

## For Weak Women

In use over 40 years! Thousands of voluntary letters from women, telling of the good Cardui has done them. This is the best proof of the value of Cardui. It proves that Cardui is a good medicine for women.

There are no harmful or habit-forming drugs in Cardui. It is composed only of mild, medicinal ingredients, with no bad after-effects.

### TAKE CARDUI

#### The Woman's Tonic

You can rely on Cardui. Surely it will do for you what it has done for so many thousands of other women! It should help.

"I was taken sick, seemed to be dying," writes Mrs. Mary E. Veste, of Madison Heights, Va. "I got down so weak, could hardly walk... just staggered around... I read of Cardui, and after taking one bottle, or before taking quite all, I felt much better. I took 3 or 4 bottles at that time, and was able to do my work. I take it in the spring when run-down. I had no appetite, and I commenced eating. It is the best tonic I ever saw." Try Cardui.

## FARMERS WARNED OF NEW SWINDLE

MAN IS ADVERTISING THAT HE WILL ORGANIZE FARM LOAN ASSOCIATIONS FOR \$500.

SMALL TOWNS MAKE RECORD

Ahead of Cities in Buying the Smallest Books—American Soldiers Lost on Tuscania Protected by Government Insurance.

Washington.—Another scheme for swindling the farmers of the United States has been discovered by the federal farm loan board. A man advertising himself as an authorized organizer of national farm loan associations is sending out advertising matter embellished with the national flag, stating that he will organize such associations at \$500 each, and will teach others the trick for a certain sum of money. His advertisements have reached farmers and business men over a large part of the United States. He claims to be busy organizing national farm loan associations that he needs help, but will take time to teach others for a monetary consideration.

All such representations are fraudulent. In order to borrow under the farm loan act, it is necessary for farmers to organize co-operative national farm loan associations in their local communities. It is a violation of a ruling of the federal farm loan board, published more than a year ago, for a national farm loan association or a joint-stock land bank to spend any money for promotion purposes. Associations thus organized will not be chartered by the federal farm loan board. Farmers are warned therefore against anyone asking a fee for his professed services in connection with applying for a loan under the federal farm loan act.

Results of the smilge campaign, which put books of theater admission coupons on sale in nearly every town and city in the country, show the small towns and villages far ahead of the cities in availing themselves of the opportunity.

Pilot Rock, Ore., was the first town in the country to send in a check. Lawrence, Iowa, a town of 900 population, took in \$100 before the first smilge book was received. Titonka, Iowa, with 250 population, bought \$88 worth of books, the largest sale in proportion to population yet returned.

The coupons in smilge books are exchanged by the soldiers for admission to entertainments in theaters built in the camps by the commission on training camp activities. Admission charges range from 10 cents to 25 cents, or from two to five smilge coupons.

Any American soldiers lost on the Tuscania transport were protected by United States government insurance and government compensation. Those who had not applied for insurance were covered by automatic insurance, which is payable to a wife, child or dependent mother. The automatic insurance aggregates about \$4,300, netting \$25 a month for 240 months. Insurance that had been applied for is payable to a much larger class of beneficiaries and can go as high as \$10,000, netting \$75.50 a month for 240 months.

The compensation in case of death, given by the government without charge and regardless of rank or pay, ranges from \$20 to \$75 a month, based on the number of dependents. Payments under the compensation feature of the military and naval insurance act

In case of death are payable to a widow, children, or dependent widowed mother.

The automatic insurance ceased on February 12, but the compensation feature of the act is a separate provision. The scale of compensation in case of death follows:

(a) For a widow alone, \$25.

(b) For a widow and one child, \$35.

(c) For a widow and two children, \$47.50, with \$5 for each additional child up to two.

(d) If there be no widow, then for one child, \$20.

(e) For two children, \$30.

(f) For three children, \$40, with \$5 for each additional child up to two.

