

Health About Gone

Many thousands of women suffering from women's trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Haynes, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, I began using Cardui. I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE CARDUI The Woman's Tonic

She writes further: "I am in splendid health... I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

All Druggists

BALLOON IN WAR DOES GREAT WORK

"ELEPHANTS" USED FOR OBSERVATION AND TO DIRECT FIRE OF BATTERIES.

PILOTS PARACHUTE JUMPERS

Thousand Community Labor Boards Have Been Organized—Gun Production for Army Grows Rapidly—Iron Rations Ordered.

(From Committee on Public Information.) Washington.—Up to a few years ago, in the public mind, all balloons were associated with parachute jumpers, county fairs and circuses. They were used very much like their rival the old sky balloon, full of freaks, solely to draw a crowd. Today Uncle Sam is making balloons and training their operators for distinctly another purpose. The ugly old balloon of circus days is now a rival of its smarter and more modern brother, the airplane. In the job of being eyes for the army and navy, a field industry was revived when the war balloon was originated.

Swinging far aloft at the end of a cable, these "elephants," as they are now called, support trained observers who, by means of powerful field glasses and telephones, give range and direction to batteries. These in turn, with well directed shots, put enemy batteries out of business and break up infantry formations for attack. A stationary balloon four or five thousand feet in the air is an ideal place for an observer.

So Uncle Sam's parachute jumpers are being instructed today, not as entertainers to draw and thrill crowds by "leaps from the clouds," but for their own personal safety and the safety of their records made at high elevations, when a shell or an enemy airplane rips their balloon and they have to jump. For although their balloon may be destroyed, the men in the basket usually come safely to earth and bring their maps and photographs with them. It is a life full of excitement these men who, in the work of the observer as the latter explained the great panorama outstretched below him; when suddenly the balloon man interrupted his talk to see that his parachute straps were O. K., climbed to the edge of the basket, shouted: "Beat it! follow me," and disappeared over the side. The balloon was then pulled up to the windlass pulling the balloon to earth below, another at the incoming enemy plane and said to himself, "Not for mine." He said he did not have the courage to jump and did not. Fortunately the enemy plane was beaten off by allied planes before it could get any nearer.

Provost Marshal General Crowder was requested by the British embassy to give notes to the fact that British subjects, including declarants, who had registered before July 30, 1918, may enlist voluntarily in the British or Canadian army up to and including September 23, 1918. Those who register on September 23, 1918, may so enlist up to and including September 12, 1918.

During the period allowed for voluntary enlistment, British subjects may apply for exemption to the British ambassador.

At the end of the period allowed for voluntary enlistment, British subjects, in each of these classes, may no longer enlist in the British or Canadian army, but unless exempted by the British ambassador, they become liable to military service and may claim exemption under the United States Selective Service law.

Experiments in laundering shoes are being conducted at various camps by the conservation reclamation division of the quartermaster corps. The method used is the same as employed by the American expeditionary forces.

A solution composed of one quart of strong disinfectant to 50 gallons of water was used to wash about 200 pairs of shoes in a standard laundry machine. The solution was removed, antiseptic and disinfectant were removed, dried and the shoes were re-soled. The results were found to be highly satisfactory. After the shoes are laundered and repaired they are, again, with dubbing to make them more comfortable and at the same time to preserve the leather.

Have a nutshell to help save a life! Nuts, the shells of nuts and seeds and pits of several varieties of fruits are needed in quantity supply to make carbon for use in gas masks or respirators for our soldiers.

Recent reports show that approximately 1,000 community labor boards of the United States employment service have been organized or are in final process of organization. Between 700 and 800 of them are ready to function and some already have begun work.

Full and partial returns from 39 states and the District of Columbia give a total of 915 boards completed or in formation while four other states, two of them large industrial communities, wait the organization of boards but not the number. The five remaining states failed to report.

Each community labor board is composed of three members, one representing the community's employers, the second its employees and the third, who is chairman, the United States employment service. The employer and employee members are chosen by their respective local organizations, their appointment being approved by the director general of the employment service. It is the work of the community boards to generally supervise the recruitment and distribution of workers for war production, their work being done by the local offices and agents of the employment service, including the agents of the public service reserve.

