1.00. For each subsequent insertion 50 cents. For more space at longer time, rates furnished on application. Local notices 10 cts. a line for first insertion; subsequent insertions 5 cts. a line. The most desirable advertising space must be paid for in advance.  
 The editor will not be responsible for news expressed by correspondents.  
 Entered as the Postoffice at Graham, N. C., as second class matter.  
**GRAHAM, N. C., Feb. 8, 1917.**

**WAR.**

War is feared—it is fearful. Fearful in destruction of life and cost in treasure—facts all who are old enough to calculate or observe know.

That America may be drawn into the world-war is nearer a realization now than at any time since the outbreak in Europe.

Apprehending that real war may materialize at anytime, the President and his advisers are taking every precautionary step. Congress, regardless of political affiliation, is loyally and patriotically supporting Mr. Wilson in his preparedness program.

There is a hope, however, among all good people that the United States will not have to engage in real war.

Since the first day of February, when the German undersea program went into effect, more than fifty merchant craft, mostly English, have gone to the bottom, and this morning's papers reported more than a score sunk in the past 24 hours, but America is not affected yet. The nearest an "overt act" that would possibly bring the United States into war was the sinking of the California yesterday afternoon off the coast of Ireland. One American was aboard, but he was saved.

**FORTY-TWO YEARS OLD.**

Tomorrow is THE GLEANER'S birthday anniversary. The first issue of THE GLEANER appeared on the 9th day of February, 1875. Forty-two years is a long life for a newspaper. Only once in that time, and for only one issue at that, save and except Christmas and Fourth of July for a few years in its early life, has it failed to appear weekly. For more than 30 years it has appeared every week in the year.

The paper has tried to serve its patrons faithfully and to deal fairly with all. To the end that it may do even better in the future than in the past, it is earnestly requested that every patron will promptly contribute the little mite he is due, and thereby help the paper to be of better service.

The friends and patrons of THE GLEANER have its best wishes for another full year of happiness and prosperity.

**BUYS CONTROLLING INTEREST IN BURLINGTON NEWS.**

Mr. W. P. Ezzell, a newspaper man of experience and a clever gentleman, who has had the business management of the Burlington News for the past two years, has acquired a controlling interest in that excellent paper. He has been in the newspaper and printing business since a mere lad and knows the business from the bottom up. He is well and favorably known throughout the county and The Gleaner wishes and predicts success for him.

Mr. O. P. Crowson, who has owned the larger share of the paper and conducted it for more than fifteen years, retains a small interest and will control its political policies.

**East River Bridges Guarded—New York Troops First.**

The East river bridges and points along the city aqueduct, New York, are guarded by strong military patrols. The military and the police are co-operating closely in working out an extensive plan of city defense. The naval militia has been ordered to protect the East river bridges. About 2,000 militia were ordered to patrol the aqueduct.

Governor Whitman announced that all of the 19,000 of the State troops would be held in readiness to take active duty upon a few hours notice. The New York troops are the first to be called out. In Massachusetts points the naval militia is being mobilized. Troops in this State from northern points are beginning to move toward the metropolis.

**Hughes Standing Behind the President.**

Charles Evans Hughes, who was guest of honor at the annual dinner of the New York alumni of Brown University in New York Thursday night, declared every loyal American would stand behind the administration "in this solemn hour" without a partisan thought. His declaration brought the diners to their feet, singing the "Star Spangled Banner."

"We are all Americans tonight, standing behind our President, on whom this great responsibility rests," said Mr. Hughes. "It is not a time to embarrass in any degree with private utterance those charged with this responsibility. They have the facts, they have the duty to perform. They have the sincere, loyal co-operation of every true American. The exigency of no nation can fix the limits of American rights."

**Independents in 65th Congress.**

A call to the independent members-elect of the Sixty-fifth Congress for a conference in Washington on February 6 was issued last week by Representative Charles H. Randall, prohibitionist, of California. Mr. Randall said the meeting was to be a preliminary one for discussion of the form and purposes of an independent conference "which may act unitedly throughout the sessions of the Sixty-fifth Congress."

"We shall undoubtedly insist upon progressive control and progressive legislation in the next Congress," he said.

It is understood the call was issued to Representatives Martin, Louisiana; Schall, Minnesota; London, New York; and Representatives-elect Miss Jewett, Rankin, Montana; M. Clyde Kelly, Pennsylvania; and Alvan T. Fuller, Massachusetts.