(g) For a widowed mother, \$20. The amount payable under this subdivision shall not be greater than a sum which when added to the total amount payable to the widow and children, does not exceed \$75.

To meet the shortage of small silver change in Norway a large issue of one-crown notes (at normal exchange the Norwegian crown is worth 20.8 cents United States currency) has been put in circulation.

The United States public health service is carrying on a campaign along sanitary lines in areas adjacent to 28 military camps. Complete sanitary organizations have been formed to spread the disease from the civilian population to military forces, and to protect civilians from communicable diseases where they have occurred among troops.

The organizations include physicians, sanitary engineers, nurses, and laborers. Methods undertaken include inspection of all establishments handling food supplies.

The committee on public information has received the following excerpts from a speech in the German Reichstag by Herr Ledebour, joint leader of the independent socialists:

"Again has an opportunity been neglected to satisfy the world's longing for peace. It is plain that a step backward has been taken and that the political authorities have completely adopted the military views of the conservatives. It is very disquieting for friends of peace to hear the chancellor say that we now have a free hand in the west. Czernin's speech is a striking refutation of Herling's, for Czernin's speech is based on the basis of understanding, whereas the chancellor rejects them. We hope, nevertheless, that we shall soon have the negotiations, which Czernin's action permits us to expect. We cannot agree to Czernin's and Kuelmann's interpretation of the right of self-determination. We want general peace on a democratic foundation. The pretended popular manifestations in the occupied territory were brought about under the influence of the German administration. The creation of the kingdom of Poland was a tremendous mistake. The German government must give up its false methods, and we shall soon have peace in the east. The true opinions of nations can only be expressed by a referendum after evacuation. The Federal land party wanted to replace Herling with Prince Bischoff, but that is no longer necessary. Militarism has taken the day, and the proletariat must force peace on the basis of the reconciliation of all nations."

Women with a fluent knowledge of French are being trained in several cities for work in France as telephone operators with the expeditionary forces. They will not be sent overseas until they are ordered to go in groups from time to time. No information can be given as to the locality in which they will be stationed.

Men who are capable of handling horses are still wanted for the veterinary corps. They must be physically fit and not of selective-service age.

GIVES HUSBAND AND 3 SONS FOR COUNTRY

Little, Wis.—A husband and three sons for Uncle Sam's liberty forces is the contribution of Mrs. John M. Bennett, of this town.

With all the male members of her family preparing in various training camps for the fight for democracy and humanity, Mrs. Bennett and her two young daughters spend a great deal of their leisure doing Red Cross work.

### HOLD LIBERTY BONDS

#### People Urged to Retain Them as Permanent Investment.

Government Discourages Practice of Merchants in Accepting Them in Exchange for Merchandise.

United States treasury officials are seeking to discourage the practice followed by many merchants throughout the country of offering to accept Liberty bonds of the first and second issues at par, and in some cases at a premium, in exchange for merchandise. They hold that such practice defeats the primary object of the sale of the bonds, discouraging the general thrift movement and increasing expenditures, thus depriving the government of labor and material needed for war purposes.

"While I have no doubt that merchants are actuated by patriotic motives," said Secretary of the Treasury McAdoo, in a statement given out through the federal reserve banks, "I am sure that they have failed to consider the effect which the acceptance of self-determination would have upon the war effort. We are making the strongest effort to have these government bonds purchased for permanent investment by the people at large, to be paid for out of the past and future savings of those who buy them. Purchases thus made result in providing funds for the uses of the government, but they also effect a conservation of labor and material."

"When the bonds are exchanged for merchandise, the primary object of their sale is defeated, discouraging the general thrift movement. In addition to this, such bonds, when taken in exchange for merchandise, must in most cases be immediately sold in the open market. This naturally tends to depress the market price of the issue and makes it less easy to sell to others at the same rate."

Secretary McAdoo believes that the merchants of the country, upon a more careful consideration of the subject, will discontinue their efforts to sell merchandise and take Liberty bonds in payment for it.