The federal directors of employment for the states have been notified by the director general to rush the organization for their states for their states and their functioning as quickly as possible in order to provide relief for short-handed war industries.

Some facts about guns and munitions told by the secretary of war: We are constructing a big gun plant at Neville Island. We signed a contract with United States Steel corporation to build and operate without profit this plant for the larger caliber. This is the biggest plant of this kind ever conceived and will build guns of not less than 14 inch. The site is just below Pittsburgh and covers about 1,000 acres. The housing will be on the hills south of the island. The amount of money involved is \$50,000,000 which is being supplied by the United States government. This plant will handle a tremendous amount of material, and will be retained by the government after the war.

We have shipped two hundred and fifty 155-mm. howitzers to France. We are producing between 25,000 and 30,000 machine guns per month. Browning heavy 4,000 to 7,000; Browning light automatic rifle from 8,000 to 9,000 per month. We are making about 1,200 motor tractors per month. We are turning out all the smokeless power we need now.

The production of rifles has been about 200,000 per month. We produce more than 60,000 pistols and revolvers per month. Orders have been given for the supply of one million emergency rations by the substance division of the quartermaster corps. The emergency ration corresponds to the iron ration of the British troops. It is carried in an air-tight, gas-proof container and is sufficient to maintain full strength and vigor. It is strapped in the pack of the soldier going over the top and may be used only according to the instructions given when the emergency ration is issued.

The emergency ration is composed of ground meat and what is compressed into a cake. There is also a block of sweet chocolate. The bread and wheat component may be eaten dry or, if possible, stirred into cold water. The cake, when boiled for five minutes in three pints of water, results in a very palatable soup, or when bottled in one pint of water for five minutes it makes porridge which may be eaten hot or cold. When cold, it may be sliced and fried, if bacon or other fat is available. The chocolate component of the emergency ration may be eaten dry or made into hot chocolate.

The quartermaster corps has just completed purchases of large quantities of foodstuffs for distribution to the American Red Cross. The food will be shipped to France, Switzerland and Denmark and used for civilian relief and at prison camps.

For men in rest camps and for the wounded in the hospitals.

More than 400 colleges have responded to the war department's call for co-operation in training the new branch of the army, the students' army training corps. Plans are being made to convert fraternities houses and dormitories into barracks for the period of the war.

The S. A. T. C. has two branches, the collegiate, to which men qualified by high school graduation are eligible; and the vocational section, to which grammar school graduates are eligible. Recruits will be procured by voluntary induction.

"PROMISED LAND" DECLARED IRVING

ONE OF ENGLISH WRITER MADE GLOWING PREDICTION HAS LONG SINCE FULFILLED

Reunion Visitors In September at Tulsa Will See Monument To Irving Who Visited the Spot in 1832.

Tulsa, Okla., August.—In the early thirties, the renowned Washington Irving came over from England and made a tour of parts of the United States. His tour to the southwest included a stop among the Indians at the present location of the city of Tulsa. Local history has it that he paused on an eminence about a mile northwest of the center of the present business district of Tulsa, and took a comprehensive view of the valley of the Arkansas spread out before him. The following description of the landscape and prophecy of the future wealth of the community, appears in his sketches of the American tour:

"This seems to me to be the Promised Land, flowing with milk and honey. On the rich herbage of the prairies will be fed herds of cattle as innumerable as the sands upon the seashore. And the flowers that bedeck the prairies will be a paradise for a nest-loving being."

This was written October 13, 1832, about the time of year that the 28th annual reunion of the Confederate Veterans' Association will be held this year at Tulsa. The dates of the reunion are September 24-27 inclusive, or some ten days earlier in the year than the dates upon which Irving wrote his appreciation of the valley of the Arkansas. Visitors to the reunion will have an opportunity to enjoy the same river panorama, made more beautiful and promising by modern enterprise and a city of 50,000 people. The greatest agricultural section of Oklahoma is along the Arkansas, above and below the city of Tulsa, a land now flowing with milk and honey, fulfilling the Irving prophecy if not discounting it.