With Democrats and Republicans about equal in numbers, the attitude of the independents is expected largely to control the House. The latest classification shows 215 Democrats, 215 Republicans, two Progressives, one Independent, one Prohibitionist and one Socialist.

**Refugees Follow Americans Out of Mexico.**

More than 1,500 refugees carrying such of their personal possessions as could be transported, followed the American expeditionary force when the troops began the march out from five miles behind General Pershing's column, they are proceeding on foot in primitive schooners loaded in automobiles toward the border.

National Guard encampments at El Paso, Texas, which have been abandoned since the troops went home, will be used to house the refugees. A large number of vacant tent houses and mess shacks at the camp of the Pennsylvania troops have been offered to the Mormon leaders.

**Henry Ford Offers Plant.**

Henry Ford, the automobile manufacturer and peace advocate of Detroit, was in Washington Sunday conferring with President Wilson and other officials of the government. It is reported that Mr. Ford offers the use of the Ford plant to the government free of charge.

**Rome Receives News of Break With Rejoicing.**

News that the United States had broken off diplomatic relations with Germany, was received in Rome with the greatest rejoicing. The action of the most powerful of neutrals is construed as implying the moral support of the United States for the entente allies.

Mrs. A. Hales was burned to death Saturday afternoon at her home near Charlotte. Her clothing accidentally caught fire.

**Ugh! Catamel Makes You Deathly Sick**

Stop Using Dangerous Drug Before It Salivates you! It's Horrible!

You're bilious, sluggish, constipated, and believe you need vile, dangerous calomel to start your liver and clean your bowels. Here's my guarantee! Ask your druggist for a 50-cent bottle of Dodson's Liver Tonic and take a spoonful to-night. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick, I want you to go back to the drug store and get your medicine. Take calomel to-day and to-morrow you will feel weak, sick and nauseated, you'll lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling great! It's perfectly harmless. Give it to your children any time. It can't salivate, so let them eat anything they want afterwards.

**THE BREAK WITH GERMANY.**

**Comments of American Leaders—Peace Hoped For.**

"I do not know how the President could have one otherwise," Senator Overman declared, "since Germany violated the promise in reply to me last after the sinking of the Sussex last summer. This message and the severance of diplomatic relations do not mean war. While it makes the situation tense, I agree with the President, it might avert war. Germany has no right to say where, we shall go on the high seas. I hope and pray to God we will never be called upon to declare war with Germany. She can avert it if she called upon to declare war. It is up will."

"But for this act, she might have taken it for granted that she could do anything with impunity. This she knows she can't. Congress will hesitate, of course, before declaring war. It will not do unless Germany commits some overt act that would compel us to do so in the name of the flag, integrity and welfare of our country—unless for our sacred honor it becomes necessary to do so."

"I heartily approve of it," Senator Simmons said. "There is no other alternative for this government. I do not believe there will be war between the United States and Germany, unless, in carrying out her programme, she disregards the rights of this government by sinking one of our ships or destroying an American life in violation of law."

Majority Leader Kitchin said: "I don't see how he could have done or said less under the circumstances. I am gratified that he gave Germany a clear chance to avoid conflict."

A dispatch from Santiago, Chile, says the breaking off of relations between the United States and Germany, although unexpected, has caused a great sensation among all classes. The attitude of the United States is approved. Between the Chancelleries of Argentina, Brazil and Chile there has been an active exchange of communications. Financial circles are much excited.

A Rome, Italy dispatch of the 4th says: Up to noon today the American Embassy had no official confirmation of the rupture of relations with Germany. The Ambassador, Thomas Nelson Page, visited the Foreign Minister, Baron Sonnino, and had a long discussion with him on the situation.

Experienced statesmen remarked with reference to the severance of diplomatic relations: "What America is giving us is moral support and fraternal sympathy which encourages us to feel certain of final victory."

The news from the United States has caused great enthusiasm throughout the country. The entire Italian press expresses gratification in having the United States on the Entente, which it declares is the "side of law, liberty and honor."

Theodore Roosevelt: "Of course I shall in every way support the President in all that he does to uphold the honor of the United States and to safeguard the lives of American citizens," he said. "Yesterday I wrote to the war department asking permission to raise a division if war is declared and there is a call for volunteers. In such event I and my four sons will go."

