GRAHAM, N. C., June 27, 1918.

NO APOLOGY.

The Gleaner is devoting much o its space to the War Savings campaign on this week-which closes Friday. The big and overshadowing thing that towers above every other proposition that Americans have to do with now is the winning of the war. Should it be lost no one is able to foretell the set back in years that such a direfu. erty and Christian civilization, not to say anything about the stagger ing loss of property and the nend-ish outrages that would be visited upon our people, especially the wo-men and children. To lose would mean that the Huns would practice the same horrors upon our people that the Belgians and French have been subjected to for the past four

The thought of losing and the consequences should herve every red-blooded American for the supreme effort of his life to do to the extent of the last penny.

There is no middle, half-way ground for any patriotic, home and country-loving individual. Comvictory over and a vanquised, soundly whipped Prassia is the one and only thing that will meet the ends of justice.

Hence there is no apology for giving so much space to the Savings campaign now on, that our fort and every means at their co.nmand necessary to accomplish the greatest task ever set before a

The Germans have flung out peace hint. Their war plans have not gone favorably for some time is why the hint is made. There is no reason why the Prussian war lords should have any concessions They must surrender unconditionally and make reparation as far as money will repair, and the ailled armies must take charge of every town in the Prussian combinat.on These are the only terms upor which the allies should consider peace; and those responsible for the war, the devastation and the crimes should be dealt with to the

The war news is encouraging. Italy has vanquished the Austri driven them back-routed them and

Our bles are plain and our dress is common those city sports common those city sports fould spurn us on the streets, but levertheless we are helping Uncles sam and expect to share the sam and expect to share the same and to-might. If it doesn't start your liver and straighten your to commission of the same and expect to share the same and to creosuls and the same and to creosuls and the same and

WHEAT FLOUR SUBSTITUTES.

Soy Bean and Rye Suggested by Food Administrator-North Corolina Leads in the Production of Soy Beans.

Raleigh, N. C., June 25—Going a step beyond the request to dealers to restrain from further purchases of flour from outside the State, State Food Administrator Henry A. Page has called upon the hotels, restaurants, bakeries and institutions of North Carolina to substiture for wheat flour to as large an extent as possible rye flour and soy bean flour. Country Food Administrators in at least two North Carolina cities have declared that the best bread on their markets at the present is rye bread, and the Food Administrator has sent to all bakeries and other large users a list of North Carolina milts which supply rye flour.

Soy bean flour is included in the list of cereal substitutes which may be a present of the flow of the present of the flow.

list of cereal substitutes which may be purchased with wheat flour and is being used in large quantities in some sections. One North Carolina mill three weeks ago had shipped 4,000 barrels of soy beans flour to northern cities for use in bakeries, hotels and restaurants, and had contracted for the delivery of 400 tons more. North Caroffan produces more soy beans than any other State in the Union and should be the pioneer in the cons aption as well as the production of this product, according to the Food Administration. list of cereal substitutes which

product, according to the Food Administration.

Rye flour and soy bean flour are both produced in North Carolina and their use would relieve the transportation situation to a considerable extent. In addition rye and particularly soy bean flour are considerably cheaper than wheat flour. Rye flour is just as nutritious as wheat flour and Boy bean flour contains more nutriment pound for pound, than even wheat or beefsteak.

North Carolina One of Thirteen in War Savings Work-Leads Southern States.

North Carolina is now one of the "original thirteen" States occupying tirst place in War Savings sales and activities, At I.rst sne was rated as the forty-seventh State in the Union, or only three from the bottom in this work. After a month or two she began to climb and was found leading all the Southern States in War Savings work. Now she has a seat with the thirteen at the head, and furthermore, is being looked to be one of the first thirteen to rais: her quota in War Savings Pledges by June 28th.

To add to her record or even hold it where it is is try job set this week. Every county and township has her good Lame to protect land her record to save. This responsibility becomes a personal matter. Every citizen is expected to take the stand and make the sacrifice necessary not only to make the State maintain her good name, but to see that she does not fail her country at this hour of imperative need.

name, but to see that she does not fail her country at this hour of imperative need.

That she is on the job and will continue to hold her place among the first states in the Union to answer her government's call, is the answer that her citizens are already giving with the assurance that June 28th will find the State having done what is expected of her.

University of N. C. Designated as a Reserve Officers' Training Corps.