### CONVICTS KEEP THEIR WORD

#### Warden Liberates 40 of Them for Holiday, and All Return to the Prison.

Rahway, N. J.—Warden Frank Moore of the state reformatory experimented during the holiday in permitting prisoners, after receiving their word of honor to return, to spend Christmas at home.

He liberated 40 of them and they all returned within the agreed time. "Burr the Buster," who is clever at jail deliveries, was one of the forty. Another was a young man who took a large turkey home to his mother.

His friends bade him good-by as he left Christmas night, believing his story of having business elsewhere. They did not know.

### Timber Sales on National Forests Doubled in Year

Sales of national forest timber in the fiscal year 1917 were more than double those of 1916, according to the annual report of the government forest service. The total amount sold exceeded 2,000,000,000 feet and is valued at more than \$3,715,000. During the same period about 727,000,000 feet were cut and removed, for which the purchasers paid \$1,507,803 into the federal treasury. The largest sales were made in Oregon, where about 688,000,000 board feet were disposed of.

In addition to the timber sold, approximately 118,000 board feet, valued at almost \$150,000, was cut under free use permit by more than 41,000 settlers living near the national forests and depending on the forests for firewood and building material to improve their homesteads.

The timber business on the eastern pine forest areas, while still small as compared with the western forests, showed a decided increase. More than three times as much timber was sold and more than twice as much cut in 1917. The material disposed of is largely of poor quality and its removal will improve the forest growth.

### Of Interest to Women.

British women are proving successful as veterinary surgeons.

The original model of Bartholomew's Hospital is now in possession of Mrs. Oliver Easton of Paris.

New York's subway has colored women porters who wear a quite natty uniform.

Mrs. Blanche Wagstaff, poet and traveler, has been appointed to the state charities board by Governor Whitman of New York.

Members of the New York Women's motor messenger corps receive first aid instructions at St. Luke's hospital.

### THE DOLLAR QUEST

Of the dollar you'll find  
There is many a kind  
While you seek it, as men have to do;  
And you should not neglect  
Some one to seek it, as men have to do;  
The kind it is best to pursue.  
And the dollar that works,  
There's the dollar that loves to assist;  
And just stands in its own right,  
When it ought to get out and enlist.

There's the dollar that thrives  
And the one that contrives,  
An indolent fancy to please;  
The dollar that grows in the hands of an improver case.  
There are dollars that grow in the hands of an improver case.  
There are those that stay home,  
They are built both for joy and regret,  
More or less, in the end,  
On the kind of a dollar you get.

### WHEN YOU HAVE A COULD.

It is when you have a severe cold that you appreciate the good qualities of Chamberlain's Cough Remedy. Mrs. Frank Crocker, of Panama City, writes, "Our 5-year-old son, Paul, caught a severe cold last winter and it was very bad and he had terrible coughing fits. We were greatly worried about him as the medicine we gave him did not help him in the least. A neighbor spoke so highly of Chamberlain's Cough Remedy that I got a bottle of it. The first dose benefited him so much that I continued giving it to him until he was cured."

Rev. H. B. Hemmeter, who has been president of Concordia College, Conover, for two years, has resigned and has accepted a pastorate at Rochester, N. Y.