Leaders in Congress, without regard to politics, expressed freely their approval of President Wilson's course and of his address. Vice-President Marshall said: "The President has to deliver to other address he spoke of, you will find the sentiment of the country has crystallized behind him on the address he made today. The American people is an easy going people, but when it gets its back to the wall it will fight."

"I don't believe the President could have done or said less, and I am greatly gratified that he did not do so or more. He has given Germany the last clear chance to avoid conflict with the United States. All true Americans hope it is a chance she will take."

Senator Stone, chairman of the foreign relations committee: "I think there are two things we should do now as far as possible—keep our heads level and our mouths closed."

Senator Lodge, ranking Republican member of the Foreign Relations Committee: "I most thoroughly approve and cordially support the President in giving the German Ambassador his passport, and in recalling our Ambassador from Berlin."

Speaker Clark: "I do not think there is going to be any war. I do not think the Germans will blow up any of our ships. I think the President states the conditions exactly."

Republican Leader Mann: "I do not see how the President could do any less. I am very glad he did not purpose to do any more."

Senator Kern, Democratic Senator leader: "I believe the American people are behind the President to a man and Congress certainly is."

Senator Gallinger, Republican leader of the Senate: "Of course, if Germany sinks an American ship or takes an American life, we shall start up better than calomel and without griping or making you sick. I want you to go back to the drug store and get your medicine. Take calomel to-day and to-morrow you will feel weak, sick and nauseated, you'll lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling great! It's perfectly harmless. Give it to your children any time. It can't salivate, so let them eat anything they want afterwards."

**UNINCORPORATED BILL IS DOWN UNDER WAY**

**CITIES MAY ADOPT EITHER THE COMMISSION OR ALDERMANIC FORM.**

**WITH THE STATE LAWMAKERS**

Resume of the Doings of the General Assembly During the Past Week Told in a Brief and Interesting Way For Our Many Readers.

Raleigh. With the official bill for providing optional forms of municipal government under the constitutional amendments, introduced in the House by Representative Pegram, of Durham, and a duplicate of this bill on the hands of Senator Brenizer, of Mecklenburg, and his special Senate committee, for preparing a suitable bill or bills for the Senate on this subject, the work of developing the legislation necessary for governing the municipalities under the changed conditions is at last under way and progress is promised all along the line. The forms of government that may be adopted under the bills are aldermanic and commission. There are being worked out changes in the time for elections prescribed, some thinking that the late Summer is too late for the best interests of some of the cities. Especially are the citizens of Charlotte, Senator Brenizer's home town, anxious to vote this spring. This whole matter will be worked over within the next few days by Mr. Brenizer and his committee and then the bill will be reported to the Senate in both Houses for speedy enactment.

The House passed the Murphy bill for a state boiler inspector to work under the direction of the Department of Labor. An amendment to cut the inspection fee from \$50 to \$30 was killed. The Senate passed the bill by Senator Gray, of Forsyth, to increase the penalty for pistol toting so the first offense shall incur \$51 fine or 71 days in jail in subsequent offenses graduated in severity, second offense being \$100 fine.

A joint committee of the House and Senate heard argument on the Cleveland-Gaston county road over the Kings Mountain annexation matter and voted to report favorably the bill to validate the Kings Mountain election which 71 majority was given for annexing to Cleveland county. A suit was filed in the Superior court charging that the Cleveland forces practiced fraud in the election. The hearing was a lengthy one but both committees were practically unanimous for the Cleveland side of the controversy.

Another bill which will figure prominently was the school book bill. The purpose of this bill is to reduce school books for a period of five years. The following Senate bills passed final reading: Put Beaufort county under state debt primary law; real law for Lincoln and Catawba counties; provide prison board in Madison county; prevent depredations by domestic animals in Madison county; taxing dogs in Camden county; amend Rowan county dog law; protection of minors; gagging lodge house keepers leins on gagging law bills; amend charter of the State and penal institutions not under control of the state to amend their charters (a bill made necessary by the constitutional amendments); authorize auditor of Buncombe county to employ an assistant.