One of the beauty spots around Tulsa is Irving Circle, on the crest of a ridge north of the city now beautified by handsome residences. A monument has been erected there commemorating the visit and prophecy of Washington Irving made more than eighty years ago. The idea was originated and carried out by W. Tate Brady, chairman of the General Committee of the Confederate reunion organization. In the meantime, the prophecy of the great English writer has been discounted many times.

The comparatively ancient settlements of the Indians around Tulsa and throughout the state are full of interest. The footprints of the Indian have been obliterated by the march of modern progress, but by naming living settlements that were formerly had his tented villages, or wigwam abodes, cities have been built and towns laid out. His hunting grounds on the Arkansas have been converted into rich and productive farms. Alfalfa has taken the place of prairie grass, and domestic cattle graze in former haunts of the wild beast.

All over Oklahoma prosperous towns and cities have been built. They are laid out along modern lines of city building, and their people are enterprising and patriotic. Tulsa holds first place among Oklahoma cities for enterprise and progress. The city has grown more in the past ten years than any other city in the great southwest. It is amply able to care for a large number of visitors, such as attend the annual reunions of the Confederate soldiers. Had it not possessed all of the facilities for caring for the reunion, the Confederates would not have been urged to come here with their 1918 meeting. All who come to the reunion will be cared for in most satisfactory manner.

ANOTHER BLOW BY FOCH MOMENTARILY EXPECTED

Washington.—Another blow against the German lines as an answer to the peace proposal is expected momentarily by military officials. A series of simultaneous attacks will be believed. It is thought, with the Flanders front, the French operations about La Fere directed at Leon and the new American front across the mouth of the old St. Mihiel salient as the logical positions from which Marshal Foch would strike.

OVERCAME DIFFICULTIES ALMOST UNBELIEVABLE

With the American army in Lorraine—Difficulties almost unbelievable were overcome by the Franco-American troops who attacked the German line on the western flank of the St. Mihiel salient. The heaviest fighting occurred on this flank, as elsewhere along the line of last week's offensive. The attackers had to storm forests and thickets which were almost a solid mass of barbed wire.

"May there be none unenlisted"—Woodrow Wilson

SEPTEMBER 21 HONOR FLAG DAY

Counties That Have Received War Savings Honor Flags Requested to Raise Them September 21

Counties that have received their War Savings Honor Flag, or will have received them by September 21, are requested to celebrate the occasion by holding a patriotic rally on that day at the county seat. Col. W. H. Fries, State War Savings Director, urges the chairman of every county to make the plans for his county's celebration. Colonel Fries suggests that patriotic speeches, music, parades and a picnic dinner be made some of the features, and that every patriotic citizen of the county be invited to attend.

While the chairman of each county will make the plans for his county's celebration, Colonel Fries suggests that patriotic speeches, music, parades and a picnic dinner be made some of the features, and that every patriotic citizen of the county be invited to attend.

AN OKLAHOMA OIL WELL

People who go to the Confederate reunion at Tulsa, Okla., September 24-27 inclusive, will have the opportunity of seeing a thousand oil wells in full operation. They are scattered all over that portion of Oklahoma, many of them within sight of Tulsa. More than 300,000 barrels of oil are shipped from Tulsa alone every day. They are worth an average of \$2.25 a barrel. Oil is the main source of Tulsa's wealth.

FIRST CALL ON REGISTRANTS IS ANNOUNCED AS 181,838

Washington.—Draft calls announced by Provost Marshal General Crowder will send 181,838 men qualified for general military service to army camps before October 16. All states have quotas to fill. Of the total 142,000 will be white registrants who will enter between October 7 and 11. The remainder will be negroes, who will move in two groups, 39,616 entering between September 25 and 27, and 10,782 on October 16. Men who registered last Thursday, it was said at the provost marshal general's office, but in most localities sufficient men remain in class one from the registrations on last June 5 and August 24 to meet the requirements. North Carolina must furnish 1,374, South Carolina 793 and Virginia 1,342.

