**EUREKA
Spring Water
FROM
EUREKA SPRING,
Graham, N. C.**

A valuable mineral spring has been discovered by W. H. Ausley on his place in Graham. It was noticed that it brought health to the users of the water, and upon being analyzed it was found to be a water strong in mineral properties and good for stomach and blood troubles. Physicians who have seen the analysis and what it does, recommend its use.

Analysis and testimonials will be furnished upon request. Why buy expensive mineral waters from a distance, when there is a good water recommended by physicians right at home? For further information and/or the water, if you desire if apply to the undersigned.

**REACH MARNE BANK
ON 10-MILE FRONT IS BEING HALTED**

RATE OF SPEED OF THE ADVANCE
IS, HOWEVER, SLOWED DOWN
SOME—RHEIMS LOST.

CHATEAU THIERY IS OCCUPIED

Allied Forces Vastly Outnumbered;
Reserves Have Nowhere as Yet
Been Brought into Action.

Plunging southward, with its mo-
mentum still unspent, the German war
machine has driven its wedge into the
allied lines along the front until its
apex has reached the Marne river
south of Fore-en-Tardenois. The de-
sperate efforts of the French and Brit-
ish to stem the tide against the in-
vaders have served only to slow down
the rate of speed of the German ad-
vance; the defenders of the heights
north of the Marne seem to have been
swept aside in the rush of this enemy
toward the road to Paris.

Aside from the movement of the
German armies southward, two other
significant incidents of the tremendous
battle have occurred. One is that the
Germans have extended their attack to
the northwest, along the Aisne river,
from which the French have fallen
back for some distance. The other is
that the battle has extended to the
east of Rheims, which city, during the
first few days of the battle formed the
extreme eastern end of the line of bat-
tle.

Along the sides of the salient formed
by the rapid German advance to the
Marne the French and British have
been holding their positions gallantly.
South of Soissons, the French have
defended their line with such
vigor that the Germans have not made
much impression upon it. On the other
side of the battle area the British are
still holding the forts of Rheims and
positions just west of that war
stricken city.

Between the extreme sides of the
salient the front sags toward the
south, the line from Rheims to the
Marne running to the southwest at a
gentle angle, while the French are
holding a front at right angles to the
flanks of the extreme front of their
advantage.

The French are here fighting on fa-
miliar ground which has been made
historic by numerous battles some of
which are named among the decisive
combats of history.

On the eastern end of the fighting
line some of the forts before Rheims
are said to have fallen, which was to
be expected from the fact that they
have been outflanked by the tide of
invasion that has swept far to the
south of the city.

The fighting has taken on the fa-
miliar aspect of the first invasion of
France in 1914, the advance of von
Mackensen along the Dunajec and the
fighting in Iperdy in March. After
breaking the French and British de-
fense positions, but not breaking the
allied line, the Germans are again
moving their forces out in a fan-
shaped figure, fighting hardest on the
flanks of the extreme front of the
battle.