The House ordered printed the Anti-Saloon League prohibition bill, that was introduced by Representative Gardner, by request; and the House committee on liquor traffic, and the Senate committee on propositions and grievances, have agreed on a joint hearing on the bill February 7. It would limit liquors to two quarts of whiskey, or three gallons of beer or wine, per year and that strictly for medicinal purposes, obtained through most intricate and exacting red tape. Gardner, the introducer, said it is not education a bill as he would have introduced. A local prohibitionist that he is, however, he expects to support it in the main.

House bills passed final reading as follows: Amend Cherokee game laws relative to the closed season; repeal the 1915 act relative to the road tax in Richlands Township, Onslow county; amend the regulations as to the use of automobiles; the state by imposing additional punishment in cases of trespass by automobiles. The counties of Bertie, Bladen, Cherokee, Alameda, Avery, Polk and Pender were exempted from the operation of the act.

The education bill was reintroduced into the lower house. The purpose is to amend the bill in shape for discussion and save it from a parliamentary tangle. The House received from the Education Committee unfavorable reports on all bills for change in the present policy of appointing county boards of education, this action being taken as favorable to "status quo." Notices of minority report, at least of the Page and the Oster bills, was given consideration and the whole matter set for special order a week hence.

The following Senate bills passed final reading: Prohibit the misbranding and adulteration of drugs; regulate civil terms of court; prohibit the sale or advertising of remedies purporting to cure incurable diseases. Senator Warren put in a bill to divide the state into eastern and western judicial divisions with 24 judicial districts and a rotation in the service of judges, that will leave two judges always available for assignment by the Governor to hold emergency courts wherever needed to take the place of any unable to fill engagements.

You Know What You Are Taking When you take Grove's Tasteless Plain Tonic because the formula is plainly printed on every bottle showing that it is Iron and Quinine in a tasteless form. No cure, no pay—50c.

While no decision has been reached officially, there is a very decided sentiment in all official quarters to abandon the public ceremonies of inauguration on March 5th, and simply have the president take the oath of office in the White House on Sunday, March 4th. The army and navy reception at the White House probably will be abandoned.

Dr. E. Detchon's Anti-Diuretic may be worth more to you—more to you than \$100 if you have a child who soils the bedding from incontinence of water during sleep. Cures old and young alike. It arrests the trouble at once. \$1.00. Sold by Graham Drug Company.

**A Good Friend.**

A good friend stands by you when in need, Graham people tell you Don't Kidney Pills have cured me over seven years ago and again confirms the story. Could discuss for more convincing testimony.

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Don't Kidney Pills—the kind Mrs. Phillips has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y., adv.

Those who hate nasty medicine should try Chamberlain's Tablets for constipation. They are pleasant to take and their effect is so agreeable and so natural that you will not realize that it has been produced by a medicine. Obtainable everywhere.

**AT THE CAPITAL**

**Old Fashioned Democracy to Characterize Ceremonies.**

**BIG PYROTECHNICAL DISPLAY**

President Wilson is the first Democrat to succeed himself since the days of Andrew Jackson—Mrs. Wilson and Mrs. Marshall to accompany husbands in inaugural parade.

Washington is rapidly completing its preparations for the second inauguration of Woodrow Wilson as president of the United States. The occasion will present the first instance of a Democratic president succeeding himself in the White House since the days of Andrew Jackson. This is one of the reasons why exceptional efforts are being put forth to make the ceremonies setting and impressive and at the same time characterized by genuine old fashioned Jeffersonian democracy.

President Wilson has notified the inaugural committee that he does not favor the customary inaugural ball, and accordingly that feature will be eliminated. Instead of the evening following his inauguration into office there will be presented on the famous White Lot, directly south of the executive mansion, a beautiful pyrotechnical display designed to itself to create a lesson in patriotism.

The House voted down a bill to provide for the care and supervision of children on playgrounds in Polk county. House bills passed final reading as follows: Amend the Yancey road law; amend the law as to Mount Olive schools; amend the law as to the residence of the police justice of Asheville outside of the city; against operation of slot machines in Cabarrus county; amend the Harnett game laws; incorporate in a separate amendment to the bill to abolish the Madison county recorder's court, making its termination June 1 instead of February 1.

Representative Ferabee, of Camden county, procured immediate passage for a bill he introduced to authorize a special way across Diamond Swamp and another by Representative Hinton for bonds for the same purpose took its place on the calendar.