### FEEDING FOWLS FOR MEAT AND EGGS

In feeding the flock an effort should be made to do so as cheaply as possible, consistent with the production of eggs. To accomplish this all table scraps, kitchen waste, etc., should be utilized. Scraps of meat or leftover vegetables which cannot be utilized in any other way make excellent feed. There are also many other waste products, such as beet tops, turnip tops, carrot tops, potato parings, onion tops, the outside leaves of cabbages, waste lettuce leaves, bread and cake crumbs, etc., all of which are relished by the hens and can be used to the best advantage. In saving the scraps and waste it is as well to select the scraps adapted for feeding to the flock and place these in a receptacle or pull of their own. Decomposed waste material or moldy bread or cake should never be saved to feed to the hens, as it is harmful to them and may cause serious bowel trouble. Sloppy material should be shoveled into a tub or thrown into their pull. It is also useless to put in such things as banana peels or the skins of oranges, as these have little or no food value. Any sour milk which is not utilized in the house should be given to the chickens. This should be done separately, however, by allowing the birds to drink it or by allowing it to clabber on the back of the stove and then feeding it in that condition. When the family's table waste is not sufficient for feeding the flock, it is usually possible to get some of the neighbors who keep hens to save material suitable for feeding. Many people are glad to do this if a small pail in which to place the waste is furnished.

Table scraps and kitchen waste are best prepared for feeding by running them through an ordinary meat grinder. After the material has been put through the grinder it is usually a rather moist mass, and it will mix with it some cornmeal, bran or other ground grain until the whole mass assumes a crumbly condition. The usual method is to feed the table scraps at noon or at night, or at both times, as may be desired, in a trough or on a flat surface. By scattering it the hens will eat up clean, and if the material is left after one-half or three-quarters of an hour it should be removed. If allowed to lie it may spoil and would be very bad for the hens.

With the table scraps it is well to feed some of the best quality feed given best as a light feed in the morning. Four or five handfuls of grain (about one-half pint) scattered in the litter will be sufficient for a flock of twenty or twenty-five hens. By hand-feeding the grain, as much as can be scooped up in the open hand, by scattering it in the litter the hens will be compelled to scratch in order to find the grain and in this way to take exercise, which is decidedly beneficial to them. If the house is too small to feed in, the grain can be scattered on the ground outside. A good grain mixture is usually composed of equal parts by weight of wheat, cracked corn and oats. Another suitable grain mixture is composed of two parts by weight of cracked corn and one part oats.

### Red Cross To Enter New Field of Service In Army Camps of America

At the suggestion of Secretary of War Baker, the American Red Cross is about to enter a new field of service in the army camps of the United States, a field in which there is already working in France, the Bureau of Communication between the men in the hospital and their families at home. This will be a Red Cross building a Red Cross house in every army in the country and securing for each house a man who will keep in personal touch with every man who is admitted to the camp hospital, as well as a sanitary and graphic force to handle the letters dictated by these men and to keep their families constantly informed as to their condition and progress.

Col. William Lawson Peck, General manager of the Southern division, has just received letters from W. R. C. K. Jones, Jr., director of the Bureau of Communications, and from Harry B. Wallace, assistant director-general of military relief, explaining Secretary Baker's plan and asking for suggestions as to the men in this division who are qualified for the position of responsibility at the camps. Colonel Peck announced Thursday at a meeting of his bureau directors that the Southern division will cooperate in every way with the national organization and that work would be begun at once to assist in carrying out Secretary Baker's plans.

The directors of the work in the Red Cross houses will be under the authority of the Red Cross Field Directors in the various camps, who in turn are under the supervision of Z. Bennett Phelps, director of military relief for the Southern division.

Secretary Baker says in his letter: "The American Red Cross has already established in France, in accordance with an army order, a service to keep families in America in personal touch with their boys, ill or wounded in the field. It is now proposed that this service be extended to the camps in the United States. American Red Cross representatives at the army camps would be available to accept daily lists of admissions and evacuations from the hospitals, and, so far as it is in accord with necessary army regulations, would be asked to talk with sick men. They would be expected to keep families constantly informed as to the condition and progress of the men in the hospitals, to write letters for men unable to write themselves, and in general to fulfill that clause of the Red Cross charter which designated the society as a medium of communication between troops in the field and their families at home."

### Red Cross Worker Honored By Nurses Association

Miss Jane Van De Vrede Nominated Director For 1919-1920.

