FIGHTING RESUMED KAISER LEAVES IN CRITICAL SECTOR

BRITISH AND FRENCH ADMIT VIELDING SOME GAINS TO IN-VADING GERMANS.

BRING UP HEAVIER GUNS

Armenians Have Organized An Army and Recaptured Erzerwin From the Turks, Says Report.

After several days of comparative inactivity along the battle front in Picardy, bitter fighting has been re-sumed along the western sector of the salient in the lines of the entente allies. Attacks by the Germans against the British and French are admitted to have yielded some gains to the invaders in the critical sectors just to the east of the ctiy of Amiens.

The fighting, according to latest re orhood of Hamel, where the British were forced back slightly, and in the triangle formed by the Rivers Luce anad Avre, farther to the South, where the French were forced to give ground. Nothing is known as to the details of the battles in these sectors, but the fact that the Germans have been in a degree successful would seem to indicate that they have succeeded in brniging up some of their heaviest cannor and new divisions with which to con tinue their attempts to capture.

Reports from the French and Brit ish fronts have mentinoed heavy rains which would mean that the Germans have been working under a severe handicap in bringing up guns, ammu tion and supplies to the front. T battlefield over which the allies have retreated was left in a devastated con dition, the roads and bridges being mined in by the retreating forces. The lull in the battle for the last few days probably was caused by the inability of the Teutons to move their heavy supply trains over these roads, together with the necessity of reorganizing the shattered divisions which bore the brunt of the fighting after they had passed the first field of fire of thei

The British, since retaining Avette south of Arras, have not resumed their offensive operations, so far as reported by London, but the German official statement says that four at tacks by the entente forces against the heights southwest of Moreuill were repulsed with heavy losses. There are no reports of fighting except outpost encounters along the French line

There have been heavy artillers mbardments of British positions or the Menin road and at Passchendaele, east and northeast of Ypres, according to London. As yet, however, there is nothing to foreshadow an effort by the Germans to attack there, fronting them are well fortified lines and high ground held by the British and it is improbable that a serious attempt to break through will be made in that sector.

WAR COSTS AMOUNT TO NINE BILLION A YEAR

Washington.-Nine billion dolla the approximate cost to the United States of one year of war.

More than one-half has loans to allies over one-third has been spent for the army and military establishments one-tenth for the n and one-fifteenth for shipbuilding. Just one-sixth of this big war cost has been raised by taxation and other ordinary sources of revenue, and the balance has come from sale of Liberty bonds and certificates of indebtedness.

Enormous as these war expenditures may seem to a country whose government in peace times costs be-tween seven and eight hundred million dollars, they are less than Great Brit ain's, and are only about two-thirds of estimates made by officials less than a year ago. Slow progress of the shipbuilding programy, and the retarding of the outpouring of war supplies are regarded by officials as the chief rea
