# KEMMEE HILL TAKEN HONOR ROLL FOR NON-USERS OF WHEAT STRIKE HARD BLOW BIG GERMAN DRIVE

Mr. Page Issues Striking Resume of Wheat Situation and Invites Patriots to Forswear Use of Wheat Products for Benefit of Fighters Until Next Harvest.

Raleigh.—State Food Administrator Henry A. Page has issued a striking resume of the food situation confronting this country and its Allies and with it an invitation to the people of North Carolina, as many of them as circumstances will permit, to join the "honor roll" by giving up the use of wheat products altogether until the next harvest for the benefit of our army and the armies and civilian population of our Allies. Mr. Page's statement makes good reading: It is as follows:

A little more than a month ago we took stock of our wheat supply in this country and found that we had slightly more than one hundred million bushels, just enough to fully feed our soldiers and our Allies in war-swept Europe until the next harvest, or, not quite, but nearly, enough to supply bread for our own people for the four months until the next crop comes in, on the basis of our normal pre-war consumption.

The Situation a Month Ago.

Up to this time the Food Administration's policy had been to limit the shipment overseas to the exact amount we were able to save from our normal consumption by methods and policies of conservation. But now we find ourselves up against it hard. Clearly our soldiers must be well fed. Clearly our Allies in the midst of war's horrors must have at least half rations.

Allies in the midst of war's horrors must have at least half ration

To meet this imperative need, upon which hangs the result of the war and consequently the destiny of nations, we, here at home, must cut our con-sumption of wheat products in helf. And even this sacrifice would enable us to send our own soldiers and friends on the firing line only half the quantity

of wheat they need.

This was the problem that faced us a month ago. What should we do about it? Will our people change their habits of living, their usual food, make the sacrifice? Can they come to realize that government by the people in the earth depends upon bread?

It was decided to set apart half the visible supply of wheat for shipment

to Europe and to undertake to get the information over to our own people so that they would understand the necessity for personal sacrifice, and maybe might be able to increase our shipmens to two-thirds or three-fourths of

Sacrifice Called For.

There are many people in this country who have not caten one single biscuit or a morsel of wheat bread this year. They are the men and women whose personal war consciousness gives them trouble when they fill themselves in the sight of a hungry world. It isn't just exactly comfortable, is it, to eat the last morsel upon which is fastened the longing eye of a famishing dog? But this is not a matter of dogs, but rather of grief-burdened women, innocent little children, and the fighters in the trenches. The wonder is that more of us are not disturbed as we go our usual easy way, feeding our bodies beyond their real need with the one food the whole devastated world of war so badly needs; just because it is easier to procure and prepare than some substitute.

so badly needs; just because it is easier to procure and prepare than some substitute.

Many of the best hotels have voluntarily agreed to serve no wheat products until the next harvest. Many families in this country are doing the same thing. It is easy enough for well-to-do people of more than average intelligence to get on just about as well without wheat flour as with it. Some of the substitutes, such as rice flour, cost more than wheat flour, and to prepalatable and wholesome breads, using the substitutes only, calls for a larger expenditure of forethought and care as well as money. Maybe it would be unwise for people of small earning capacity, and those whose time is pretty fully occupied, to undertake to get on entirely without wheat flour. But I am sure there are dozens of hotels in North Carolina with well trained and ingenuity is exercised in the field of muffins, cakes and corn dodgers.

The Patrotic Course.

How many families are there in this state, that, with the expenditure of a little more time and maybe a little more time in the kitchen, madam; one serious study of "Aunt Jemima's Recipes," a larger knowledge of the values of foods; will not hurt any of us at any time, and in war times will be especially valuable. And as to the slightly increased money cost, (remember I am writing to the well-do-do (not that part of our people who face poverty and what boots it if we spend a little more to properly feed ourselves when the primary result is to feed our fighters and our friends, and the helpless all over the world?

It is going to take all the money we've got to win this war; it ought to serve the world?

Respectively and the serve and whe world and the respectation of the line, but from the greater part of these they were driven out by the French who

over the world?

R is going to take all the money we've got to win this war; it ought to take the surplus first. When the war is won and the world may turn away from its horrors, you and I will be very happy if e have lost nothing more valuable than our money! Think of it, man, you could then enjoy over again the delight in having saved your first hundred dollars!