ASK ANYONE WHO HAS USED IT.

There are families who always aim to keep a bottle of Chamberlain's Colic and Diarrhoea Remedy in the house for use in case it is needed, and find that it is not only a good investment but saves them no end of suffering. As it is so reliable, ask anyone who has used it. For sale by all dealers.

Apparently the Finnish fly has begun to suspect that it is entangled in a German spider web.

Break your Cold or LaGrippe with few doses of 666.

With all the life guards scattered up and down the beaches a person must be very industrious to accomplish a successful drowning this summer.

BUY WAR SAVING STAMPS BUY WAR SAVING STAMPS

HEAD OF THE VETERANS

Gen. George P. Harrison, of Opelika, Ala., commander-in-chief of the United Confederate Veterans' Association.

NO PRESENT INCREASE TO BE ALLOWED IN SUGAR RATION

Washington.—Retention of the present sugar ration of two pounds a month for each person was announced by the food administration. The certificate system by which sugar is allotted dealers was explained. Notwithstanding the promise of a bountiful harvest the administrators agreed that food conservation must be intensified to carry out the plan of sending 15,000,000 tons instead of 10,000,000 tons overseas in the next year.

THE PRESIDENT DISCOURAGES SEPARATE WELFARE WORK

Washington.—President Wilson has decided that the seven recognized societies doing welfare work among the American soldiers at home and overseas shall conduct a joint campaign. Chairman Raymond D. Foadick, of the commission on training camp activities, announced that the campaign will be conducted during the week beginning November 11 and that the American people would be asked to give \$170,500,000 to the organizations.

Land Sale.

Under and by virtue of an order of the Superior Court of Alamance county, made in a special proceeding therein pending, whereof all the heirs-at-law of the late Geo. W. Whitted are duly constituted parties, the undersigned, as executor of the last will and testament of the said Geo. W. Whitted, will offer for sale at public auction to the highest bidder, at the court house door in Graham, at 12 o'clock noon, on

SATURDAY, SEPTEMBER 28, 1918, the following described lots of land:

First lot: A certain lot or parcel of land situated on the southern side of the North Carolina R. R. track, bounded on the North by the right of way of the North Carolina R. R.; on the East by the lands of Jack Mehane; on the South by the lands of Ben Mehane; and on the West by the lands of Kate Graves and Mr. Charles Harris; and containing about one acre, and being the home place of George Whitted, colored.

Second lot: A certain lot or parcel of land lying north of and bounded on the North by the lands of Hooker Holt; on the East by the lands of Joe Holt; on the South by the lands of Newman Preland; and on the West by the lands of Paul Tice; containing about one acre of land, and being that part remaining of the Beavers tract of land formerly owned by Geo. Whitted.

This is a re-sale and will start on the first lot at \$225.00 and on the second at \$182.50. Terms of Sale: One-half purchase price in cash; other half to be paid in six months. Deferred payments to be evidenced by bond of purchaser bearing six per cent interest. Sale subject to confirmation by the court.

J. DOLPH LONG, Commissioner

This September 12, 1918.

MORTGAGEE'S SALE OF LAND.

Under and by virtue of the power of sale contained in a certain mortgage deed executed by J. A. Sharpe and wife, Lona R. Sharpe, to the Central Loan & Trust Company, dated the 28th day of August, 1915, and recorded in the Office of the Register of Deeds for Alamance county, in Book of Mortgage Deeds No. 55, on page 137, and default having been made in the payment of the debts secured by said mortgage, will sell at public auction, at the court house door in Graham, North Carolina, on

SATURDAY, SEPTEMBER 28, 1918, at 11 o'clock a. m., the following described tract of land, to-wit:

A certain tract or parcel of land in Alamance county, State of North Carolina, adjoining the land of Geo. W. Vestal and others, owned as follows:

Beginning at an iron bolt on the Meane Real Estate & Trust Co., running thence with the line of Geo. W. Vestal N. 71 deg. E. 132.2 chs. to a stone corner with Geo. W.
