**************** EUREKA Spring Water FROM EUREKA SPRING, Graham, N. C.

A valuable mineral spring s been discovered by Ausley on his place in Graham. It was noticed that it brought health to the users of the water, and upon being analyzed it was ofund to be a water strong in mineral properties and good for stomach and blood troubles. Physicians who have seen the analysis and what it does, recommend its use.

Analysis and testimonials will be furnished upon request. Why buy expensive mineral waters from a distance, when there is a good water recommended by physicians right at home? For further information and or the water, if you desire if apply to the undersigned.

They drank bock beer and conversed among themselves, but there was no As the officers seated themselves, a waiter came to us with a printed bill-of-fare and program. Fortunately, he waited on the others first and I hilarity or rough-housing of any kind he waited on the others first and I listened intentity to their orders. The officers ordered some light wine, but my Belgian neighbor ordered "Bock" for himself and his wife, which was what I had decided to order anyway, As I sat there, within arm's reach as that was the only thing I could say Heaven knows I would far rather hav ordered something to eat, and I was afraid to take a chance at the pronunclation of the dishes it set forth.

There were a number of drinks listed which I might safely enough have or-Winth A might satisfy should have of dered. For instance, I noticed "Lemon Squash, 1.50," "Ginger Beer, 1.—" "Sparkling Dry Ginger Ale, 1.—" "Appointaris, 1.—," and "Schweppes Soda, 0.80," but it occurred to me that the mere fact that I selected some-bles thet was litted in Fredleh might thing that was listed in English might attract attention to me and something in my pronunciation might give fur ther cause for suspicion.

It seemed better to parrot the Beland order "B gian and order "Bock" what I decided to do. and that was

One item on the bill of fare tanta-lized me considerably. Although it was listed among the "Prizzen der dranken," which I took to mean "Prices of drinks," it sounded very much to me like something to eat, and Heaven knöws I would rather have had one honest mouthful of food then sult the drinks in the world. food than all the drinks in the world. The item I refer to was "Dubbel Ger-stein de Flesch (Michaux)." A double portion of anything would have been mighty welcome to me, but I would have b een content with a single "ger ten" if I had only had the courage to ask for it.

To keep myself as composed as pos sible I devoted a lot of attention to that bill-of-fare, and I think by the time the waiter came around I almost knew it by heart. One driak that almost made me laugh aloud was listed as "Lemonades gazeuses," but I might is well have introduced myself to German officers by my right name and rank as attempt to pronounce it.

When the waiter came to me, there fore, I said "Bock" as casually as I could, and I felt somewhat relieved that I had gotten through that part of the ordeal so easily. While the waiter was away I had a

chance to examine the bill-of-fare and I observed that a glass of beer cost 80 centimes. The smallest change I had

was a two-mark paper bill. Apparently the German officers were similarly fixed and when they offered them and they had no way of knowing. I was quite convinced that if I were discovered my fate would have been death because I'not only had the forged passport on me, but I had been so many days behind the German lines after I had escaped that they conduct after I had escaped that they couldn' safely let me live with the informa tion I pos

tion I possessed. One night I walked boldly across a park. I heard footsteps behind me and turning round saw two German shi-diers. I slowed up a trifle to let them get ahead of me. It was rather dark and I got a chance to see what a won-derful uniform the German military authorities have picked out. The sol-dlers had not some second ders had not gote more than a few feet ahead of me when they disap-peared in the darkness like one of those melting pictures on the moving picture screen. I was rather sur-prised at this because in this part of Belgium they were much freer than they would have been in Berlin, where, I understand, food is compar-atively scarce and the restrictions are very strict.