The Personal Appeal.

How many of us, so situated, will cut out wheat flour entirely until the next harvest? We have the honor roll ready for your name. May we have your pledge?

HENRY A. PAGE, Food Administrator.

Ralsich N. C. April 27, 1918.

your pledge? H Raleigh, N. C., April 27, 1918.

## As Great Military Necessity as Cannon and Shells-Food Administrator Page's Attitude.

Administrator Page's Attitude.

Raleigh.—The food situation in England and France has become so acute that unquestionably white wheat flour is as great a military necessity as cannon and shells. The bread ration of the French and Italian soldiers who are fighting shoulder to shoulder with our own boys has already been reduced to a considerable extent, and the old men, women and the little children of France. England and Italy are existing o nexceedingly short rations.

I the face of this situation, the Food Administration which sometime ago requested that all surplus wheat in the hands of wheat growers should be marketed by May 1, is making plans for more drastic course to be followed in the case of those farmers who for unpatriotic or pro-German motives fail to market their wheat within something like a specified time. A list of such farmers will be prepared after May 1, and shortly after that date machinery will be set in motion for the carrying out of the course determined upon by the Food Administration.

North Carolina farmers, according to a resume in a recent issue of the Literary Digest, have been receiving a considerably higher figure per bushel for wheat than the farmers of any other state, the average price in this state having been \$2.31 per bushel as against \$2.24 in Tennessee, which was the next highest state, and against \$2.03 for the whole country. Food-Administration from the farmers of North Carolina for this difference as it was through his activity and demands that smaller mills of the state were left unrestricted as to the price they might pay for local wheat, while the mills of 75 barrels expactly or more and the smaller mills working under agreement with the Grain Corporation and securing their wheat from outside the state have not been allowed to pay more than around \$2.12 to \$2.15 per bushel. This has meant, of course, that practically the entire wheat crop of North Carolina has been sold to the smaller mills at prices considerably higher on an average than the larger mills were paying

Mr. Page is hopeful that it will not be necessary to make a single seizure of wheat in North Carolina, especially since the smaller mills of the state are paying a much higher figure for wheat than the Grain Corporation will pay if the wheat is commandeered, the presumption being, of course, that wheat that is commandeered will be paid for at the rate that the larger mills are allowed topsy for local wheat—around \$2.12 to \$2.15 per bushel, certainly not higher has threatened to take Petrograd. A Scott and Mr. Bethis and I. Well arranged canteen at the rail-road station for the soldiers—coming through on the hospital trains. Mrs.

than \$2.20.

It is a well-known fact, of course, that the use of wheat or rye as feed for livestock is regarded as wilful waste and is punishable under Section 4 of the Food Control Law by a fine of \$5,000 or two years imprisonment or both.

SURPLUS COTTONSEED SHOULD BE MARKETED. Raleigh.—The Food Administration has information that if there is no l\_te frost which would necessitate the replanting of cotton there will be a considerable surplus of cottonseed left in hands of the cotton planters in the state after the planting season. Inasmuch as cottonseed has summed a place of very considerable importance from a food and feed standpoint, the Food Administration is urging every farmer who has any surplus of cottonseed at all to sell such surplus to the nearest oil mill as soon as he is satisfied that he is not going to need them for replanting. Refined cottonseed oil as the basis for compound lard is absolutely dominating the food and oil markets of the world while cottonseed meal is increasing in popularity and importance as a feed for illustock.

Raleigh.—The potato campaign put on by the Food Administrators in the cities and towns of North Carolina at the request of Food Administrator Henry A. Page has been successful to a marked degree. There was a surplus of more than 25,000 bushels of potatoes in the hands of the producers in the Western section of North Carolina and millions of bushels above normal demands in the hands of producers and dealers in Wisconsin and other Western States. As a result of the campaign in North Carolina the surplus in this state is rapidly being exhausted and thousands of bushels of potatoes are being ordered from Northern States.

Raleigh.—Since wheat exports must be maintained if the war is to go o —and we must go on or go under—the Food Administration has taken th position that refusal to release wheat gives aid and comfort, to the enemy an that seizure is justifiable. On these grounds the Federal Food Administration of New Mexico was authorized to seize and place in circulation 100,000 pound of wheat grown by the Kempernich Bros. farmers and storekeepers, and Surther store of 250,000 pounds which they had purchased and refused (reclease from storage. The wheat was then given up and will be distributed. HOLDING WHEAT AIDS ENEMY.

matum to Russia, Threatening to Take Petrograd.