Miss Jane Van De Vrede, of Savannah, director of the Bureau of Nursing, Southern Division, American Red Cross, has been nominated by the Nurses Association of the American Nurses Association, for the term of 1919-1920.

This is one of the highest honors that can be given a member of the nursing profession and comes as a great compliment to her long and splendid service. The nomination will be confirmed at the association convention the first week in May.

### Appropriations for Relief Work in France Announced by Red Cross War Council

The Relief work of the American Red Cross in France is already well under way, and appropriations for this work to the amount of \$30,519,299.80 have been made by the Red Cross War Council to cover the needs from the time when the United States entered the war up to April 30, 1918.

Of this amount, \$14,019,889.50 is for military relief, which will be used for everything pertaining to hospitals and hospital supplies, canteen service, and arrangements for the recreation and comfort of the American soldiers when on duty in France.

For civilian relief, including aid to refugees, care and prevention of tuberculosis, care of children, re-education of mutilated and blind soldiers and general relief to men in districts of the devastated area, a total of \$9,556,482.15 has been appropriated.

The bureau of supplies and other administrative matters will receive \$3,359,547.15. Under this head come all transportation facilities, the department of engineering, the expenses of 27 warehouses and insurance on goods stored therein, as well as all office expenses in France.

Under the head of miscellaneous activities, for which \$5,583,346.20 has been appropriated, come such things as relief of the families of sick and wounded French soldiers, all emergencies, the American ambulance fund, and general relief to the French people, the Red Cross health center and other similar work.

In addition to this amount, an appropriation of \$7,063,549.12 has been made for the purchase in the United States of supplies for shipment to France.

Of this appropriation, only a very small percentage goes in salaries to more than 34 of the Red Cross workers in France are volunteers, a great many of whom even pay their own expenses. It has been stated by the War Council that for every dollar donated to the war fund, \$1.92 is spent in direct relief, the .02 being interest.

### SLACKERS PREFER CRIME TO FIGHT FOR COUNTRY

Columbus, O.—During the past six months there have been more men between the ages of eighteen and thirty committed to state penal institutions than ever before. There have been fewer men over thirty committed than in recent years. It has been pointed out that this situation may be due to slackers committing petty offenses in order to escape military duty. There are about five hundred more young men confined than records of previous years show.

### OIL IS BIG FACTOR

#### Asset That Makes America Important as War Power.

##### As Valuable to Cause of Allies as American Men, Money and Munitions.

Washington.—If America's men, money and munitions did not constitute a vital asset in the cause of the allies against Germany, America would still be a friend in need. It could not provide ships or steel, she would still constitute a pillar of strength. The reason? Oil.

America produces more oil than all the rest of the world. And ships, engines, autos, and many other war factors are using oil as a motor fuel. Oil is needed as a lubricant for all the metals used in the prosecution of war. Its uses are so varied and so vital, indeed, that oil constitutes another of those commodities without which the war could not be won.

In 1916, for which figures have been completed and issued by the American Mining congress, the United States produced and marketed 281,104,104 barrels of crude petroleum. This comprised 67.2 per cent, or almost two-thirds, of the entire world production.

Other countries follow: Russia, 16,038 per cent; Mexico, 7,300 per cent; Dutch East Indies, 2,900 per cent; Roumania, 2,811 per cent; India, 1,922 per cent; and about 1 per cent each, Galicia, Japan and Formosa, Peru, Germany, Trinidad, Argentina, Egypt, Canada and Italy.

With this list in hand, it is easy to see why American oil is so important a factor in the prosecution of the war. Russian fields, if they are being worked for Germany's benefit. So are Roumanian fields.

Thus far, though prices have soared just as if there was a famine in oil, the American fields, including the Mexican, have sufficed to keep all the allies fairly well supplied. Students of war problems declare that America's oil supply will be practically as valuable in the last analysis as American men, money and munitions.