As I have said, my own condition in this city was in some respects worse than it had been when I was making than it had been when I was making my way through the open country. While I had a place to sleep and my clothes were no longer constantly soaking, my opportunities for getting food were considerably less than they had been. Nearly all the time I was half famished, and I decided that I would get out of there at once, since I was entirely through with Huyiger. My physical condition was greatly improved. While the lack of food clubs formed among the men were 649. Physical activities when figured in statistics amounted to an amazing amount. While the lack of food showed itself on me, I had regained some of my strength, my wounds were healed, and my ankle was stronger, and although my knees were tivities such as baseball, track and field still considerably enlarged, I felt that I was in better shape than I had been at any time since my leap from the train, and I was ready to go through neets, baseball, etc. The spectators, the majority of them soldiers, at these physical activities, are estimated for the year at 5,646, whatever was in store for me. 818.

Observations in a Belgian City. One night shortly before I left this city, our airmen raided the place. I didn't venture out of the house at the time, but the next night I thought I would go out and see what damage had been done.

When it became dark I left the house accordingly and mixed with the crowd, which consisted largely of Germans. I went from one place to an mans. I went from one pince to an-other to see what our "straffing" had accomplished. Naturally I avoided speaking to anyone. If a man or woman appeared about to speak to me, I just turned my head and looked or walked away in some other direction. I must have been taken for an un-social sort of individual a good many times, and if I had encountered the

While trying to make up my mind whether it was safe for me to go in I walked half a block past the place, and when I turned back again and reached the entrance with my mind made up that I would take the chance I ran full tilt into a German officer who was just oming out.

That settled all my hankerings for woving pictures that night. "Where you came from, my friend," I figured, "there must be more like you! I guess is a good night for walking."

The next day, however, in recalling the incident of the evening before, it seemed to me that I had been rather foolish. What I needed more than anything else at that time was confi-dence. Before I could get to the fron-tler I would have to confront German soldiers many times, because there were more of them between this city and Holland than in any section of the country through which I had so far traveled. Safety in these contingencies would depend largely upon the calmass I displayed. It wouldn't do to get all excited at the mere sight of a spiked helmet. The Belgians, I had noticed, while careful to obey the orders of the Hung showed no marticorders of the Huns, showed no partic

the function of the same feeling of indifference the better I would be able to carry off the part I little faster. I hoped that they would find another seat before they came to my vicinity, but they were getting nearer and nearer and I realized with For this reason I made up my mind then and there that, officers or no of-ficers, I would go to that show that night and sit it through no matter a sickening sensation that they were headed directly for the two seats at my table, and that was indeed the what happened. While people may

think that I had decided unwisely be These two seats were in front of the cause of the unnecessary risk involved in the adventure, it occurred to me table facing the stage and except when the officers would be eating or drink-ing their backs were toward me, and in the adventure, it occurred to me that perhaps after all that theater was about one of the safest places I could there was considerable consolation in that. From my seat I could have reached right over and touched one of them on his bald head. It would have attend because that was about the last place Germans would expect to find a fugitive English officer in even if they been more than a touch, I am afraid, if I could have gotten away with it

As soon as evening came, therefore, I started out for the theatre. I fixed their bill to the waiter, he handed it back to them with a remark which I took to mean that he couldn't make change.

Right there I was in a quandary. offer him my bill after he had just told the officers he didn't have change would have seemed strange, and yet I couldn't explain to him that I was in the same boat and he would have to come to me again later. The only thing to do, therefore, was to offer him the bill as though I hadn't heard or noticed what had happened with the Germans, and I did so. He said the same thing to me as he had said to the offerer cheere of little more to the officers, perhaps a little more sharply, and gave me back the bill. Later on, he returned to the table with a handful of change and we closed the transaction, I gave him 25 centimes as a tip-I had never yet been to a place where it was necessary to talk to do that.

During my first half hour in that theatre, to say I was on pins and needles is to express my feelings mildly. The truth of the matter is I was never so uneasy in my life. Every minute seemed like an hour, and dozen times I was on the point of get-ting up and leaving. There were al-together too many soldiers in the place to suit me, and when the German officers seated themselves right at my table I thought that was about all I could stand. As it was, however, the lights went out shortly afterwards and in the dark I felt considerably easier.

After the first picture, when the lights went up again, I had regained my composure considerably and I took advantage of the opportunity to study the various types of people in the