Senator Seales offered in the Senate, the State of North Carolina, providing machinery for amending the charters of charitable and penal institutions, through the Secretary of State, such as commercial charters are now issued or amended, the bill being one of those made necessary by the Constitutional amendments limiting legislation. The new machinery requires action by the trustees of the State, and the formal application to the State Department for the amendment desired.

The Senate passed a bill putting husband and wife on equally the same footing in suits for divorce. The House took under consideration the bill of Representative Clark, of Pitt, to provide for appeals from rulings of the Corporation Commission, a bill designed to meet such cases as that from Anson county, where there was possible any appeal from the ruling of the commission as to the location of the Ansonville depot of the Winston-Salem Southbound Railroad, under the ruling of the Supreme Court. The bill was killed, 95 to 7.

An especially notable bill introduced was that in the Senate by Senator Brenizer to provide a change in the occupying system of the State Department, such as in counties, cities and towns made necessary at this session by the adoption of the constitutional amendment, and Representative Dalton, in the House, pressed these matters with resolutions for a joint committee, to get busy on these bills.

The House bills passed final reading as follows: Abolish treasurer's office in Yancey; regulate deputy clerks in Cherokee, relating to automobile law and apply 90 cent tax to the county road law for Marsh Township, Surry county; amend the Pender road law. The House and Senate are both getting ready to press along the legislation as to counties, cities and towns made necessary at this session by the adoption of the constitutional amendment, and Representative Dalton, in the House, pressed these matters with resolutions for a joint committee, to get busy on these bills.

The education bill was reintroduced into the lower house. The purpose is to amend the bill in shape for discussion and save it from a parliamentary tangle. The House received from the Education Committee unfavorable reports on all bills for change in the present policy of appointing county boards of education, this action being taken as favorable to "status quo." Notices of minority report, at least of the Page and the Oster bills, was given consideration and the whole matter set for special order a week hence.

The strongest recommendation any article may receive is a favorable word from the user. It is the recommendation of those who have used it that makes Chamberlain's Cough Remedy so popular. Mrs. Amanda Gierhart, Waynesville, Ohio, writes, "Chamberlain's Cough Remedy has been used in my family off and on for twenty years and it has never failed to cure a cough or cold." Obtainable everywhere.

**The Best Recommendation.**

The United States Supreme Court will take a recess of four weeks from February 5 to March 5.

**For a Billious Attack.**

When you have a severe headache, accompanied by a coated tongue, lashing of food, constipation, torpid liver, vomiting of partly digested food and then bile, you may know that you have a severe bilious attack. While you may be quite sick, there is much consolation in knowing that relief may be had by taking three of Chamberlain's Tablets. They are prompt and effectual. Obtainable everywhere.

**AGAINST SPREAD OF GRIPPE.**

**Every Home Should Have Temperature Kept Below Seventy.**

**For the reason that grippé or influenza is now more or less prevalent throughout the State, the Board of Health is issuing a bulletin, calling attention to a number of things that a person can do to prevent this disease.**

The bulletin says that proper ventilation, temperature and sanitation as to offices and places of work have much to do with the spread of the disease, but that home conditions and the personal care of the body must be chiefly relied upon to prevent it.

**Overheated and overcrowded homes,**

"Overheated and overcrowded homes," says the bulletin, "which lack sunlight and fresh air are ideal places for this disease to spread. To avoid such conditions, which often exist unconsciously, it is necessary for every home to have an accurate thermometer and it should be somebody's duty to watch that thermometer and never let the temperature rise above 70 degrees. It would be more healthful to keep it between 65 and 68 degrees.

"In most homes, the old-fashioned way of sweeping is admirable. Dust is the airplane of the microbe. Wood floors should be wiped up with oiled cloths or mops and tacked down carpets should be cleaned with a vacuum cleaner or swept after bits of wet paper have been scattered over them.

"To keep the skin and circulation in proper condition is the next important step," says the bulletin. "Light weight clothing, fresh air in the bedroom, and a cold spray about the neck and chest in the morning usually renders the skin resistant even to draughts. Wet feet and thin soled shoes are cordial invitations to grippé. Overwork, as well as overeating and constipation, should be avoided. Alcohol, cold cures and heavy doses of whiskey and quinine are strictly to be avoided."

But what is most important in case you have grippé is to call a physician promptly. While waiting for him use simple home remedies as a hot foot bath, hot lemonade and a laxative.