Germany's armies are hurling themselves against a granite wall on three sides of the ruined city of Ypres. After fighting of the most terrific nature, the British and French lines are still intact and the enemy has lost terribly in his repeated assaults against the ines where the allies stand at bay.

The objective of the fighting that now is going on is the capture of Ypres, where since 1914 the British have held their positions. Two years ago the allied lines were carried forward and the salient in front of the city was wiped out, but from these positions the British retired a week ago to the trenches where they stood during the terrific fighting in the spring of 1915, when they stopped the Germans in their first drive for the channel ports.

The present battle opened with a combardment of the British and French lines from Meteren and Voormezeele, a distance of 12 miles. Then came reports of a spread of the fight-ing around the curve in the line in front of Ypres until the Belgian armies, north of the city were involved

front, but there is little indication that | Picardy.

from the greater part of these they were driven out by the French who re-established their defenses.

Frontal attacks on Ypres would seem to indicate that there is little confidence in the German general staff that the Ypres positions can be outflanked from the south. The lines as they stand today are very strong and withstood the onset of the Ger-mans in 1914 when the Teuton emperor's army was a much different

## EDITOR OF GERMAN PAPER GETS FIVE-YEAR TERM

Kansas City, Mo .- Carl Gleeser, pubisher of The Missouri States Zeitung. pleaded guilty in federal court before Judge A. S. Van Valkenburgh, to a charge of violating the esplonage act. He was sentenced to five years in the federal penitentiary at Leavenworth. With Jacob Frohwerk Gleeser was indicted by a federal jury as a result of articles appearing in the publication attacking the administration.

## BY ONLY ONE PERSON

Detroit, Mich.-With only one pe son attending the funeral of Helmuth Schmidt, self-slayer, believed by the police to have been responsible for the death of three women, was held at Highland Park, Mrs. Adele Ulrich Braun, to whom Schmidt, under the name of Braun, was married in Lakewood, N. J., in 1914, was the gole mourner. The exact time of the fu-meral was kent secret.

Green's August Flower

Divisions Have Been Hurled

The great double German drive, in the Somme and Armentieres sectors, has developed into a terrific struggle. The tide of battle has surged to and fro during the last two days, with the decision still in the balance. The British, having been forced back out of Villers-Bretonneux, launched a counter-attack and swept, the Germans back almost to the lines which were held before the present fighting began The French have been driven back out of Hangard-En-Santerre, but are holding their positions close by, while on the line southwest of Ypres, the Brit ish have been compelled to withdraw slightly before furious attacks along the Meteren-Bailleul-Wytschaete line.

Wounded Americans are arriving at a hospital behind the French lines i share of the burden of the great bat tle.

Notwithstainding the frantic pret arations made by the Germans for a continuance of their drive toward Amiens, and the extreme violence of the fighting, their guns thus far in that region have been very small. Along the line from Albert south to Castel, except at Hangard-En-Santerre, the German assaults have been hurled back by the allied forces, which are strongly posted on the higher ground to which they retired during the last days of the German drive in

## Germans in Desperate Effort,

It is unofficially reported that four to six German divisions, or from 48, 000 to 72,000 men, have been hurled at the British in this sector must have been small, for there are no great gains reported by Berlin so far was rumored Thursday Kemmel, a dominating height north of Wulverghem, had been taken by the enemy, but this has not been cor firmed.

That only slight gains have made anywhere along the two fronts have been subjected to attack is proof that the allies are prepared to defend their positions. In the last three weeks, the Germans have hurried up heavy cannon to the old Somme bat tle ground and have marched many fresh divisions to the points where they have been held for the momen

## WOUNDED AMERICAN SOLDIERS

Paris.—American soldiers wounded Dit. WILL S. LONG, JR. in the great battle which now is being waged are already arriving at the rear. American wounded and sick to the number of 128 have reached hospital No. 25. They are from units engaged in fighting side by side with French and British in stemming the German advance.

Hospital No. 25 is one of the new in stitutions established behind the line as it stood after the allies stopped the recent German drive in Picardy, Few of the Americans remained at hospital very long, being taken farther