The War Department has just designated the University of N. C. as a Reserve Officers' Training Corps, the order to take effect with the opening of the collegiate year in September. Lieut.-Col. G. W. S. Stevens will be the Commandant in charge. Capt. J. Stuart Alley and Mr. J. V. Whitfield will 265 be back next fall to help istruct in military training.

back next fall to help instruct in military training.
Under the provision of this new classification students at the University taking the full military course will be eligible to appointment as commissioned officers in the army. Students taking the full course will receive compensation during their senior year. Thus, the merited military recognition, which friends of the Univers. It have long looked for, has finally been secured.

driven them back—routed them and slayed thousands. This is one of the best pieces of news of the war. Italy is no longer broken.

On the Western fron another German drive is looked for at any time, but the French, British and Americans have harassed the enemy so much that his courage is on the wane.

the drug store and get your money.

Take calomel to-day and to-morrow you will feel weak, sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless. Give it to your children any time. It can't salivate, so let them eat anything they want afterwards.

SUGAR NECESSARY

Food Administrator Henry A. Page Announces New Restrictions in Sales of Sugar and Calls Upon Con-sumers to Economize—Prase-ving and Canning Not to Be Curtailed.

Raleigh,-State Food Administrato Henry A. Page has announced new restrictions to govern all sales of sug-ar by wholesalers and retailers and at the same time calls upon sugar con sumers in North Carolina to econo mize and save the utmost ounce of sugar through reduced consumption in the home and through the elimination of soft drinks, candy and other less essential or non-essential prod ucts. Beginning today, all dealers are forbidden to sell more than two pounds to a town or city consumer o more than five pounds to a country consumer and not more than 25 lbs. can be sold at one time to individuals for causing and preserving purposes under the certicate plan announced some weeks ago by the Food Admin-istration. If a larger quanty is re-quired at one time it may be purchased upon the approval of the County Food Administration.

Every dealer is required to keep an absolutely accurate record of all sales of sugar, this record to include the date of sale, name of purchaser quantity sold and price. These records will be examined periodically by the Food Aministration inspectors who will be put in the field in the imme-

diate future.

Mr. Page states frankly that the sugar situation is serious. "It is ex-tremely important that there shall be no curtailment in the quantity of pre serves, jam, and canned fruits manufactured during the present season, declared Mr. Page, "and if sugar is to be plentiful and ample for preserv ing and canning purposes there must be marked conservation not only by commercial users who produce less essential products such as soft drinks candy, etc., but also upon the part of the individual consumers. It is the patriotic duty of every American citizen to consume less of the products of fountains and candy shops under

the present conditions.
"It isthe duty of every man, woman and child in the United States to use

a minimum of sugar for tea, coffee ereals, cakes and other edibles. "The individual who uses more sugar than is necessary for any pur pose and who leaves unused sugar it the bottom of their coffee cups or iced tea glasses, is a slacker and a near ally of the Kaiser. Less Essentials Must Go.

"The American nation is stripping to the waist for this fight and non essential industries must go by the board. It has not been necessary until this time to curtail our use of sugar to the extent that is now requested. It is necessary now and ou people must realize that, just as in the case of wheat and meat, they must save until it hurts. The Food Admir istration doesn't want any one to do without creals, coffee, tea, etc., and especially it doesn't want children and invalids deprived of the amoun of sugar necessary in their food for their proper growth and development but it does want and it will expect every patriotic adult to confine their use of sugar to not exceeding three pounds per month at the very most This is the measure of conser and these three pounds a month should include any candy, soft drinks, etc., that are used.'

FARNERS ARE URGED TO SAVE ALL WHEAT POSS BLE

Henry A. Page is urging the farmer of North Carolina to exercise care during the present harvesting season to the end that no wheat shall be left in the fields, around stumps, nea ditches and on the edges of the fields where a binder sometimes leaves a small quantity uncut. It may often happen that such wheat will not financially pay the labor require to harves it but this wheat is needed to feed hungry men and women and every farmer-is urged to use the utmost precaution in saving every stalk wheat possible.

ROCKINGHAN CAFE FINED BUCKINGHAN CAFE FINED AD Drugstias, 790. FOR FOOD VIOLATION

Rockingham. - Because it had re peatedly violated rules and regula tions of the United States Food Ad ministration, the Busy Bee Cafe of this city, in order to escape more drastic punishment, has voluntarily closed its door for four days with a sign announcing to its patrons that it is closed for violations of the food regulations and in addition has made a contribution of \$100 to the local chapter of the Red Cross.

The owers of the cafe were given hearing some days ago before Coun ty Food Administrator W. N. Everett who communicated with the office of the Food Administration at Raleigh and was authorized to let the estab-lishment off in so far as past offenses are concerned upon the basis men