### SHIP VANSE LOST AT SEA

#### Few Vessels as Well Known to Passengers as Other Than Seafaring Men.

New York.—Somewhere in the Atlantic, tossed about like a cork and without lights or course, is the stanch ship Vanse, the pride of Capt. Jacob O. Samuelson, who was forced to desert her five days after a terrific storm snapped off her masts.

Few sailing vessels are as well known as this ersatz full-rigged ship to persons other than seafaring men. For years the Vanse was a passenger ship, carrying sometimes 1,000 coolies out of Calcutta. Her last cargo was oil, which she conveyed from 1,801 tons register and was coming up the coast in ballast, bound for Hampton Roads, Va., when the storm hit her.

### HUN TELLS OF TANK TERROR

#### General in Tagblatt Recalls Hannibal Elephants as Simile to British Machines.

Berne, Switzerland.—Describing the battle of Cambrai to German readers, Lieutenant General von Ardenne, in the Tagblatt says: "Those who fought in the battle describe the imposing impression made by the British tanks which preceded the attack on the western front. As they advanced in masses, with very small intervals between them, they reminded one of Hannibal's battle elephants or the stately chariots of Pharaoh. The booming, rumbling attack was accompanied or, rather, supported from the air by a veritable cloud of battle aircraft, which closely pressed masses of infantry and field artillery followed the iron wall, three cavalry divisions bringing up the rear."

### GORGES ON BANANAS TO INCREASE WEIGHT

Marquette, Wis.—Because he wants to join the army and cannot be accepted as he is underweight, Stanley Brown of Menominee is literally buying bananas in the Twin Cities and gorging himself with the fruit. He says he is gaining weight rapidly, and will gain try to pass the avoirdupois demands of the recruiting officer.

### CHAMBERLAIN'S TABLETS.

These tablets are intended especially for disorders of the stomach, liver and bowels. If you are troubled with heartburn, indigestion or constipation they will do you good.

The Maryland Legislature has ratified the prohibition amendment to the Federal constitution.

### Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Dr. J. C. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience Against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drips and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

### GENUINE CASTORIA ALWAYS Bears the Signature of

## Dr. J. C. Fletcher.

### In Use For Over 30 Years

#### The Kind You Have Always Bought

THE CENTAUR COMPANY, NEW YORK CITY.

### JUST FOR FUN

Something Suitable.

"What can I make for my husband to eat?" asked the bride. "Something suitable for the honeymoon. I don't want anything prosaic, you know."

"Try angel food."

"We've been having a great deal of that."

"Well, make him some pound bread."

### Very Serious

It is a very serious matter to ask for one medicine and have the wrong one given you. For this reason we urge you in buying to be careful to get the genuine—

## THEFORD'S BLACK-DRAUGHT Liver Medicine

The reputation of this old, reliable medicine for constipation, indigestion and liver trouble is firmly established. It does not irritate other medicines. It is better than others, or it would not be the favorite liver powder, with a larger sale than all others combined.

### Help For Girls Desiring Education.

We have on our campus an apartment house, a two story building of 25 rooms, with a frontage of 100 feet which may be used by girls who wish to form clubs and live at their own charges.

Pupils can live cheaply and comfortably in this way, many of them having their table supplies sent to them from their homes.

For further information address J. M. Rhodes, Littleton College, Littleton, N. C.

### Lignite Coals May Provide Many Important Supplies

Secretary Lane has recommended to congress an appropriation of \$100,000 to investigate the commercial and economic practicability of utilizing the lignite coals of the United States for producing fuel oil, gasoline substitutes, ammonia, coal tar and gas for power. There are immense quantities of lignite deposits in the public lands of the United States lying near the surface of the earth and cheaply mined, but the coal is of such character that it does not stand transportation in its natural state and is of small value for fuel except in the immediate vicinity of the mines. If a satisfactory method of extracting fuel oil and other substances is secured it would be of enormous value and add immensely to the resources of the United States. It is proposed to have the investigations conducted through the bureau of mines.
