### LIBERTY LOAN DAY.

Tomorrow, Friday, has been appointed Liberty Loan Day by proclamation by President Wilson and Governor Bickett. A big drive will be made toward securing subscriptions for the remain der of the three billion Liberty Bonds. The Government at Washington is urging the people to lend their money to it and wants to see the subscription reach \$5 .-000,060,000. It is a big undertaking, but the United States and her allies have a big job on their hands to conquer the Huns and they are equal to the task, but the people, all of them, must pull

NO PLACE IN PARK SYSTEM

Small Cities Make Mistake in Placing Public Buildings in Their Beauti-ful Breathing Places.

The first and most important law of landscape gardening is to preserve open lawn centers. In city planning, as in all art, the same law prevails, and we have the modern civic center, with buildings around a small park. San Francisco's new civic center is a

grand example of this type. Many of our small cities have similar aspirations and some have made a splendid beginning. One of these is the little city of Inglewood, Cal. But now they are offered a Carnegie library and it is purposed to place it in the center or middle of the park system. With such a precedent the whole area may some time be covered with buildings so that where now is a generous and beautiful breathing place there will then be the most congested disrict in the municipality. Or, if but the one building is allowed to violate the scheme all other public buildings will be staring at this poor little structure, seemingly wondering why this one impertinent individual has

the Home City. With the approach of spring "city beautiful" work should have the atten tion of householders and others who appreciate the importance of clean streets, clean yards and well-kept lawns. Birmingham is noted for its mountain-like scenery, its elegant homes and its fine landscape effects. Such attractions form a distinct civic asset. In the fashionable sections the grounds making up the setting for styl ish houses are carefully tended, and in many of the humbler districts evidences of good sanitation and refined taste are seen; but flowers and greensward should be the rule everywhere.

It costs little money to keep a pretty yard; but many a grass plot "down-town" is marred by thoughtless pedestrians. Not only is this so on the cor trains. Not only is time so on the cor-ner lots, but the spaces between the curbing and the sidewalk that should be lush and green during the greater part of the year is soon rained after the advent of spring by being trampled

The public parks are usually in ex-cellent condition, and it should be the same way with the strips of green along the sidewalks. The City Beauti ful association did a great educational work a few years ago and it should again display its activity in the little things that contribute to the quiet adornment of Birmingham. Now is the time to plan for a new educational drive in respect of the restful and the holesome.—Birmingham (Ala.) Age

Dixon, health commissioner of the commonwealth of Pennsylvania, who says: "Most people would say that play's first requisite was that it should consist of something one doesn't have to do. Play is in reality, however, of all sorts and descriptions. Those that produce something useful besides giving rest are greatly to be preferred. There are many sorts equally stimulating to the mind and to the body and productive of valuable results. One essential a beneficial play is that it he whole some and be performed in a healthful

Women folks are taking an active hand in the affairs of the world today more than ever before. It is quite of-ten the case that the building of a new home is left largely in the hands of

its mistress. There are several good and practical reasons for such an arrangement. In the first place, the woman does or should spend more time in the house than her husband. It is her duty and most always her pleasure to keep the inside of the house in order. She is usually a closer observer in such matters