**Accidents Are Decreasing.**

That accidents of all kinds are decreasing in the United States is the opinion of Mr. F. L. Hoffman in the November issue of Safety Engineering. He says that where there were 82,000 deaths caused by accidents in this country in 1913 that there will be approximately 75,000, or 7,000 less, in 1916. Of this number, he estimates that 14,000 of these deaths will be caused by falls, 11,000 by railways, 11,000 by vehicular accidents, mainly automobile accidents, and 8,500 by drowning.

Total automobile accidents in the United States have increased from 6.5 per million population in 1907 to 59.3 in 1915, but street car accidents have decreased from 38 per million in 1910 to 28 in 1915. The fire hazard continues to cause a large loss of life and accidental poisonings have not been reduced to the extent required.

"While the accident problem is slowly clearing up," says the State Board of Health, "there is not a more serious problem demanding attention from every point as this one does. Accidents befall bread winners more than any other class of people. They are a cause of dependency next to sickness. They are tragedy makers. Where there is one death due to an accident there are hundreds of injured men and women are often incapacitated for life.

The Board thinks that there should be a more general regard for and adoption of safety measures and that these should be enforced by legislation wherever the need demands it.

**\$100 Reward, \$100**

The readers of this paper will be pleased to learn that there is at least one cure for that disease which has been a great influence by constitutional conditions. The system thereby destroyed, Chamberlain's Kidney Pills is taken internally and acts through the blood on the microscopic organs of the body, driving out the poison and restoring the system to its normal state. The pills are manufactured at the bureau of engraving and printing and gold and silver coins are made at the mints. There will be an interesting display of counterfeits and counterfeiters by the secret service. This is a record of life and property will be shown by the display which now includes the life saving service.

**Franklin D. Safford, twice convicted of perjury, growing out of the "Oliver Osborne" case, was sentenced to six months in prison.**

Execution of the sentence was stayed until May 1st. Safford, who is in the early sixties, was accused of swearing falsely that James W. Osborne, a prominent attorney, had been the companion of Miss Rae Tanager on a visit to a New Jersey hotel, of which Safford was the clerk.

**Severe Cold Quickly Cured.**

"On December first I had a very severe cold or attack of grippe as it may be, and was nearly unable to get in bed," writes O. J. Metcalf, of Weatherly, Mo. "I bought two bottles of Chamberlain's Cough Remedy, and it was only a few days until I was completely restored to health. I firmly believe that Chamberlain's Cough Remedy is one of the very best remedies I have ever known what to do when I have an 'ordinary cold.' Obtainable everywhere."

**An amendment to the Yost law,**

prohibiting the bringing by any one person of more than one quart of liquor into West Virginia a month, was passed by a vote of 35 to 3. The measure has already passed to the Senate and now goes to the Governor. The bill provides for a sentence of from two to six months in jail and a fine of from \$100 to \$500 for the first violation and one to five years in the penitentiary for the second offense.

**Common Cold Not a Simple Matter.**

"Just a common cold is not a simple matter, for more reasons than one," says the State Board of Health. It is used by the cold and perfectly normal for the first one and then another of a family to have a cold all winter long. Today such a condition would be thought of in such terms as abnormal, disgraceful and dangerous.

"Colds are not to be trifled with, first, because they predispose to so many other diseases. They weaken the body and decrease its resistance making it easy for ordinary colds to 'run into' pneumonia, grippé, bronchitis, rheumatism, or tuberculosis. Again, there is danger of the cold organism getting into the blood stream causing fever and other complications.

"Another consideration not often taken into account with the 'common cold' is the economic loss it entails. Often times a cold will go through an office, school or store from the head to the janitor with the result that employees will be absent for a day or two or their efficiency so impaired they might as well be absent, and there will be vacant seats for a week at a time at school. Some one has estimated the loss due to colds to be greater than the aggregate loss from floods.

"To prevent colds," says the board, "is more or less a matter of personal hygiene, but to keep colds and avoid people with colds is a public health problem. The two most general sources of infection are the nose and a daily cold habit about the neck and shoulders is fairly effective, as is also temperance in eating and drinking."

**Trustee's Sale of Real Estate.**

Under and by virtue of a power of sale contained in a deed executed by T. L. Baskett on January 20, 1915, and recorded in the office of the Register of Deeds in the county of Alamance, North Carolina, in Book No. 85, pages 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284,
